OCF 435-D was received into evidence.)

BY MR. McGOWAN:

Q Will you read to the jury the language contained on that notice?

A Caution, product contains asbestos fiber. Inhalation of dust in excessive quantities over long periods of time may be harmful. Avoid breathing dust.

If adequate ventilation is not possible, wear respirators approved by the U.S. Bureau of Mines for pneumoconiosis-producing dusts.

Q And, Mr. Helser, you said this was placed on the top of the carton?

A Yes, it was.

Q So if someone had to open it, they would have to pull the flat where this was contained?

A Yes.

Q Now, let me ask you a question.

Back in 1970, did you know what the word pneumoconiosis meant?

A I don't believe at that point I did, no.
