LOCATION Bound Brook

SUBJECT: SAFETY

Most of the plants have a large outdoor sign for safety slogans, etc. This sign also has reference to lost time accidents.

Since we are now working with an OSHA program, it no longer refers to "Lost Time Accidents". You should consider showing this type of accident as "Lost Workday Cases." Your sign could show "Number of Days Since Last Lost Workday Case" and/or "Number of Lost Workday Cases."

The next time you refurbish these signs, you should take this into account.
