Q Is that on a daily basis or -- from 1961 to 1975?

A It was on a time-to-time basis from the period of 1971 through 1975.

MR. TRYNIECKI: That is all I have.

MR. MC GLYNN: No questions.

MS. KNOWLES: I have a couple of questions.

EXAMINATION

BY MS. KNOWLES

Q I am Jeanne Knowles, I represent Wagner Electric.

First of all, could you tell me what constitutes a brake assembly?

A A brake assembly is a -- in the instance of a disc-type brake, is the caliper, the shaft cylinder and the disc pads.

Q What about a drum brake?

A On a drum brake, it is the shoes, which are mounted to a backing plate, which includes the shaft cylinder and part of the parking brake mechanism, if it is a rear brake.

Q That would include brake linings, also?

A Yes.

Q Did you testify that you don't know of anyone in the company that would have any information regarding the percentage of volume that is purchased, of brake materials, that are purchased from various suppliers?

A Yes, I did.
