Renew and Protect Home Surfaces

with Syracuse Herald July 1/16

PENINSULAR VARNISHES

For worn woodwork, marred floors, scuffed corners, scarred furniture and generally shabby surfaces about the average home, nothing transforms, making fresh and new like good varnish does. Peninsular Varnishes are good varnishes, each made especially for the purpose offered. Peninsular Floor Varnishes are tough, long lived, made to walk on, romped on or danced on. Peninsular Varnishes for interior woodwork give that finished appearance which lasts and withstands hard usage.

Peninsular Exterior Varnishes for outside surfaces hold their luster and are made to meet all weather conditions. For house owners, contractors, architects and others interested in a general purpose varnish for inside or outside use, Peninsular Pen Spar will have a convincing appeal. This remarkable varnish was developed to endure the most severe wear and exposure. It will not mar or scratch white and can be used with equal satisfaction on floors, table tops, chairs, woodwork, doors, interior or exterior, autos or any surface where a high grade finish is desired.

Free to Painters

The dealers below have a limited supply of half pints of Peninsular Pen Spar Varnish for free distribution. Call and get yours before the supply is exhausted. Pen Spar Varnish has so many advantages that we want you to try it out and prove it to your own satisfaction. That's how confident we are of the goods.

Free to Householders

Bring this ad to any of the stores below and you will be given free (while they last) a full size half pint can of Peninsular Pen Spar Varnish, enough for a table top, stair landing, several window sills, a front door or any other surface requiring varnish attention.
