Mr. Arthur F. Uelner
Manager, Quality Assurance
Monsanto Company
Department of Medicine and
Environmental Health
800 North Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Mr. Uelner:

As a follow-up to your request on February 3, 1981 regarding the rat liver slides from IBT No. 8541-06672, these data are available for your review at our Northbrook facilities. It is IBT's policy to maintain slides on our premises.

IBT would be glad to schedule a pathology conference with a representative from Monsanto whenever the visit may be mutually convenient. Please contact Marily Biederer of our validation assistance team to confirm the necessary arrangements. However, if you plan to request an outside consulting pathologist to review the slides, please send Marilyn a letter of authorization to this effect.

If you should have any questions, please give me a call.

Sincerely,

Yvonne J. Bonahoom
President
