materials, I would know how you mix up a batch and form it and attach it to the metal plate and so on.

Q Okay. You testified about how you did some bulk sampling of the parts to determine what the asbestos content was, correct?

A That is correct.

Q And what was the asbestos content?

A It was about 50 percent by volume.

Q Okay. So am I correct, then, that 50 percent, the remaining 50 percent of the brakes is something else; is that right?

A That is correct.

Q Do you know what that material is?

A At least part of it was carbonate.

We didn't do an extensive analysis of the other material.

Q Were you asked to do some?

A No, we were not.

Q Okay. So you know part of it was carbonate.

Do you know how much was carbonate?
