

Custom Fitting For Dream Home

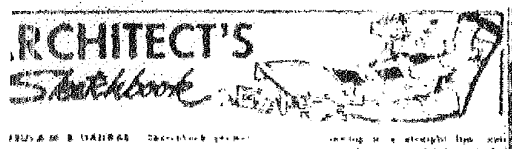
Planning to build a home? You can make it a dream home for the beginning to design the walls and kitchen, custom-fitted to suit your requirements.

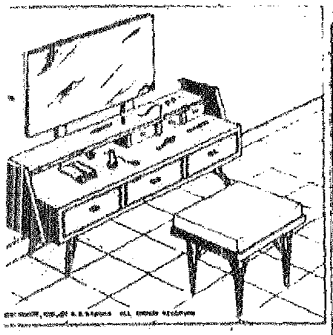
The kitchen is the most important room in the home, it should be designed with the utmost convenience. For the average woman, the kitchen is where she spends the greatest part of her day. Here she prepares the family meals, entertains friends, and supervises the children's activities. It is the room where she spends the most time, and it should be designed to suit her needs.

Landscaping Helps Price

Landscaping helps the price of a home. Many people think that landscaping is only for the rich, but it is not. Even a small amount of landscaping can add value to a home. It can also make the home more attractive and more enjoyable to live in.

Landscaping can include planting trees, shrubs, and flowers, as well as building walls, fences, and paths. It can also include the installation of a sprinkler system. The cost of landscaping depends on the size of the area and the type of plants and materials used.





NEW, LOW, LUXURIOUS. Simple and uncluttered modern line makes it easy for anyone to make this vanity-and-sink with the basic tools in every home. To order easy-to-follow plans for Bedroom Vanity S-55, fill in the blanks below, cut out this coupon and mail with 50 cents to SKETCH BOOK, in care of this newspaper.
