United Crusade Campaign Under Way at Watsonville

WATSONVILLE — Campaign headquarters for the United Crusade were moved to 318 E. Main Street Wednesday as the advance gifts committee continues to accept pledges from individuals and companies in the area. "We're bringing this campaign right down to earth," declared Edward Callender, United Crusade president, in explaining the move. "Workers and contributors will no longer be required to make a flight of stairs as they pass by the headquarters of the crusade building."

Callender expressed thanks for the chamber cooperation, but pointed out that a sound floor plan would also enable the crusade to use extensive window displays to put forth the activities of the six organizations in the crusade. The new headquarters is a two-story building, occupied by a drug store.

From this new campaign headquarters, the appeal for contributions to the crusade will be outlined the part women of the Watsonville area can play

in both the fund raising and welfare activities. The complete list of chairmen has been announced. In addition to the advance gifts under direction of Frank Liberman and Earle Johnson, the following have been named:
