

DUTCH BOY ROUNDS OUT THE LINE!

*3 new products so that now you
can get Dutch Boy QUALITY
throughout!*

●Three new products, including an improved soft-paste white-lead, now make it easy to insure Dutch Boy quality throughout on every white-lead painting job. By rounding out this famous family, these products enable you to obtain beautiful and durable finishes, either interior or exterior, that are "Dutch Boy" even to colors-in-oil and drier.

Dutch Boy ALL-PURPOSE Soft Paste White-Lead is the first of these improved paint products. It is a rapid-mixing soft-paste which can be used for inside or outside work with equal ease and success. Mixed with linseed oil, it gives a durable exterior gloss finish—the kind that Dutch Boy is noted for. With flattening oil, it produces a fine, washable inside flat finish, without a vestige of "flashes" or shiny spots.

Dutch Boy Colors-in-Oil comes next. This is a line of best quality oil colors specially developed for tinting white-lead paint. These colors have strong tinting power and are absolutely accurate in color tone. They disperse into the paint quickly without streaking because they are made in a "short," buttery paste form.

Dutch Boy Liquid Drier is the third of these newcomers. This is a paint drier that is properly "balanced"—a drier of uniform quality and strength, made up of just the right ingredients. You can depend upon it to give characteristic Dutch Boy performance.

These three products, together with their older Dutch Boy companions listed on this page, greatly simplify your task of buying highest quality paint materials. Standardize on Dutch Boy Products for both interior and exterior surfaces—and insure beautiful, durable finishes that cut repainting and maintenance costs to a minimum.

Paint Products**

★

DUTCH BOY LINSEED OIL. Pure, clear, well-settled linseed oil. Either raw or boiled. Sold in 1 and 5 gallon sealed containers. Only the best of selected oil is sold in these sealed cans.

DUTCH BOY FLATTENING OIL. A carefully blended flattening liquid for use with white-lead to produce both flat and semi-flat paint for modern interior painting. Gives a finish which is sanitary, washable, durable, beautiful and economical. For use also as a blending, glazing and browning liquid. Sold in quart, gallon and five-gallon sealed containers.

DUTCH BOY WALL PRIMER. A special primer developed for use in white-lead painting. Stops suction, seals fire cracks and, at same time, serves as first coat. Possesses exceptional hiding power. Forms a tightly adhering foundation for succeeding coats of white-lead. Works equally well on all interior surfaces—plaster, wallboard, insulating board, brick, concrete. Sold in half-gallon and one-gallon cans, 5-gallon kits and 30-gallon barrels.

DUTCH BOY RED-LEAD. Available in two forms—paste and liquid. The standard tint for iron and steel. Paste is sold in natural orange-red (12½, 25, 50 and 100 lb. kegs) and can be shaded to dark colors for finishing coats. The liquid (gallon cans and 2½ gallon kegs) comes in orange-red, two shades each of brown and green; also in black.
