FYDRAULS

In recent discussions concerning the labeling of FYDRAUL 150 it was agreed that there is some hazard in the FYDRAULS that contain Aroclor. An agreement was reached concerning the labeling of these products with the caution statement, and I have arranged with the printer that the next time these labels are printed they will bear a caution statement as follows:

CAUTION! AVOID PROLONGED AND REPEATED CONTACT WITH SKIN.
AVOID PROLONGED BREATHING OF VAPOR OR FUME.

The products involved are: FYDRAUL 150, AC, 625, and F-9.
