PROPOSED SPECIFICATION CHANGES
Carton for 20 Brick 9" Straight Insulating Firebrick
(Refer to preceeding page Spec. No. II-9176)

I. Style

No change

II. Dimensions

No change

III. Construction

Full-tab single wall corrugated board, "C" flute and made with Kraft liners. Outer liner to be water or steam finish. Cartons must comply with Consolidated Freight Classification Regulation Rule 41.

Manufacturer's joint to be 2" reinforced Kraft tape, or equal closure.

IV. Mullen Strength

No change.

V. Printing

Cartons shall be printed as follows:

A. Side Panels - As shown below and illustrated on pages 2 and 3 of this specification.

Form No.	Date	Color of Ink
JM-28 IN-31	11/15/55	Green
JM-3000 IN-33	11/15/55	Brown

Note: J-M 28 and J-M 3000 as printed on pages 2 of 3 and 3 of 3 of Spec. II-9176 should be corrected to read JM-28 and JM-3000

B. End Flaps - General proposal attached sheet "A".

In addition to the above printing, each box size shall be identified by printing the following in letters not more than 1/4" high just below the box maker's seal:

"20/9" ST."
