Mr. W. G. Cowan Nov. 12, 1948

Messrs. Robinson - Maxwell - Limerick - Eckert -
Letcher - Herscovitz - High

CALSILITE

Following my letter to you dated October 26, under the caption "Calsilite Meeting on October 26, 1948", wish to advise you that I have just received advices from Mr. Herscovitz under date of November 10 in regard to the Calsilite Cement experimental jobs conducted in the Western Division, which reads as follows:

"Four experimental jobs were applied in the Western Division.

"A report on all four jobs has already been mailed to Mr. High, and I assume he has passed on the reports to all concerned.

"The reports are all good."

In view of the foregoing I request that the Engineering Dept. prepare an estimate of the cost of the equipment which will be required to produce this cement and submit same to me without undue delay, in connection with the other items referred to at the Calsilite meeting held on October 26, as outlined in Mr. J. W. Robinson's letter to Mr. W. G. Cowan dated October 27.

President
