ATTENTION: The Secretary

Gentlemen:

ICD/462/MB/FIRE - Application for approval of high-pressure decorative laminates.

In response to your letter of July 24, 1978, you will find attached a letter from the U. S. Coast Guard reinstating Certificate Approval No. 164.012/4/0 for our PFR-1 MICARTA.

The second item mentioned in the memo, Certificate No. 164.012/3/0 is an asbestos-filled product. This product was withdrawn for obvious reasons - the asbestos content.

In reference to the third and fourth paragraphs of your letter, would you please elaborate on what specifically is needed above and beyond the U. S. Coast Guard Certification of Approval Number and the U. L. Listing cards submitted with my June 12th letter.

I would appreciate an approximation of the fee involved.

The thicknesses of our laminates are:

PFR-1	.032 ± .005
	.050 ± .005
	.060 ± .005
VS	.030 ± .005
S	.050 ± .005

Very truly yours,

WESTINGHOUSE ELECTRIC CORPORATION

Daniel L. Cannady

Gentlemen:

Subj: Approval of Interior Finish

Ref: Your letter of 19 April 1977

In response to your request, we are reinstating Certificate of Approval Number 164.012/4/0 for your PFR - 1 Micarta, and withdrawing approval of Certificate Number 164.012/7/0. We understand that the latter product is no longer being manufactured.

Sincerely,

N. W. LEMLEY
Chief, Survival Systems Branch
Merchant Marine Technical Division
By direction of the Commandant
