Re: Irradiated Plastic Pipe Proposal

Dear Mr. Kelly:

We have your letter of July 21st. I do not know positively whether or not Dr. Boyer has sent you the additional information in response to your May 27th letter. I do know, however, that he has been working on it.

In any event, he is presently on vacation until the middle of August so that if you do not have the further particulars already, you can certainly expect them before the end of next month.

After that, we will look forward to getting together with you.

Sincerely,

THE DOW CHEMICAL COMPANY

Jerome Rudy
