
A. Yes, I did.

Q. Are you as president ultimately responsible for the retention and supervision of the original file from which these documents came?

A. Ultimately I am, yes.

Q. Doctor, could you explain briefly for us during your tenure as president and from your review of the historical documents what is the requirement of the membership in the Industrial Health Foundation or its earlier names?

A. Membership has always been open to any organization with an interest in occupational health.

Q. How does an organization with an interest in occupational health go about joining the foundation?

A. They sign an application form which has essentially remained unchanged throughout that period.

Q. Which period is that?

A. From 1936 on, and they indicate which classification of membership they should fall into by reason of the number of employees they have.

Q. By classification is there a distinction
