By error Carey Canadian Asbestos Corp. shipped 100,000 pounds of 7RF-66 asbestos to your plant against the subject purchase order instead of 50,000 pounds.

To correct this, in order to keep your inventory level low in the event we suddenly discontinue asbestos usage, we are asking that you ship a full truckload of 40 to 50,000 pounds to Marietta as soon as this car comes in.

Rosemont Traffic advises Builders Transport can move this at a rate of $1.58/cwt on 40,000 pounds minimum.

Bill Marietta at your net delivered cost and ship freight collect.
