Mr. Frank Tully
Director
Government-Environment Relations
Goodyear Tire and Rubber Co.
Akron, Ohio 44316

Dear Mr. Tully:

Confirming our discussion, we will meet with you on Tuesday, May 6th in Akron to hear your presentation on PCB removal from heat transfer fluids. Dr. Quentin Thompson, Senior Research Fellow will accompany me.

We will fly in in the morning arriving in Cleveland at 12:30 p.m. on American 558. We will return on American 173 leaving Cleveland at 5:25 p.m.

I am sorry about the delay but we had too many conflicts in our schedule.

Sincerely,

J. Coleman Weber
