Dr. Robert A. Kehoe
Kettering Institute
Cincinnati, Ohio

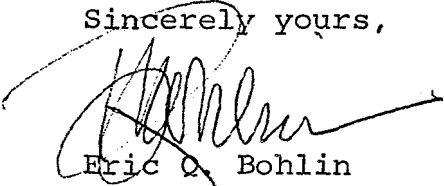

Dear Doctor:

We here at Eberhard Faber were very pleased and heartened with your testimony in the Welsh case. We were somewhat surprised at the quick settlement, since we felt that your testimony was a real "clincher", however the imponderables in the case I am sure influenced the insurance company to settle as they did.

In any case, it is a relief to us to know that this issue is behind us.

As a small token of our thanks, we are sending you under separate cover some personalized pencils for your use.

Sincerely yours,

Eric Q. Bohlin
