Dr. Eunice Moore
Electrical Utilities Co.
LaSalle, Illinois 61301

Dear Dr. Moore:

Your testimony last Friday went perfectly; you made a splendid witness, and I think your testimony will prove to be extremely helpful to us. Let me express our most sincere appreciation for the able job you did in collecting the test results received by the members of the industry. Your Exhibit B showing these data will be an often-cited document in our brief to the Administrator. It dramatically makes the case that reputable testing laboratories using recognized and accepted testing procedures cannot agree in any meaningful way either with each other, or with the EPA, concerning the PCB level in industrial effluent.

Thank you again for your assistance. It was a pleasure having the opportunity to work with you.

Best regards,

John Michael Clear
