SUBJECT : American Mineral Spirits Co.
New York

REFERENCE : (Roma Adhesive)

TO : JFQ Res
N. W. Touchette

Work Request #64-154
Priority "A"

Under separate cover a sample of adhesive is being sent to your attention. Attached are copies of American Mineral Spirits letter to Bill Maddox and their "Salesman's Report" dated 12/4/64.

Subject is requesting identification of both resin and plasticizer. Do you feel we can classify from observation the resin merely as PVAC? Hopefully it will not require too much work to identify the plasticizer.

Your early handling of this will be appreciated. Thanks.

John Orem
