ALUMINIZED ASBESTOS CLOTH STYLE T2120

Supplementing my letter of January 20th regarding the above, I am attaching hereto a letter from Turner Brothers Asbestos Co. Ltd. with their statement regarding the patent situation in connection with the KST 424 Asbestos Cloth which we are planning to purchase and resell.

Whether or not this letter gives you any additional information I do not know but when you arrive at a conclusion on this entire matter I would like to have a letter from you covering your recommendations.
