MASTER CATALOG

SECOND EDITION J.A. Sexauer, Inc. 10 Hamilton Avenue White Plains, New York 10601

CONTENTS

GENERAL INDEX ..... II thru IX

INTRODUCTION, TERMS & SERVICE INFORMATION ..... X thru XVIII

Section 0: COMPLETE FAUCETS

Complete Lav., Sink, and Tub & Shower Fittings ..... 0-1 thru 0-8

Section 1: GENERAL MAINTENANCE PLUMBING & HEATING REPAIR PARTS

Washer, Gaskets, O-Rings ..... 1-2 thru 1-22
Screws & Fasteners ..... 1-23 thru 1-27
Handle Repairs ..... 1-28 thru 1-58
Stems, Seats & Cartridges ..... 1-59 thru 1-159
Supply & Drain Tubing Repairs ..... 1-160 thru 1-177
Heating Repairs ..... 1-178 thru 1-184

Section 2: TOOLS, KITS & CHEMICALS

General Purpose & Specific Plumbing Repair Tools ..... 2-4 thru 2-26
Cleaners ..... 2-28 thru 2-30
Lubricants, Sealers, & Packing Compounds ..... 2-30 thru 2-34
Handy Andy Repair Assortments ..... 2-36 thru 2-48
Rebuilding Kits For Specific Faucets & Valves ..... 2-50 thru 2-74

Section 3: COMMERICAL & INSTITUTIONAL REPAIRS

Repairs For Vacuum Breakers, Lever & Rotary Wastes, and Coffee Urns ..... 3-2 thru 3-9
Grab Bars & Vandal-Proof Products ..... 3-10 thru 3-14
Repairs For Institutional Lavatory, Sink and Tub & Shower Fittings ..... 3-14 thru 3-40
Hospital Fittings Repairs ..... 3-41 thru 3-55
Drinking Fountain Repairs ..... 3-56 thru 3-73
Pressure Flush Valve & Urinal Repairs ..... 3-75 thru 3-114

Section 4: LAVATORY REPAIRS

General Maintenance ..... 4-2 thru 4-13
Repairs For Specific Fittings ..... 4-14 thru 4-47
Repairs For Specific Single Lever Fittings ..... 4-48 thru 4-56

Section 5: KITCHEN & UTILITY SINK REPAIRS

General Maintenance ..... 5-2 thru 5-28
Repairs For Specific Fittings ..... 5-29 thru 5-72
Repairs For Specific Single Lever Fittings ..... 5-73 thru 5-83

Section 6: TUB & SHOWER REPAIRS

General Maintenance ..... 6-2 thru 6-17
Repairs For Specific Fittings ..... 6-18 thru 6-34
Repairs For Specific Single Lever Fittings ..... 6-35 thru 6-54

Section 7: TOILET & TANK REPAIRS

Toilet Bowl Repairs ..... 7-3 thru 7-17
Flush Valve Repairs ..... 7-18 thru 7-24
Ballcock Repairs ..... 7-25 thru 7-37

THE SEXAUER CATALOG CONCEPT

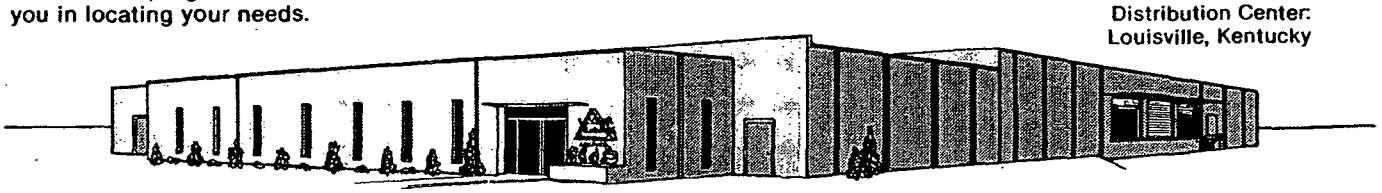
Locating the item you need out of the thousands shown in specialty catalogs, and knowing you are right can be difficult. We at Sexauer realize this problem and, after much research and countless customer interviews, have designed our catalog into Seven separately organized Sections to make it easier for you.

Five of these Sections contain information and items organized according to the **LOCATION OF THE REPAIR.** We offer one Section for TOILET REPAIRS, one for TUB & SHOWER REPAIRS, one for INSTITUTIONAL VALVE REPAIRS, etc. Inside these sections are original manufacturer's Valve Diagrams and Parts & Descriptions of those items specifically related to that one type of fixture.

The other Sections contain parts and items that have a more broad usage (screws/washers) and those that, because of many different varieties available, are shown in easy reference groupings (i.e. Stems and Handles) to help you 'match' and locate unidentified parts. Also, one Section presents special Sexauer TOOLS, KITS & CHEMICALS, organized and described in a manner to aid you in locating your needs.

Main Office:
White Plains, New York

Distribution Center:
Louisville, Kentucky



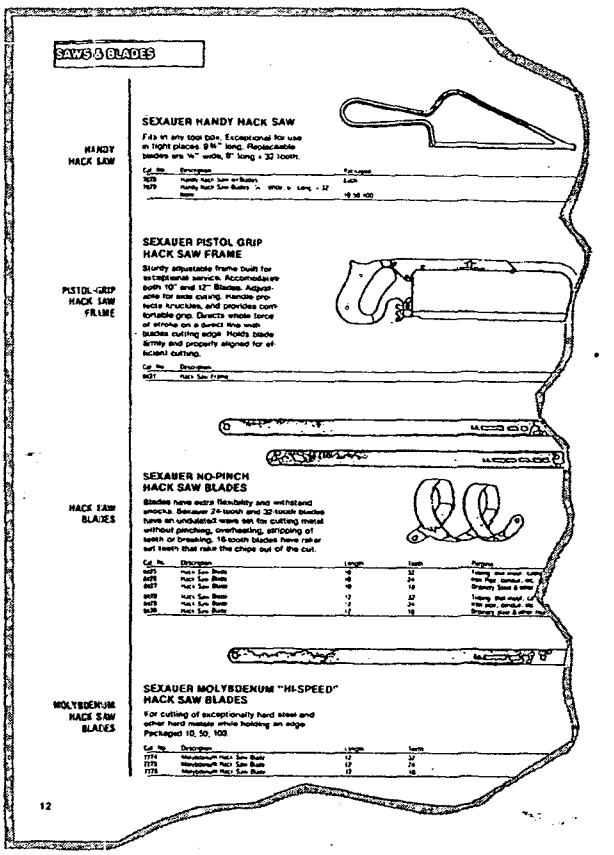
JASBlatt00884

HOW TO USE THIS CATALOG

The Sexauer Catalog has been designed to create a natural progression, from very GENERAL CATEGORIES, to groups of RELATED ITEMS and finally to SPECIFIC ITEMS.

For example, suppose you are looking for a particular kind of Hack Saw Blade to cut through a certain type of material. First, go to the section containing TOOLS, then open it to the SAWS & BLADES pages. Read down the contents list in the left hand margin until the desired group of items is reached. The specific blade you need will be found opposite this list.

To further aid you, a comprehensive index is located at the beginning of the catalog.



SAWS & BLADES

HANDY HACK SAW

SEXAUER HANDY HACK SAW

Fits in any tool box. Exceptional for use in tight places. 9¾" long. Replaceable blades are ½" wide, 8" long x 32 tooth.

PISTOL-GRIP HACK SAW FRAME

SEXAUER PISTOL GRIP HACK SAW FRAME

Sturdy adjustable frame built for exceptional service. Accomodates both 10" and 12" Blades. Adjustable for wide swing. Handle provides knuckles, and provides comfortable grip. Directs whole force of stroke on a direct line with blades cutting edge. Holds blade firmly and properly aligned for efficient cutting.

HACK SAW BLADES

SEXAUER NO-PINCH HACK SAW BLADES

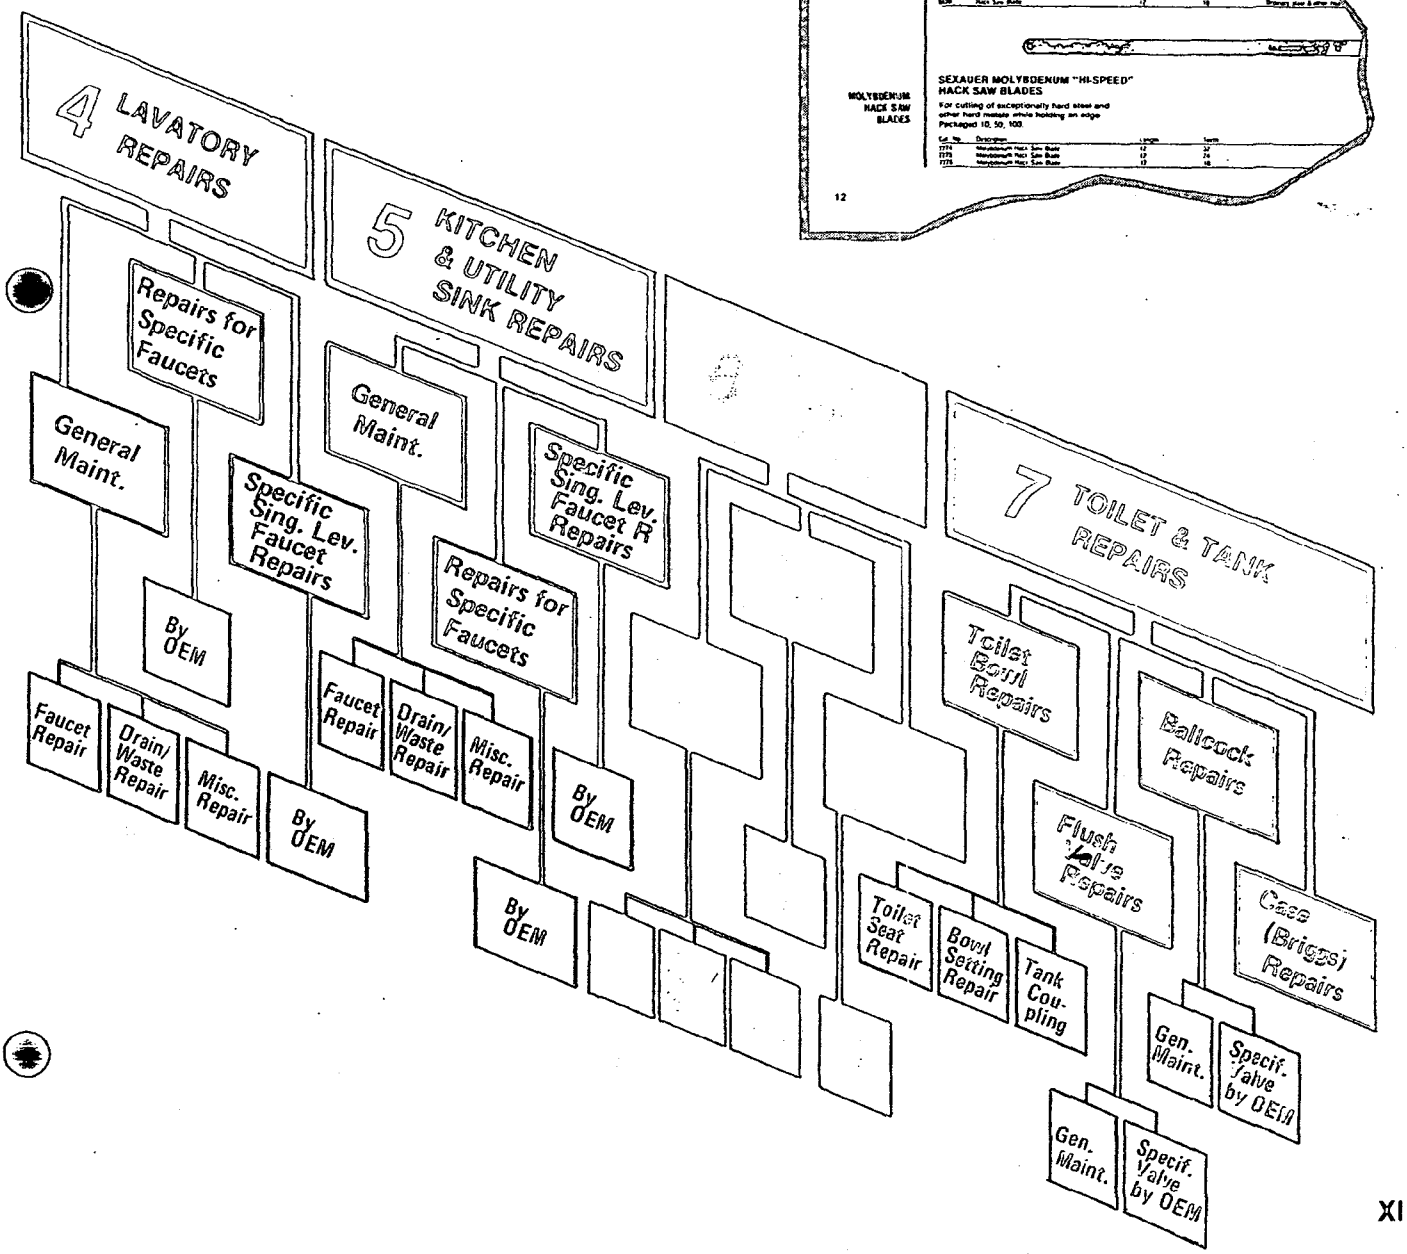
Blades have extra flexibility and withstand shocks. Sexauer 24-tooth and 32-tooth blades have an undulated wave set for cutting metal without pinching, overheating, stripping of teeth or breaking. 18-tooth blades have raker set teeth that rake the chips out of the cut.

MOLYBDENUM HACK SAW BLADES

SEXAUER MOLYBDENUM "HI-SPEED" HACK SAW BLADES

For cutting of exceptionally hard steel and other hard metals while holding an edge. Packaged 10, 50, 100.

12

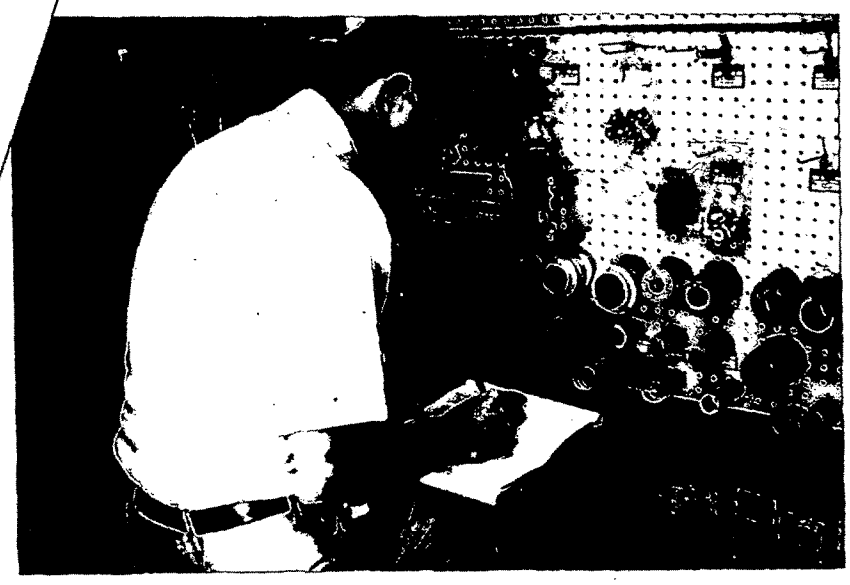


JASBlatt00885

Sexauer is big. We're the largest supplier of plumbing repair parts in the world.

When we were founded in 1921, all we had was a tiny loft in New York City, fewer than twenty employees and an entirely new concept. We were the first single source of tools and replacement parts for all kinds of plumbing fixtures, regardless of manufacturer!

The last 57 years have seen lots of changes in Sexauer. Now more than 250 employees report to our executive offices in White Plains, New York. 110 District Managers bring Sexauer's capabilities to the doors of hospitals, schools and colleges, apartment and office building complexes, industrial plants, and governmental agencies throughout the fifty states and overseas as well.



Key man in the Sexauer system is the District Manager who checks your stock, maintains adequate inventory levels for you.

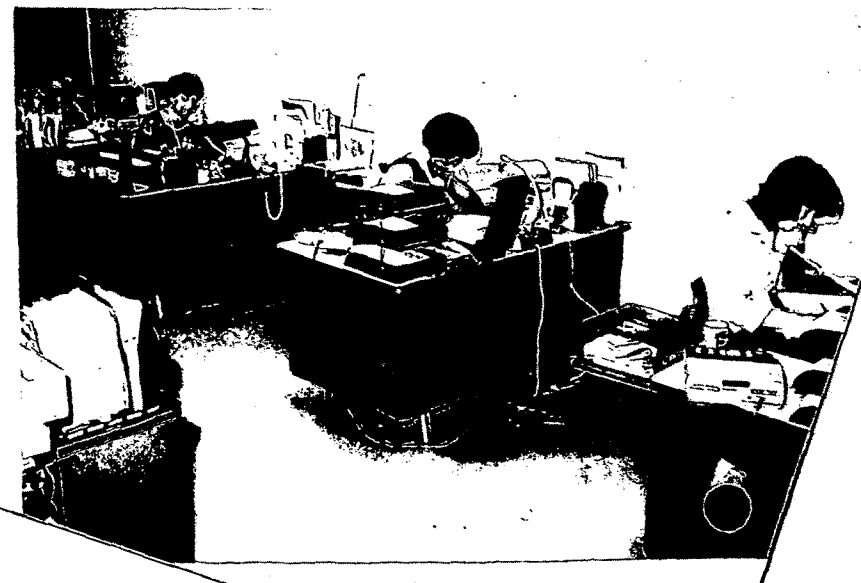
Today we stock not hundreds but tens of thousands of tools and parts in our modern, completely automated warehouse, centrally located in Louisville, Kentucky.

What has not changed is our concept of providing the highest quality of parts to every Sexauer customer and helping him in every way possible to achieve the best possible maintenance of his plumbing fixtures and fittings with the least expenditure of time, energy, and money. Providing this kind of service demands a complete system. Here's how it works:

It all begins with the District Manager who calls on you. He starts out by surveying each and every one of your plumbing fixtures, determining the type, make, age, freguency of use of each, and then estimating the kinds of parts and the number of parts required by each over a given period of time. He uses this information to design a custom repair parts inventory just for you.

Working with you and your staff, the Sexauer District Manager checks your current stock against the new inventory, helps you achieve maximum utilization of your stockroom space, suggests an ordering program to bring parts on hand more closely in line with recommended levels.

Between-call needs are easily satisfied by calling Sexauer directly over toll-free WATS line number 800-432-1872. We're on hand to take your order until midnight.

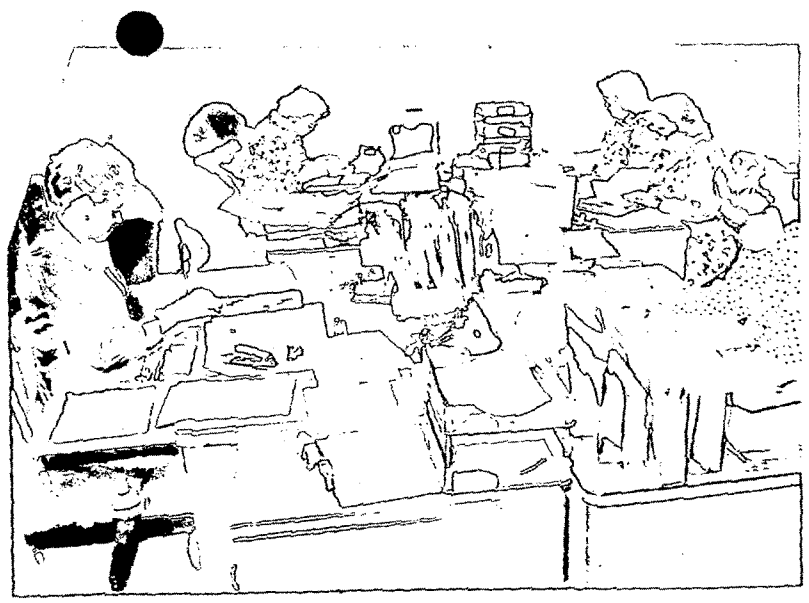


JASBlatt00886

We find it easy to keep track of your needs because of our advanced techniques for controlling our own parts inventory. Every order is entered into our computer and automatically followed up.

The Sexauer District Manager continues to call on you at regular intervals, checking stock against predictions, modifying the inventory to incorporate the lessons of day-to-day experience, balancing stock, and when necessary, preparing orders for needed parts. It won't be long before you'll find yourself better prepared for routine plumbing fixture maintenance than ever before, *without* overbuying!

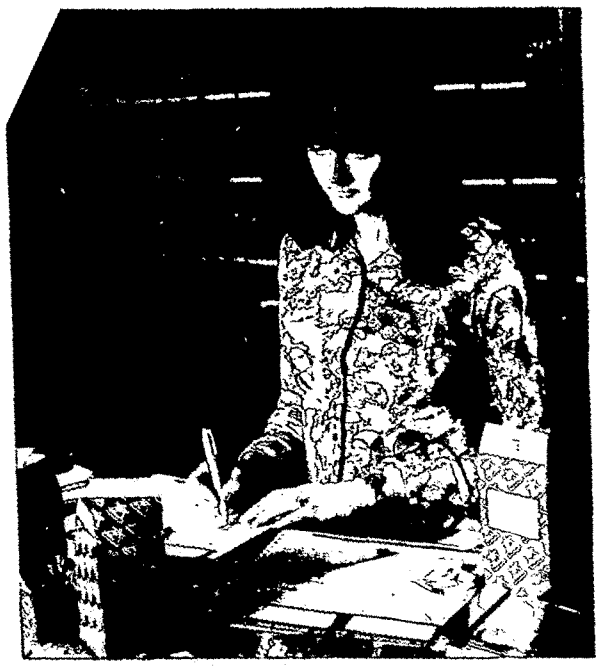
You'll be amazed at how well your new custom inventory prepares you for maintenance needs. But even the best inventory program can't anticipate every need. To do that you'd have to maintain an enormous, expensive, and impractical stock of rarely needed parts. But the Sexauer system is a better way! When the day comes that the part you need can't be found in *your* stockroom, we'll lend you *our* stockroom. All you have to do is call us toll-free on our WATS-line number: 800-431-1872. We'll take your order any time up until midnight, and ship the part out to you fast, by UPS - or even air if necessary. The fact is, more than 90% of all orders are shipped within twenty-four hours of their reaching the warehouse in Louisville.

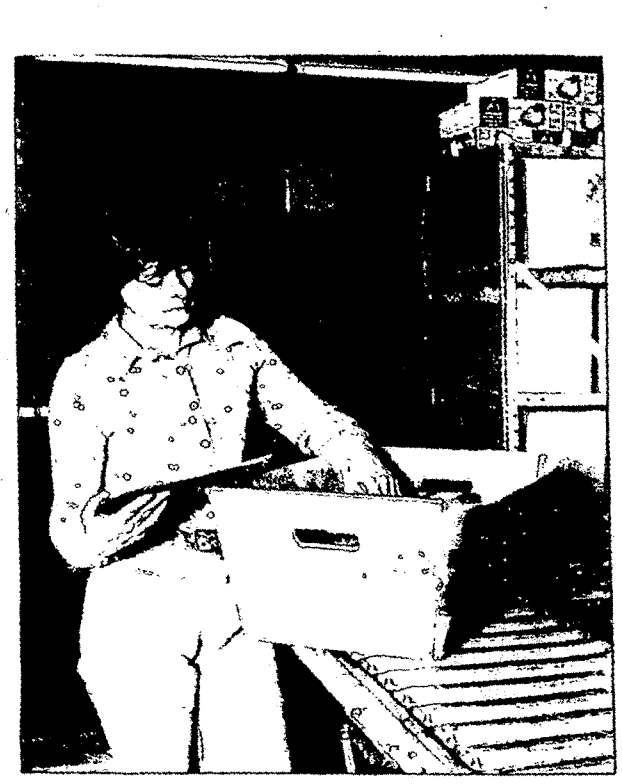


Every single order you place with Sexauer is checked several times before you receive the goods you need. The first check is the order itself to make sure it makes sense.

Sexauer Handy Andies started the trend to pre-packaged part selections and they're still among our most called-for products. Here they are being assembled at our Louisville Distribution Center.

JASBlatt00887





After your order has been picked, it is subjected to a final check against the original order. Only then is the complete order packaged for safe shipment to you . . .usually by UPS but by air if necessary.

With the Sexauer District Manager handling most of your inventory control problems, you'll be amazed at how much extra time is freed up for the actual maintenance work itself. And with Sexauer's unmatched experience at your service, you'll find yourself stumped by fewer maintenance problems than ever before. Even when you need a tool so special that you can't find it anywhere, or a part discontinued by the original manufacturer many years ago, chances are Sexauer can find it for you or have one made if the need is great. You end up saving money by being able to repair a fixture that would otherwise require expensive replacement.

Call Sexauer today and let a Sexauer District Manager show you just how much plumbing fixture maintenance time, energy, and money the Sexauer system can save you.

JASBlatt00888

TERMS & CONDITIONS OF SALE

TERMS

MINIMUM ORDER INVOICE: $10.00

2% Discount 10 days from Date of Invoice Net 30 days.

Invoices not paid according to terms are subject to MONTHLY SERVICE CHARGES OF 1% per month (which is an ANNUAL PERCENTAGE RATE of 12%.)

DELIVERY

Shipments are normally made via cheapest route. Delivery is contingent on government regulations, strikes and other circumstances beyond our control.

Orders "UNDER $50.00" are shipped F.O.B. Louisville, Ky. Minimum $1.50 shipping and handling charge.

Orders of "$50.00 or MORE" are prepaid to destination within Continental United States. Orders including liquid "Mule-Kick" Cleaners — must be shipped via freight, due to governmental regulations.

CLAIMS, DEFECTS & DAMAGE

Claims for shortage must be made within 10 days after receipt of shipment, To J.A. Sexauer, Inc., 10 Hamilton Avenue, White Plains, N.Y. 10601. Items defective in manufacture will be replaced without charge.

Our liability is limited to the replacement of defective parts and does not extend to damages, or losses due to the use or inability to use, or failure to follow specific instructions in use of any of our products.

RETURNS

No returns permitted without our written authorization nor after 120 days from date of invoice. Returns so authorized must be made to 1800 Research Drive, Louisville, Ky. 40299.

When orders have been correctly filled, and unless defective material is involved, RETURNS ARE SUBJECT TO A 15% HANDLING CHARGE.

PRICES & TAXES

Prices and discounts are subject to change without notice. Unless otherwise agreed, all orders are accepted on the basis of "PRICES PREVAILING AT THE TIME OF SHIPMENT"

All local, state, federal or special taxes (including sales and use taxes) now or hereafter imposed, shall be paid by the buyer — unless an exemption certificate is on file with "Sexauer."

All orders subject to acceptance by

J.A. Sexauer, Inc.

10 HAMILTON AVE., WHITE PLAINS, NEW YORK 10601

HOW TO ORDER

Print or type your order using your company's stationery or Purchase Order and include order number, date, your firm's name, address and zip code. If the shipping address differs from the billing address, please indicate this on the order. Specify items by catalog number, quantity, and description of item. Consult the terms and conditions of sales page for specific information regarding freight allowances, terms, etc. For C.O.D. orders please state C.O.D. on your order. When making payment with an order, please attach the check to your order form. Open accounts are subject to approval by our credit department.

The Sexauer Plumbing Maintenance Survey

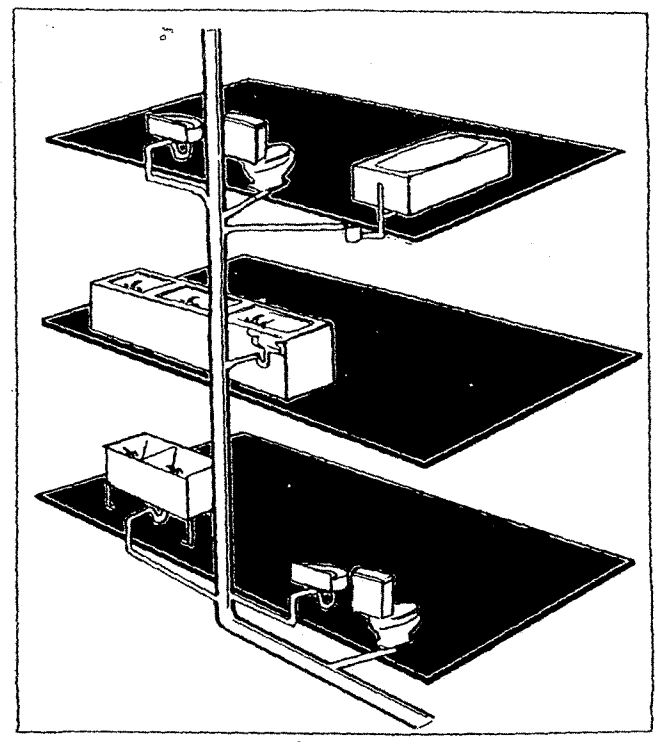
LET SEXAUER WORRY ABOUT YOUR PLUMBING REPAIR PART NEEDS

The SEXAUER SURVEY provides a systematic and thorough guide to your repair needs. It establishes an intelligent stock level for each item in relative proportion to normal use. Often this Survey gives maintenance departments their first really clear picture of the many types and sizes of items essential to the efficiency of their maintenance program.

HERE'S HOW IT WORKS!

At no cost to you, an experienced Sexauer Technician checks your existing plumbing fixtures. Using this copyrighted Survey Form, he puts his skill and experience to work. Carefully, accurately, he compiles an itemized picture of the exact sizes and types of replacement parts needed for all fixtures and connections. In this way, he determined the quantities of each that are subject to replacement.

SEXAUER®

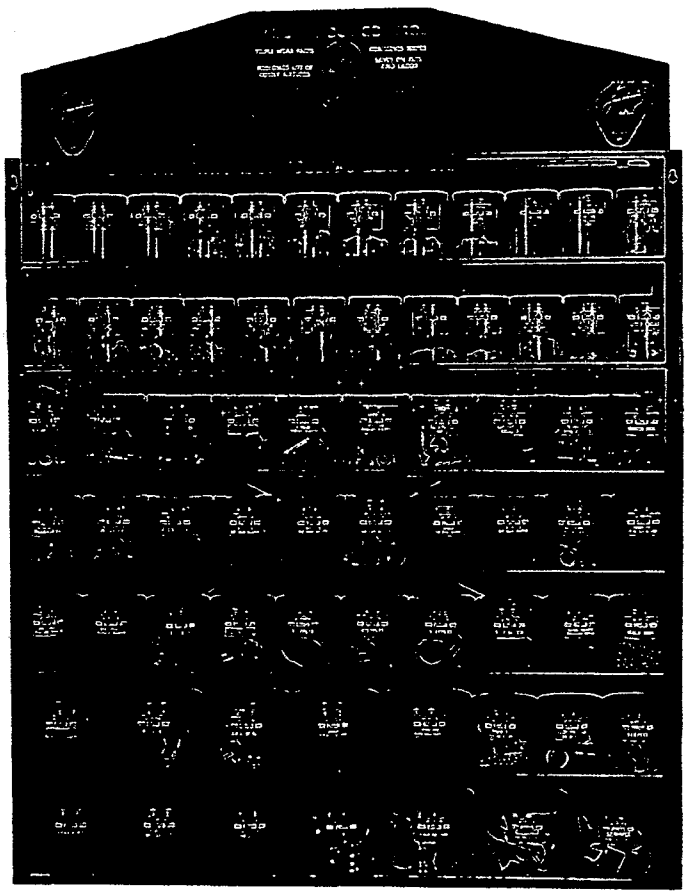


Every plumbing fixture under your maintenance program is checked.

JASBlatt00890

SEXAUER VISIBLE STOCK CONTROL

THE MOST EFFICIENT & ECONOMICAL METHOD OF STOCKING & CONTROLLING YOUR INVENTORY OF PLUMBING REPAIR PARTS.



- *SAVE TIME LOCATING NECESSARY REPAIR PARTS*
- *PREVENT OVERSTOCKING*
- *BE SURE THAT NECESSARY PARTS ARE ALWAYS ON HAND*
- *PREVENT SPILLAGE, MIXING & DETERIORATION OF PARTS WITH STURDY SCREW CAP CONTAINERS*
- *LET YOUR SEXAUER REPRESENTATIVE TAKE CARE OF INVENTORY PROBLEMS*

The *V.S.C.* coupled with our exclusive plumbing maintenance survey offer you the most complete system of repair part inventory management available. Your local Sexauer representative will assemble and install your Visible Stock Control, & then furnish and affix labels to the containers - clearly identifying contents by name & size. Your *V.S.C.* will then be periodically checked & serviced to maintain its maximum efficiency, and to advise you of shortages before the stock is depleted.

The Sexauer Visible Stock Control System easily hangs on wall or stands solidly on floor. The sturdy heavy gauge metal shelf-cabinet is easily assembled and specially designed for clear visibility & access to repair parts. The *V.S.C.* is furnished with 3 sizes of 72 transparent plastic containers that have metal screw on caps. Complete unit comes with (12) 32 oz., (36) 16 oz. & (24) 18 oz. containers. Containers and metal cabinet also available separately. Overall dimensions: 49" height x 37" width x 5" deep with 7 shelves.

Cat. No.	Description	Weight	Packaged
076141	V.S.C. Complete, w/Metal Rack & 72 Containers	40 lbs.	Each
076158	V.S.C. Metal Rack, only	24 lbs.	Each

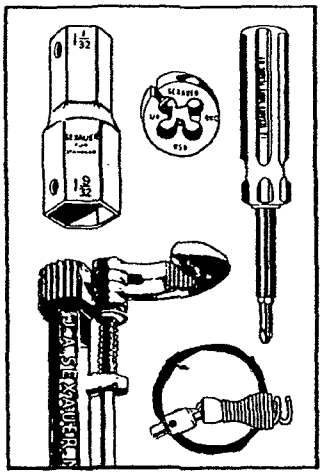
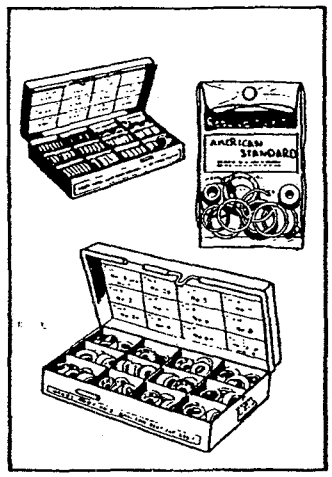
Sexauer Plumbing Repair Products Let You

FIX IT . . . AND FORGET IT!



•Tools

Top quality Sexauer Tools help make tough jobs easier. A complete line of over 250 different specialized and general purpose tools are available. Many are specially designed or patented with your requirements in mind.

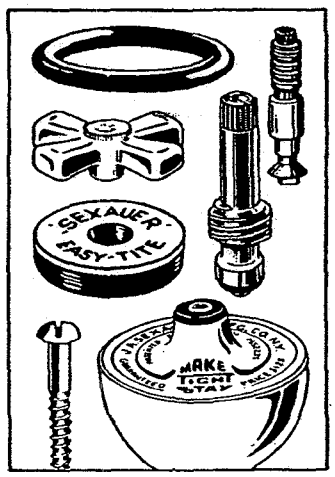


•Kits And Assortments

Sexauer sorts it all out! Handy Andy repair assortments and Rebuilding Kits for specific-model fittings put the right parts at your fingertips and help you achieve effective, fast repairs. Designed by professionals. . .for use by professionals.

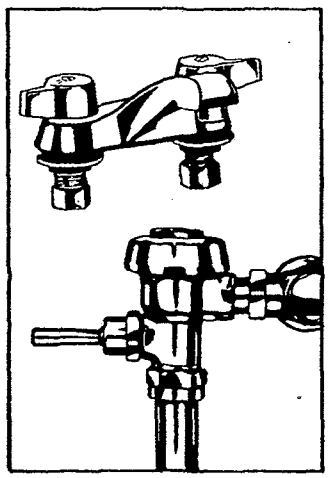
•Chemicals And Compounds

Our heavy duty industrial strength compounds and cleaners *perform.* From our super-tough drain cleaners, to our pipe-joint and sealing compounds, they all do the job they're supposed to. . .with no guesswork.



•Specific Repair Parts

With thousands of different, individual repair products and all inventory of millions, we probably have just about anything you'll ever need for effective plumbing & heating repairs. And the Sexauer name assures you that these parts will fit properly. . .and last.



•Complete Faucets & Valves

We carry a complete line of faucets and valves for residential and institutional applications. And with brand names like Sloan, Delany, Valley and, of course, our own, you know that the fitting you're getting is the best.

•Service

We wouldn't offer a complete line of plumbing repair products without giving you all the necessary service, too. Professionally trained Sexauer representatives are there to help you achieve the best possible repairs with fewer problems. Got a problem? Need service fast? Call us on our toll free Wats Lines:
Nationwide - 800-431-1872
N.Y. State - 800-742-1785

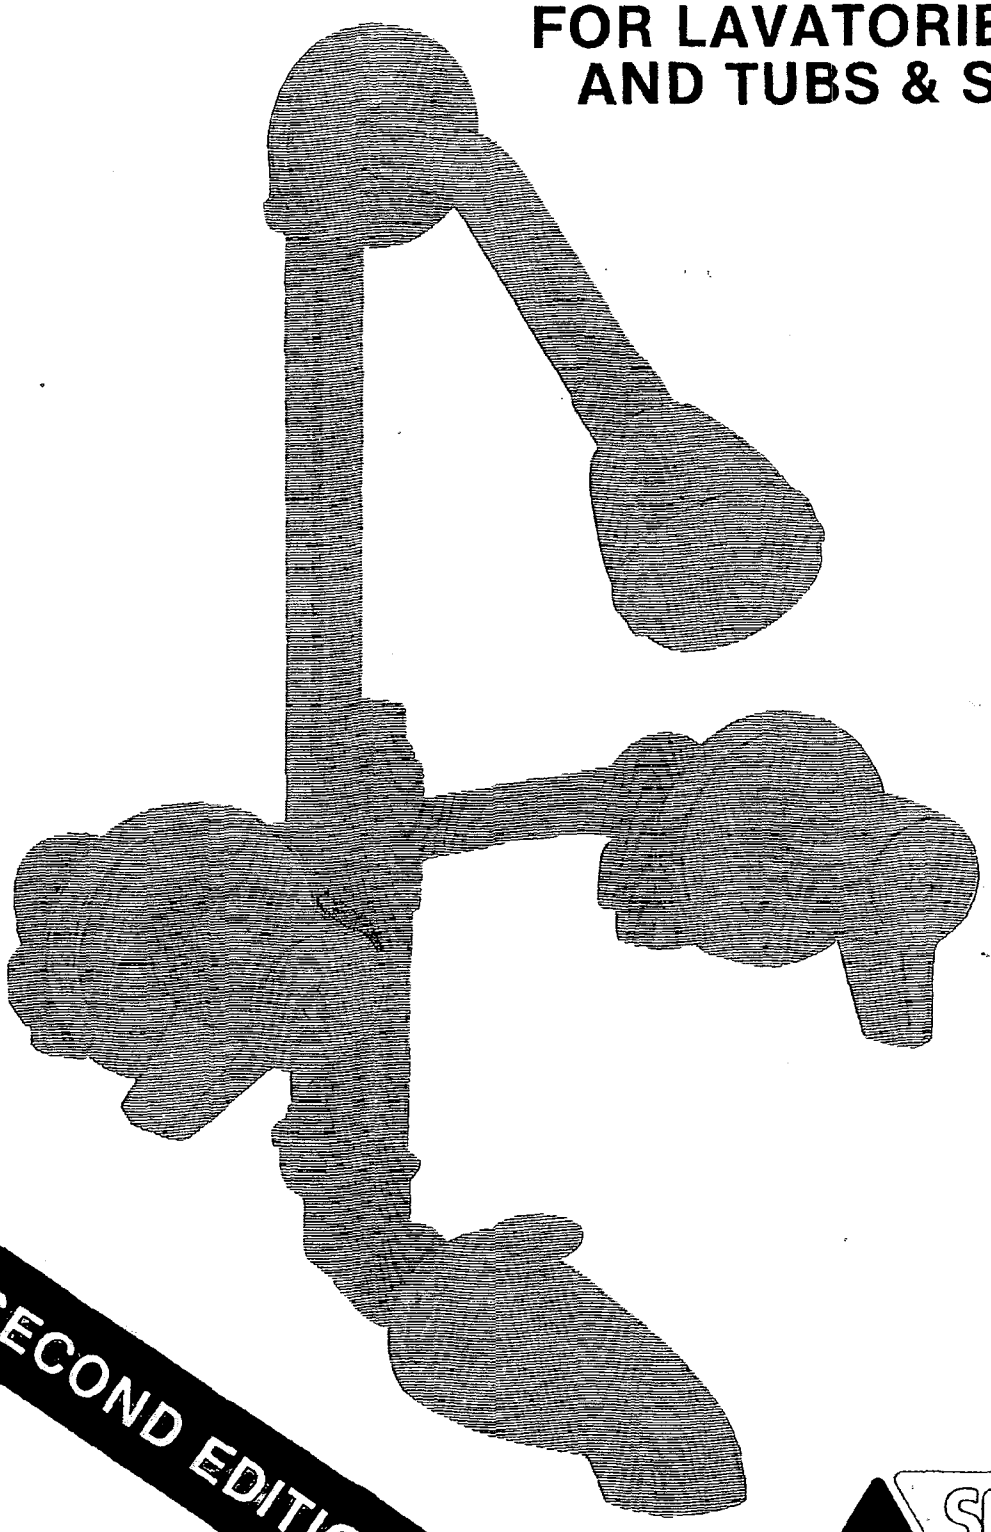
COMPLETE FITTINGS

FOR LAVATORIES, SINKS AND TUBS & SHOWERS



SECOND EDITION

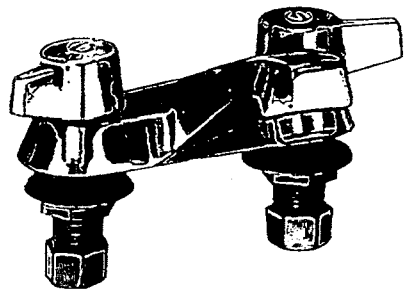
SEXAUER®

JASBlatt00893

Sexauer Complete Faucets

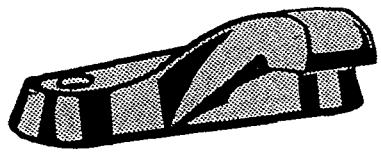
Good Enough To Have Our Name On Them

Whether for lavatory, sink or bath & shower, Sexauer fittings are built to take the heaviest punishment & abuse while their interchangeable parts & simple, functional engineering make sometimes necessary repairs easy. Here's how:



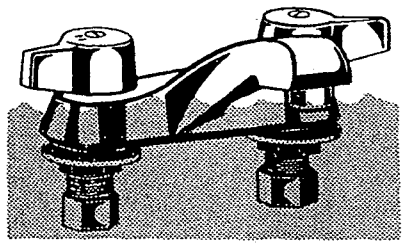
•Quality Brass Base

Whether solid cast brass or brass shell, they're built to last a lifetime with no dezincification or peeling after 3-4 years of use.



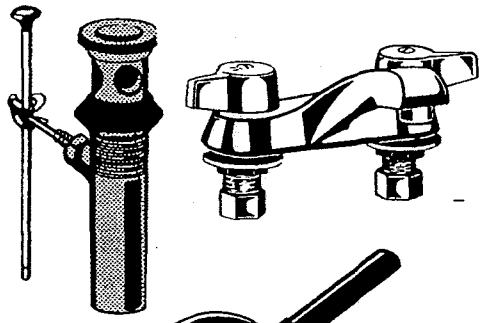
•Chrome Plating That Lasts. . . And Lasts

With no short cuts, our plated parts receive two (2) minutes of copper to the basic brass, eleven (11) minutes of agitated nickel, then two (2) minutes of chrome. Plating processes have been slowed to give you the best plated product on the market today.



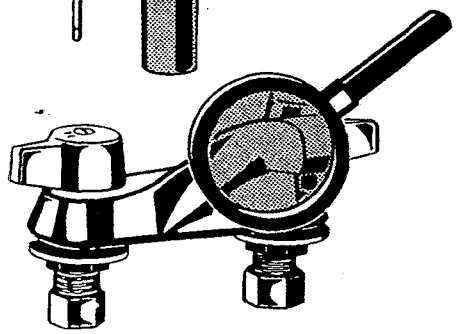
•The Pop-Up With A Difference

All brass with cam action, pop-up is easy to install, easy to clean and the positive brass to brass seat contact assures a good seal.



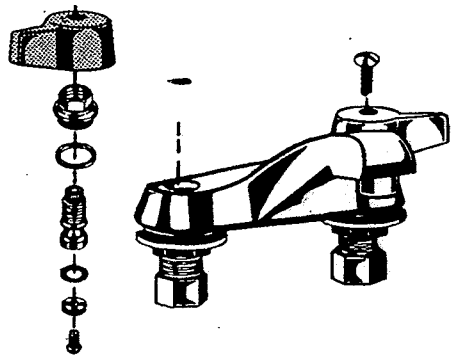
•Rigorous Testing & Inspection

All pressure castings are tested with 50 lbs. air under water before assembly; this is equivalent to 150 lbs. water pressure. All chrome plated castings are inspected after buffing for any porosity or polishing marks. A complete water test is also given to every fitting after assembly to eliminate any stem leaks or pin hole leaks.



•Interchangeable Parts Make Repairs Easy

Our universal stem assembly is interchangeable on most fittings - all of our sink faucets & most of our lavatory faucets. This coupled with standardization in washers, screws, "O" rings, removable Sex-ite® seats & handles make repairs and inventory management simple.



Printed in U.S.A.

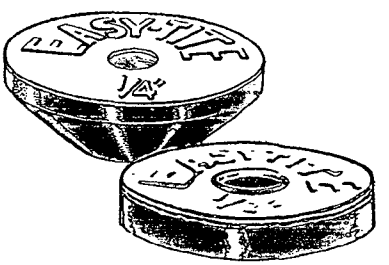
FAUCET (BIBB) WASHERS

SEXAUER EASY-TITE® FAUCET WASHERS

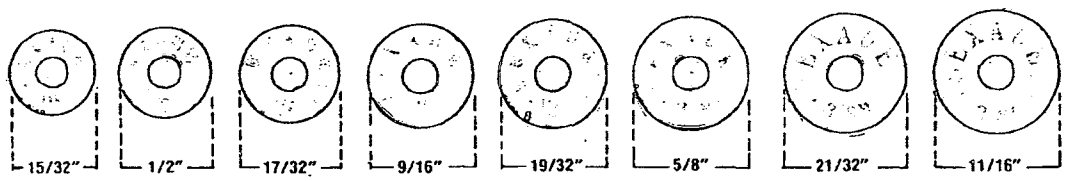
Made of special fiberglas reinforced compound.

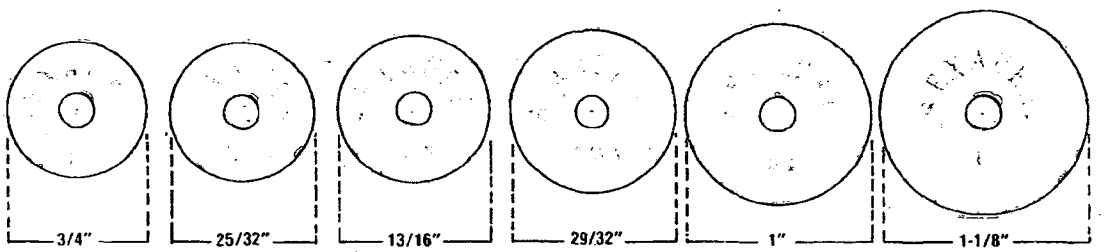
You can't buy a better washer! Easy-Tites® are a modern laboratory breakthrough, that surpass all other faucet (Bibb) washers in resistance to pressure, absorption and extreme temperature. Made of a special material reinforced with fiberglas, they withstand destructive heat upward to 300°F. and will not split or compress out of shape.



Every required size is available to fit any faucet stem perfectly - without trimming & they adapt themselves to the contour of the faucet seat. Easy-Tites® insure a positive shut-off, without sticking or binding.

Available in either flat or beveled types. Packaged 250, 125, 50 or 25.





WASHERS SHOWN ACTUAL SIZE FOR EASY IDENTIFICATION

Also determines correct sizes of Sexauer washer retainers as sizes correspond to washers.

HOT WATER WASHERS

SEXAUER "PARKCHESTER" FAUCET (BIBB) WASHERS

Specially made for use with extremely hot water, Sexauer "Parkchester" faucet washers are made of a special compound that requires a unique extruding process. Extra-hard texture resists the most extreme hot water and abuse. Packaged 125, 50 & 25.

Cat. No.	Description	Size	O.D.	I.D.	Color

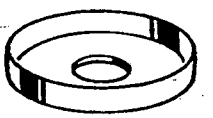
WASHER RETAINERS

SEXAUER MONEL WASHER RETAINERS



Non-corroding, extra-tough Monel retainers often eliminate the necessity of buying new faucet stems. Simple & easy to install. Just grind or file away the existing rotted retainer and insert the new washer & retainer with the bibb screw. Washer will be firmly held in position & will not become misshaped under pressure. Retainer size corresponds to faucet washer size. Packaged 100,50,25.

Cat. No.	Description	Size	Cat. No.	Description	Size
071746	Washer Retainer	"0"	071795	Washer Retainer	3/8M
071753	Washer Retainer	1/4S	071803	Washer Retainer	3/8L

SPECIAL WASHERS CAN CAUSE SPECIAL PROBLEMS

We're proud of our reputation of giving the best possible service to our customers. Part of this service is getting you the right repair parts, when you need them.

The following pages show parts that are often hard to locate & identify. To aid you in finding these parts, all illustrations are shown actual size.

Other special washers & diaphragms for specific valves will be found on their particular valve breakdown pages in Sections 3 thru 7.

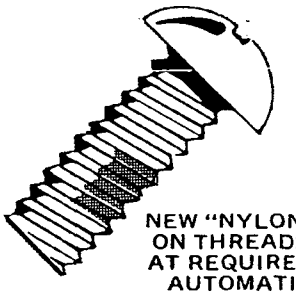
SEXAUER®

JASBlatt00925

FAUCET (BIBB) SCREWS

SEXAUER MONEL "SELF-LOCKING" FAUCET SCREWS



NEW "NYLON PATCH" ON THREADS LOCKS AT REQUIRED DEPTH AUTOMATICALLY

The Sexauer company was the first to introduce the "Self-Locking" feature in faucet bibb screws. The new "nylon-patch" on the screw threads locks screw at required depth automatically. This "nylon-patch" covers a great surface area and goes in the screw hole easily. The locking-action takes place whether or not the screw is in seating condition.

Monel screws are rustproof & non-corroding. Heads can't twist off and screw slots will not distort so screws can be used over & over again. Packaged in lots of 144,72,36.

Cat.	Description	Thr. Lgth.	Thr. Size
001016	Monel "S-L" Screw	3/8"	6-32
001024	Monel "S-L" Screw	3/8"	8-32

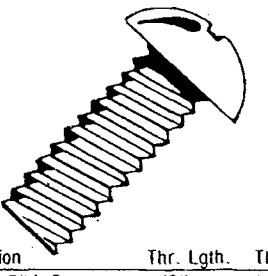
001172	Monel "S-L" Screw	1/2"	10-28
001180	Monel "S-L" Screw	1/2"	10-24

SEXAUER SEX-ITE® BIBB SCREWS

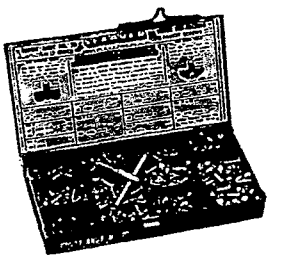


Sex-ite® , a manganese-silicone alloy is as strong as steel but rustproof, non-corroding & highly resistant to abrasion. Dezincification cannot take place, as it will with ordinary brass or yellow metal screws that contain a high proportion of zinc. Sex-ite® bibb screws have special deep-slotted heads, designed to grip & anchor the bibb washer securely, yet allow ample clearance from the faucet seat. Packaged 144,72,36.

Cat.	Description	Thr. Lgth.	Thr. Size
032326	Sex-ite® Bibb Screw	3/8"	8-32
032334	Sex-ite® Bibb Screw	3/8"	10-24

Cat.	Description	Thr. Lgth.	Thr. Size
032342	Sex-ite® Bibb Screw	1/2"	8-32
032359	Sex-ite® Bibb Screw	1/2"	10-24

SEXAUER HANDY ANDY BIBB SCREW ASSORTMENTS



Sexauer self-locking Bibb Screws with the "Nylon- Patch" on threads that automatically locks the screw at the required depth. Screws are made of either monel, a rustproof and non-corroding nickel-chrome alloy or Sex-ite* , a tough manganese-silicone alloy. Sturdy metal boxes have identification charts.

Cat. No.	Description	No. Pieces	Included Items

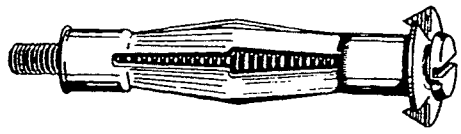
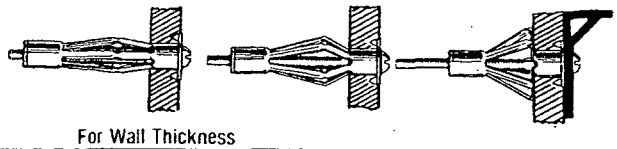
WALL ANCHORS (TOGGLE BOLTS)

SEXAUER HOLLOW WALL ANCHORS

Popular size anchors, designed for use in hollow materials such as cinder block, hollow tile, plaster, etc. Rugged anchors have a 6-32 fully threaded, steel pan-head screw. For installation, drill 5/16" hole & insert anchor. Tap anchor until prongs are imbedded in wall, then turn the screw until tight. Anchor sets as the screw is tightened for a secure hold, but once anchor is set the screw can be removed as often as necessary without affecting it.





Cat. No.	Description	Size	For Wall Thickness
012005	Wall Anchor	1/8" Short	3/8" to 1/2"
012013	Wall Anchor	1/8" Long	5/8" to 1-1/8"

HOSE & PLASTIC PIPE CLAMPS

SEXAUER ALL STAINLESS, WORM GEAR TYPE CLAMPS

Have 5/16" slotted hex heads, stainless steel screw and chrome-nickel stainless band and housing. The preferred clamp for plastic pipe installations due to corrosion resistance & extra strength gained by a welded housing. Packaged: Each.

REPLACEMENT BLADE HANDLES

SEXAUER SURE-GRIP BLADE HANDLES

Hospitals, Nursing Homes, Clinics, etc., throughout the Country today are required by State and Federal Governmental Agencies (OSHA) to have faucets (Valves) equipped with handles that can be operated without the use of hands, in areas where they are used by Hospital Personnel. Where present valves do not meet these specifications HANDLES must be REMOVED and REPLACED immediately.

The SEXAUER BLADE HANDLE is the most economical and efficient answer to this problem. It utilizes the same brass inserts and has the same flexibility and adaptability as our famous Sure-Grip Handle Family.

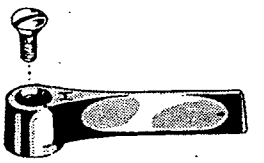
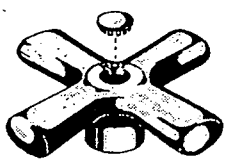
004705	Union Brass	3-3
004796	Youngstown	2-2

REPLACEMENT FAUCET HANDLES

SEXAUER "FITS-ALL" HANDLES

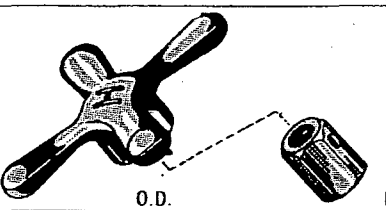




Designed for use on almost any faucet where duplicates of original handles are not available. Sharp tapered fins in the handle spud provide a positive grip as the handle is driven down onto the faucet stem. Made of chrome plated brass. Packaged individually or in pairs.

Cat. No.	Description	Packaged
052373	Fits-All Lever Handle "Hot" w/Handle Screw	Each
052381	Fits-All Lever Handle "Cold" w/Handle Screw	Each
052167	Fits-All Cross Arm Handle (2¾") "Hot" w/Index Button & Set Screw	Each
052175	Fits-All Cross Arm Handle (2¾") "Cold" w/Index Button & Set Screw	Each
088666	Fits-All Lever Handle Set ("H" & "C")	Each Pair
088658	Fits-All Cross Arm Handle Set ("H" & "C")	Each Pair

SEXAUER "FITS-ALL" BUSHING-TYPE CROSS ARM HANDLE



Reversible, self-threading bushing permits use on numerous stem sizes. After threading onto stem, set screw locks handle into place. Handle made of chrome plated brass.

Cat. No.	Description	O.D.	Packaged
052258	Fits-All Handle "Hot" w/Bushing & Set Screw	2¾"	Each
052266	Fits-All Handle "Cold" w/Bushing & Set Screw	2¾"	Each

REPLACEMENT SILLCOCK HANDLES

SEXAUER SILLCOCK HANDLES

Different sizes to fit almost any sillcock. Die cast with red enamel finish.

Cat. No.	Description	Size	Broach	Packaged
017418	Sillcock Handle	2" O.D.	16 Point Spline	Each
017426	Sillcock Handle	2" O.D.	5/16" Square	Each
017442	Sillcock Handle	2-5/16" O.D.	5/16" Square	Each

* Chrome Plated with 1/2" long shank. Fits all American Standard 7/16" O.D. Stems.

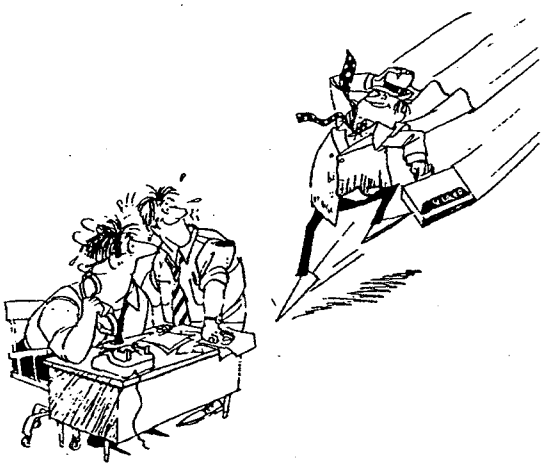
GOT A PROBLEM? YOU CAN DEPEND ON SEXAUER FOR FAST SERVICE

We've built our reputation on fast dependable service.....and getting the right repair parts to you when you need them. Most orders are shipped within 24 hours after being received; or for faster service, call us on our toll free Wats Line (800-431-1872).
For those extra difficult problems, call your local Sexauer representative. He's a plumbing expert.



SEXAUER

SEXAUER REMOVABLE FULL SADDLE SEATS

FOR SPECIFIC FAUCETS & VALVES

The following pages show one of the most complete lines of removable faucet seats in the industry. Sexauer seats are machined to the most exacting standards and are made of either:

Monel - A special non-corroding nickel-chrome alloy.
Sex-ite® - A non-corroding & tough manganese-silicone alloy.
Brass - With proven durability.

Where available, we recommend using Monel Seats as their toughness and durability are unequalled and will often actually "out-live" the life of the fitting.

Also available are original manufacturer (O.E.M.) faucet seats. The material these seats are made of will vary according to the standards of the particular manufacturer.

LEGEND

1 - Seat numbers ending with **"M"** indicate Monel Seats (Example CE-1M)
2 - Seat numbers ending with **"B"** indicate Brass Seats (Example CE-1B)
3 - Seat numbers ending with **NO SUFFIX** indicate Sex-ite® Seats (Example CE-1)
4 - Seats that are listed **"O.E.M."** are original manufacturer's equipment

HANDLE

SEATS ARE SHOWN ACTUAL SIZE IN ORDER OF ASCENDING THREAD DIAMETER, THEN SEAT HEIGHT

FAUCET SEATS LESS THAN 7/16" to 1/2"

SOME HELPFUL TIPS ON SEAT MAINTENANCE

SEAT WEAR

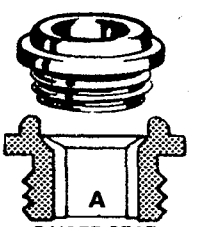
The faucet seat is the heart of the valve. If the valve is not completely closed, or is closed on some foreign matter like sand, gravel or flakes of solder, and is allowed to drip, the water, being under pressure, turns the drip into a "cutting" edge which, in a short time, will cut away the soft portion of the metal (zinc) and results in a rough spot on the seat. The rough seat eats into the bibb washer. The bibb washer is resilient and the water (even under pressure) does not seem to affect it, but the seat is metal and cannot afford any resilient resistence. It's a good idea to replace the seat when replacing a stem or stem assembly.

SEAT SEALANTS

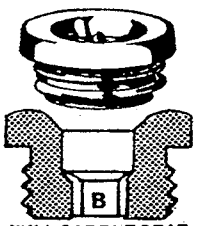
When installing a new seat, be sure to wrap the threads with a proper sealant. Always use Teflon® "Easy Wrap" Pipe Joint Tape on the threads of the seat - This makes the installation easier and insures positive seal on the threads. One complete turn of tape, overlapping slightly, is sufficient.

SEAT PLATING

In our experience, plated seats tend to chip & flake, thereby decreasing their life & efficiency Also, when seats are plated, their true dimensions are changed due to the additional plating material.



RAISED SEAT



FULL SADDLE SEAT
GREATER SEATING SURFACE

SEAT WASHERS: FLAT VS. BEVELED

Many times the concentric of new styles is not true and the use of a flat washer compensates for this off-center seating of the seat washer.

In some late model faucets, the water passage (the space between the seat and bibb washer) is 1/8" or less and the use of a beveled washer prevents the correct water flow.

On quality faucets with full-saddle seats or replacement with a Sexauer full-saddle seat, the use of a beveled washer provides a greater surface in the valve, which extends the life of the seat. (figures A & B)

Valves using Re-Nu Sleeves or Barrels, such as American Standard or Kohler, and most tub valves generally, have enough stem travel to allow the effective use of a beveled washer.

® Teflon. Registered U.S. Patent Office for Du Pont's fluorocarbon resins.

SEXAUER FAUCET & VALVE STEM LUBRICANT

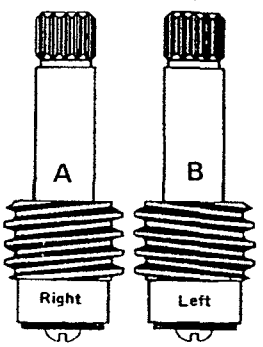
Waterproof and heatproof. Will not melt like ordinary grease. For lubricating faucet & valve threads, ballcock pistons, ground keys, etc. Makes squeaky, hard-turning parts work smoothly & quietly. Eliminates wear & costly replacements.

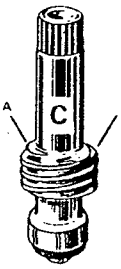
Cat. No.	Description	Size	Packaged
051508	Valve Stem Lubricant	4 oz. Can	6, 12 or 24

JASBlatt00971

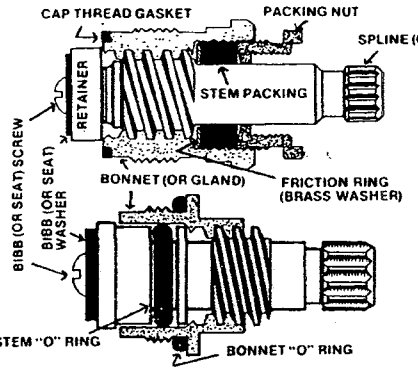
STEMS & STEM ASSYS. FOR SPECIFIC FAUCETS & VALVES

- *SHOWN IN ASCENDING SIZE ORDER ACCORDING TO OVERALL LENGTH (From bottom of retainer to top of spline)*
- *STEM ASSEMBLIES INCLUDE ALL ITEMS SHOWN IN ILLUSTRATION. (Those items that are not shown are available separately.)*
- *ALL STEMS COME COMPLETE WITH BIBB WASHER & BIBB SCREW.*
- *STEM DESIGNATIONS WITH "R" SUFFIX ARE RIGHT HAND THREAD (Example AS-2R) STEM DESIGNATIONS WITH "L" SUFFIX ARE LEFT HAND THREAD (Example AS-2L)*





DOUBLE ACME THREAD STEM



HELPFUL TIPS ON STEM IDENTIFICATION

(1) DETERMINING RIGHT OR LEFT HAND THREADS

As a general rule, a valve that closes to the RIGHT (Clockwise) is right hand thread. If the valve closes to the LEFT (Counter-Clockwise) it is left hand thread. Looking at a right hand thread stem, the threads look like those shown in (fig. A) and looking at a left hand stem, the threads look like those shown in (fig. B).

The exceptions to this rule are: The stem assemblies of Acorn, Chicago, Crane Dial-Ese, Briggs Ezy-Close and any other stems that do not close downward against a removable seat or pre-cast seat in the body of the valve. These units close UPWARD against the seat. Therefore, these units closing to the right use a left hand thread stem; units closing to the left use right hand thread stems.

Faucets with round handles or cross arm handles most always close to the right. Tub & shower valves also close to the right, except those with lever type handles.

The Kohler Galaxy Faucets are unlike most faucets, in [redacted]DO NOT raise & lower when the valve is opened & closed. [redacted]h a "plunger" which has a seat washer & bibb screw. When t[redacted]ed the plunger is lifted up off the seat. The seat of this fau[redacted]o a sleeve in which the plunger operates. If the faucet Clos[redacted]re-quires a Left Hand Thread Stem & left hand thread plung[redacted]he Left, it requires a Right Hand Thread Stem & plunger.

(2) BONNET & STEM PACKING

In the absence of the correct packing to use in bonnet r[redacted]ral ways to correct leakage around the stem & handle.

A. TUB AND SHOWER VALVES

1. Select an "O" Ring that fits tightly on the stem. Insert "O" Ring on top of old packing between packing & packing nut.
2. Remove old packing & re-pack packing gland with Sexauer Self-Forming Packing (Cat. No. 002360) by pressing the Teflon® packing into gland, tighten packing nut, remove packing nut & add additional Teflon® packing until packing is correctly formed.
3. Select correct size of Teflon® asbestos packing to fill the space in the packing gland around the stem & tighten packing nut.

2. LAVATORY & SINK VALVES

Those that use a bonnet packing or have a packing gland & packing nut use the same procedure as for Tub & Shower valves. If the packing is in the top bonnet nut, remove friction ring & insert "O" Ring between old packing & friction ring.

(3) SMOOTH STEM OPERATION

A valve-stem lubricant will reduce wear & friction on stem threads & greatly improves the ease of operation of the faucet.

(4) THREAD TYPES

"Double-Acme" threads, originate in two places, opposite each other. See Fig.C. Regular threads originate in one place.

STEM LOCATION GUIDE

Place top of stem broach on line. Bottom of washer retainer will locate catalog page.

Place stem here.

WHAT IS A CARTRIDGE?

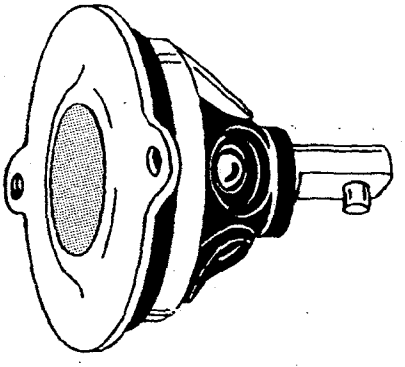
Most O.E.M. Manufacturers consider a Cartridge to be the *INNER WORKING MECHANISM OF A FAUCET OR VALVE IN ONE SELF-CONTAINED UNIT.* Generally, Cartridges are available only as complete units with single repair items, not available separately.

Unfortunately, the above explanation is not always true. Often, repair parts are available separately and many Cartridges do not contain the complete inner working mechanism.

We have shown, on these pages, Cartridges that best exemplify the above definition. Other inner working mechanisms whose definition is unclear will be found in either the Stem Section or their particular Valve Diagram pages in Sections 3 thru 6.

CARTRIDGES FOR SINGLE CONTROL & WASHERLESS FAUCETS
ALSO SOME SELF-CLOSING FAUCETS

SHOWN ACTUAL SIZE IN ALPHABETICAL O.E.M. ORDER

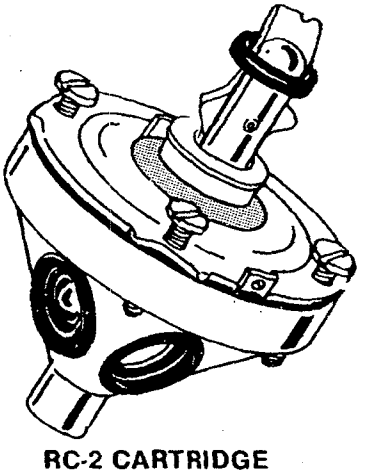


RC-1 CARTRIDGE

For Single Control Fittings: Borg-Warner, Central Brass, Globe Valve, Indiana Brass, Kohler "Hyka", Michigan Brass, Union Brass (Older Models 11-A & 12-A) & Others

Cat. No. 085696

Includes Installation Instructions

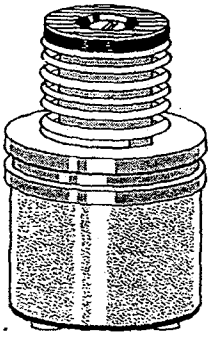


RC-2 CARTRIDGE

For Single Control Fittings: Borg-Warner, Crane "Crestmont" & "Capri", Kohler "Exilla", "Utilla" & Others

Cat. No. 085704

Includes Installation Instructions

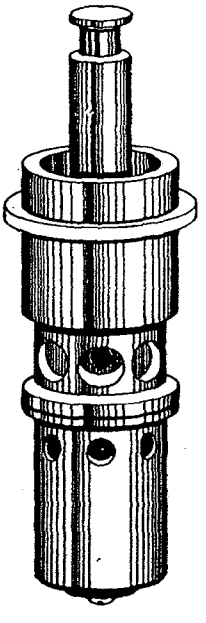


CARTRIDGE FOR ELECTRIC DRINKING FOUNTAINS

For Halsey Taylor, Haws, Elkay, Sunroc & Some G.E. & Westinghouse Drinking Fountains

Cat. No. 008177

Includes Retaining Washer

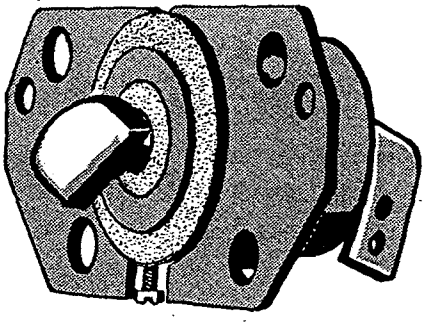


ACORN

"Auto-Cloz" Cartridge For Self-Closing Fittings

Cat. No. 025882

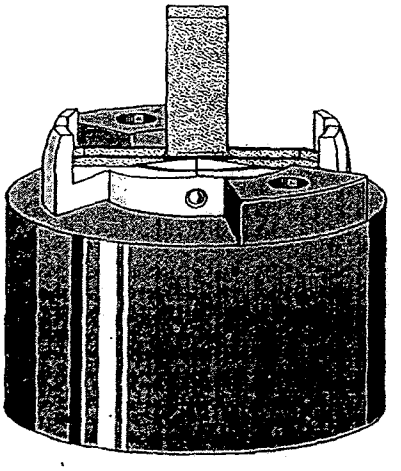
Includes PL-11 Plastic Washer & All Necessary Internal Parts



AMERICAN STANDARD

For Single Lever Lavatory & Sink Fittings

Cat. No. 074245



AMERICAN STANDARD

For Aquarian Lav. Sink & Shower Fittings

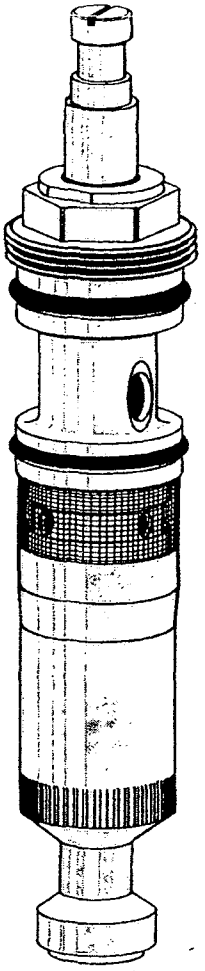
Cat. No. 003657
(Small For Lav. & Sink)
4 GPM Since 1971

Cat. No. 009951
(Large For Bath & Showers)
8 GPM Used Prior to 1971

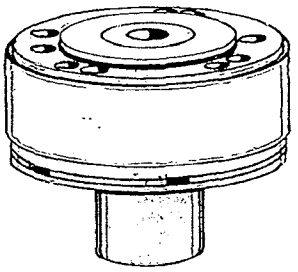
SEXAUER®

CARTRIDGES FOR SINGLE CONTROL & WASHERLESS FAUCETS
ALSO SOME SELF-CLOSING FAUCETS

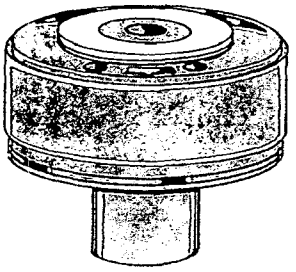
SHOWN ACTUAL SIZE IN ALPHABETICAL O.E.M. ORDER



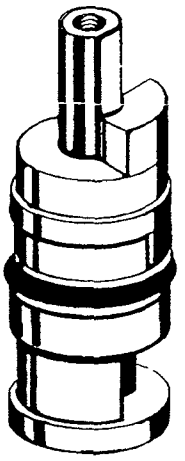
AMERICAN STANDARD
Cartridge For Aquameter Slow Self-Closing Single Lav. Fittings
Cat. No. 018960
Includes All Necessary Internal Parts
Includes No.018838 AS-48 Stem



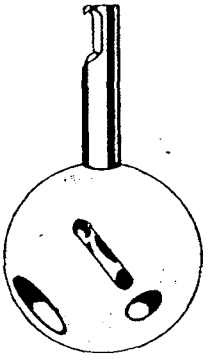
BRADLEY (COLE)
Cartridge Assembly For Lav. Sink & Shower Fittings
Cat. No. 031427
Includes Sleeve, Cartridge Sub Assy. & Gasket



BRADLEY (COLE)
Cartridge Assy. For Aurora & Cascade Bath & Shower Fittings
Cat. No. 037036
Includes Sleeve, Cartridge Sub Assy. & Gasket



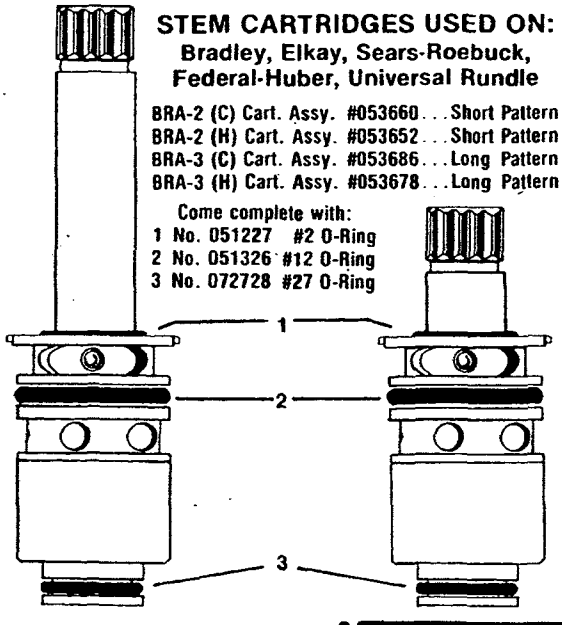
DELEX PEERLESS
For Various Lavatory & Sink Fittings
Cat. No. 002592
Includes No.56 O-Ring & No.17 Stem O-Ring -054742



DELTA
Single Lever Ball Assy.
For All Delta Lavatory & Sink Fittings Except "Del-Dial"
No. 084665 #1 Delta Ball
Bronze

DELTA
Single Lever P... #601
Series ... Valves
(Disc. Replaced by 084665)
#2 Delta Ball

DELTA
Single Lever Ball Assy.
For All "Del-Dial" Models Only
No. 084681 #3 Delta Ball
CELCON

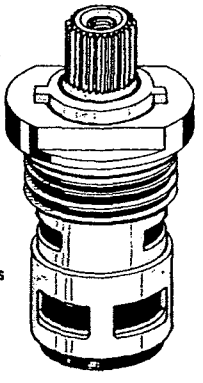


STEM CARTRIDGES USED ON:
Bradley, Elkay, Sears-Roebuck, Federal-Huber, Universal Rundle

BRA-2 (C) Cart. Assy. #053660...Short Pattern
BRA-2 (H) Cart. Assy. #053652...Short Pattern
BRA-3 (C) Cart. Assy. #053686...Long Pattern
BRA-3 (H) Cart. Assy. #053678...Long Pattern

Come complete with:
1 No. 051227 #2 O-Ring
2 No. 051326 #12 O-Ring
3 No. 072728 #27 O-Ring

GERBER
For Washerless Faucets
Cat. No. 012039 Hot Cartridge (Replaces O.E.M. 98-688)
Cat. No. 012047 Cold Cartridge (Replaces O.E.M. 98-689)
Includes Gasket & Seat Washer



These Cartridges may be used in any valves that use our GE-1 Stem Assy.
43-310, 43-330 4" Lavatory Faucets
43-410, 43-430 4" Lavatory Faucets
42-250 Exposed Sink Faucet (Cast Body)
42-270 Exposed Sink Faucet (Cast Body)
49-230, 49-240, 49-250 Laundry & Bar Faucets
49-530, 49-531, 49-530-90 Laundry Tray Faucets
47-920 Shower Valve Assembly

IMPORTANT
To convert conventional valves to washerless cartridge, the seat must be removed. The washer on the bottom of cartridge seats in body of valve and no seat is necessary.
NOTE: Cartridge cap thread gasket & seat washer are available in assembly only.

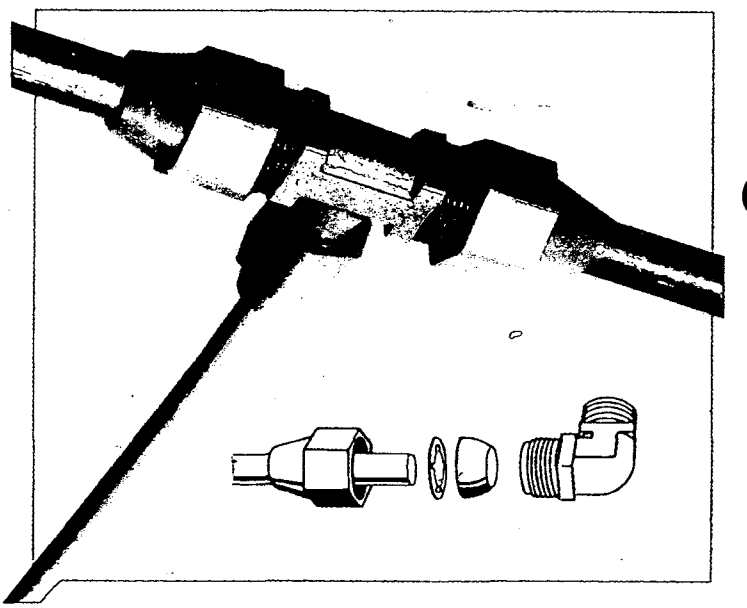
JASBlatt01063

THE SEXAUER CONQUEST PLUMBING SYSTEM

Now There's A Better Way!

SAVE TIME - SAVE ENERGY - SAVE MONEY and install the best plumbing system products available. Sexauer's CONQUEST line is a complete, unique line of tubing, fittings and valves for potable hot/cold water supply systems . . . plumbing systems far superior to those of copper, galvanized or CPVC. CONQUEST products were developed and perfected by a master plumber and combine everything the professional demands with a simple connection system for the easiest, most professional results.

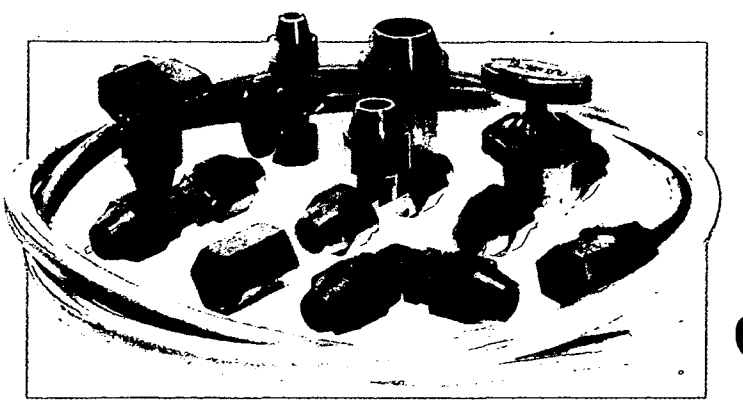


Quick And Easy Connections

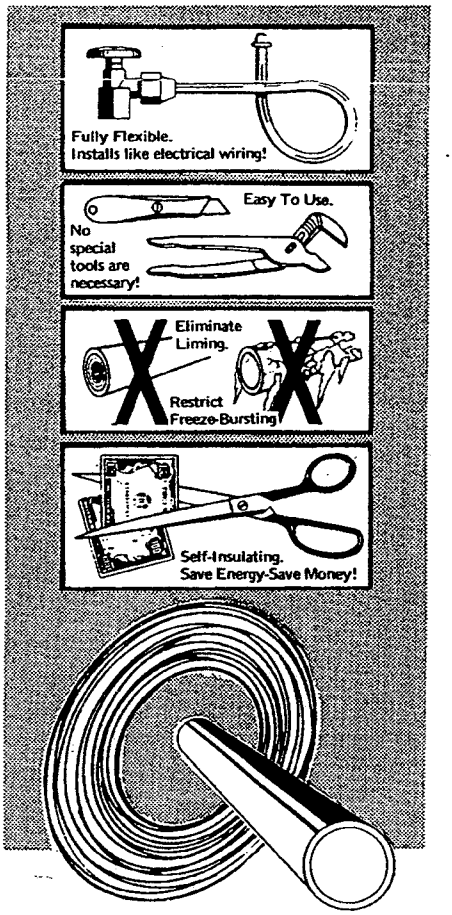
Our simple, positive connection system requires no special tools other than pliers and a tubing cutter . . . or even a sharp knife. An end-compression type system, the connection is made with a sealing cone, retaining ring and nut placed on the tube. The nut-ring-cone assembly is simply threaded onto the fitting, then tightened with the pliers.

Connect directly to any other kind of plumbing system: copper, galvanized or CPVC without having to use any transition fittings.

Fittings are reusable. No cement, no threading, no chemicals, no torches or solder.



From the first point of water entry to the supply tube for the last faucet, Sexauer has a CONQUEST product for every requirement. The line includes tubing from 3/8" to 3/4" I.D. for hot and cold water, basin, sink and closet supply tubes, stop valves, in-line valves, tees, elbows, couplings, connections and even clamps & hangers for the most complete installations. For more information, see your Sexauer representative.



CONQUEST tubing is made of **polybutylene**, a new generation, flexible plastic with unique properties that make it ideal for plumbing applications. It's the first flexible tubing code-approved for hot water service; proven strong enough to handle sustained pressures of over 220 P.S.I. @ 180° F.

Besides weighing and costing less than copper tubing, polybutylene doesn't lime-up, corrode, discolor, erode, and is resistant to detergents and most acids & bases.

Our Fittings and Valves are of **Celcon**, a rigid, job-proven plastic long used in the manufacture of plumbing products. CONQUEST® tubing, fittings and valves meet specifications of HUD/FHA, IAPMO-UPC, NSF, NFPA, BOCA, SBCC, NHPCC & CSA.

TUBING

CONQUEST POLYBUTYLENE TUBING

Flexible tubing for potable hot or cold water can be bent 10 times its diameter without kinking . . . even bent around corners! Approved for hot water service at 180° F. under pressures far over 100 P.S.I. Tubing has been tested to -50° F. and will not burst under frozen water conditions, but rather, will expand to relieve system pressure.

Inert polybutylene is resistant to sand, salt & sulphur and eliminates "liming-up" problems. Also, CONQUEST tubing will not rust or corrode, erode, discolor and is resistant to soaps, detergents and most acids and bases. Tubing is self-insulating for energy savings and its flexible nature will inhibit water hammer effects.

Cat. No.	Description	Size (O.D. X I.D. X Length)	Packaged
096438	CONQUEST P.B. Tubing	1/2" x 3/8" x 100'	Each Coil
096503	CONQUEST P.B. Tubing	5/8" x 1/2" x 100'	Each Coil
096545	CONQUEST P.B. tubing	7/8" x 3/4" x 100'	Each Coil

SUPPLY TUBES

CONQUEST POLYBUTYLENE BASIN SUPPLY TUBES

Connections for basins. Available in 3/8" or 1/2" O.D. sizes. For hot or cold water. Includes compression rings. Silver gray color.

Cat. No.	Description	Size	Packaged
094995	CONQUEST Basin Supply Tube	3/8" O.D. x 12"	Pair
095000	CONQUEST Basin Supply Tube	3/8" O.D. x 20"	Pair
095018	CONQUEST Basin Supply Tube	3/8" O.D. x 30"	Pair
093237	CONQUEST Basin Supply Tube	1/2" O.D. x 12"	Pair
093245	CONQUEST Basin Supply Tube	1/2" O.D. x 20"	Pair
093351	CONQUEST Basin Supply Tube	1/2" O.D. x 30"	Pair

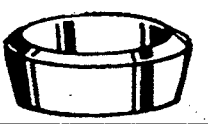
CONQUEST POLYBUTYLENE CLOSET SUPPLY TUBES

Connections for closets. Available in 3/8" or 1/2" O.D. sizes. Includes compression rings. Silver gray color.

Cat. No.	Description	Size	Packaged
095026	CONQUEST Closet Supply Tube	3/8" O.D. x 12"	Each
095034	CONQUEST Closet Supply Tube	3/8" O.D. x 20"	Each
093468	CONQUEST Closet Supply Tube	1/2" O.D. x 12"	Each
093484	CONQUEST Closet Supply Tube	1/2" O.D. x 20"	Each

CELCON FERRULES

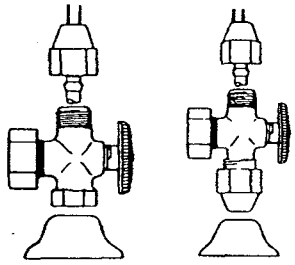
For use with 3/8" or 1/2" supply tubing.

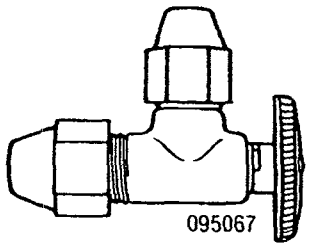


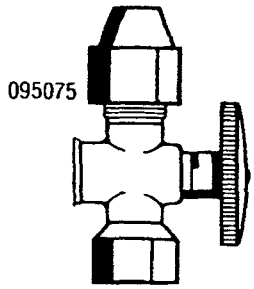
Cat. No.	Description	Size
093534	Ferrule	3/8" O.D.
093641	Ferrule	1/2" O.D.

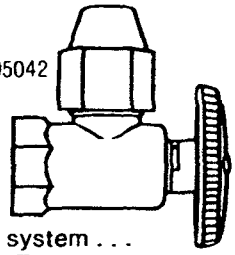
TUBE

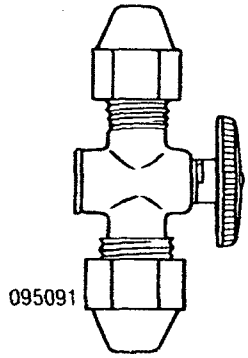
VALVES







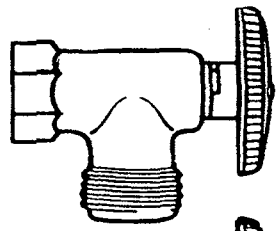


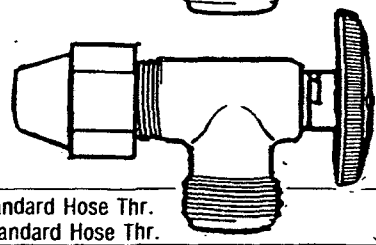


CONQUEST STOP VALVES

Angle or straight valves available with either end-compression or female thread connections. Use with CONQUEST system or any other kind of plumbing system . . . with no "transition" fittings required. No heat required. Easy 1/2 turn for full on or off. Durable non-corroding internal parts are resistant to freezing-up or sticking from lack of use after installation. Valves are made from durable, job-proven Celcon with comfortable grip handles. All valves include compression rings. Compression valves also include sealing cone and retaining rings.

Cat. No.	Description	Size & Connection Type	Where Used
095042	CONQUEST Angle Stop	3/8" Female Thr. x 3/8" Compression	3/8" O.D. Supply Tube
093666	CONQUEST Angle Stop	3/8" Female Thr. x 1/2" Compression	1/2" O.D. Supply Tube
095059	CONQUEST Angle Stop	1/2" Female Thr. x 3/8" Compression	3/8" O.D. Supply Tube
093732	CONQUEST Angle Stop	1/2" Female Thr. x 1/2" Compression	1/2" O.D. Supply Tube
095067	CONQUEST Angle Stop	1/2" Compression x 3/8" Compression	3/8" O.D. Supply Tube
093799	CONQUEST Angle Stop	1/2" Compression x 1/2" Compression	1/2" O.D. Supply Tube
095075	CONQUEST Straight Stop	3/8" Female Thr. x 3/8" Compression	3/8" O.D. Supply Tube
093807	CONQUEST Straight Stop	3/8" Female Thr. x 1/2" Compression	1/2" O.D. Supply Tube
095083	CONQUEST Straight Stop	1/2" Female Thr. x 3/8" Compression	3/8" O.D. Supply Tube
093815	CONQUEST Straight Stop	1/2" Female Thr. x 1/2" Compression	1/2" O.D. Supply Tube
095091	CONQUEST Straight Stop	1/2" Compression x 3/8" Compression	3/8" O.D. Supply Tube
093831	CONQUEST Straight Stop	1/2" Compression x 1/2" Compression	1/2" O.D. Supply Tube

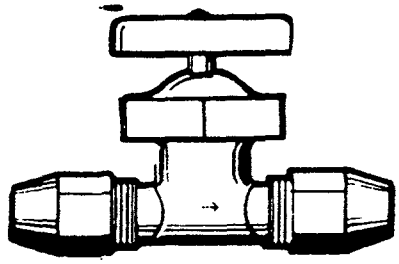




CONQUEST SUPPLY AND DRAIN HOSE BIBB VALVES

Available with either end-compression of female thread connections. Outlets have standard-size hose coupling threads. Compression valve includes retaining ring and sealing cone. Valves made of Celcon.

Cat. No.	Description	Size & Connection Type
095109	CONQUEST Hose Bibb Valve	1/2" Female Thr. x Standard Hose Thr.
095117	CONQUEST Hose Bibb Valve	1/2" Compression x Standard Hose Thr.



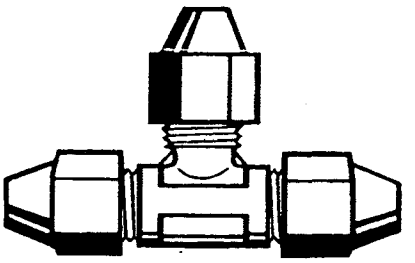
CONQUEST IN-LINE SHUT-OFF GLOBE VALVES

Installed in minutes. Have compression connections and include retaining rings and sealing cones. Made of Celcon.

Cat. No.	Description	Size (I.D.)
096206	CONQUEST Globe Valve	1/2" x 1/2" Compression
096214	CONQUEST Globe Valve	3/4" x 3/4" Compression

FITTINGS AND CONNECTIONS

Connect directly to copper, galvanized, CPVC, etc. without transition fittings. All fittings are made of Celcon and and are reusable. Sealing cones and retaining rings included. Packaged: each or in quantity.

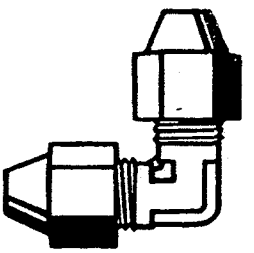


TEES

COMPRESSION TEES

Sizes: 3/8" x 3/8" x 3/8" thru 1" x 1" x 1" I.D.

Cat. No.	Description	Size (I.D.)
095190	CONQUEST Compression Tee	3/8" x 3/8" x 3/8"
095208	CONQUEST Compression Tee	1/2" x 3/8" x 3/8"
095216	CONQUEST Compression Tee	1/2" x 1/2" x 3/8"
095224	CONQUEST Compression Tee	1/2" x 1/2" x 1/2"
095232	CONQUEST Compression Tee	3/4" x 1/2" x 1/2"
095240	CONQUEST Compression Tee	3/4" x 3/4" x 1/2"
095257	CONQUEST Compression Tee	3/4" x 3/4" x 3/4"
095265	CONQUEST Compression Tee	1" x 1" x 3/4"
095273	CONQUEST Compression Tee	1" x 1" x 1"
095281	CONQUEST Compression Tee	1" x 1" 1/2"

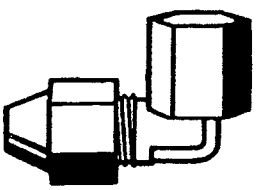


ELBOWS

COMPRESSION ELBOWS

Sizes: 3/8" x 3/8" thru 1" x 1" I.D.

Cat. No.	Description	Size (I.D.)
095299	CONQUEST Elbow	3/8" x 3/8"
095307	CONQUEST Elbow	1/2" x 3/8"
095315	CONQUEST Elbow	1/2" x 1/2"
095323	CONQUEST Elbow	3/4" x 1/2"
095331	CONQUEST Elbow	3/4" x 3/4"
095356	CONQUEST Elbow	1" x 3/4"
095364	CONQUEST Elbow	1" x 1"



STREET ELBOWS

Female thread fittings complete with internal seal.

Cat. No.	Description	Size (I.D.)
096024	CONQUEST Street Elbow	3/8" x 1/2" FPT
096032	CONQUEST Street Elbow	1/2" x 1/2" FPT

No special tools

No chemicals

No torches

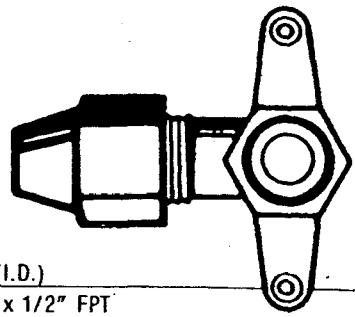
Easy, Flexible Connections

Our simple, positive connection system requires no special tools other than pliers and a sharp knife. An end-compression type system, the connection is made with a sealing cone, retaining ring and nut placed on the tube. The nut-ring-cone assembly is simply threaded onto the fitting, then tightened with the pliers.

Connect directly to any other kind of plumbing system: copper, galvanized, CPVC without having to use any transition fittings. CONQUEST fittings have standard size I.P.S. threads & (unless connecting CONQUEST male fitting to a non-CONQUEST female fitting) teflon® tape or sealing compounds are unnecessary.

Fittings are reusable. No threading, no chemicals, no torches or solder.

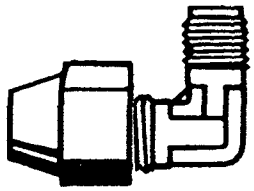
TUBE



DROP EAR ELBOWS

Include internal seals.

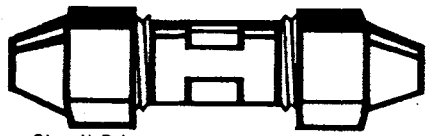
Cat. No.	Description	Size (I.D.)
096065	CONQUEST Drop Ear Elbow	3/8" x 1/2" FPT
096081	CONQUEST Drop Ear Elbow	1/2" x 1/2" FPT



MALE ELBOW ADAPTORS

Size: 3/8" x 3/8" MPT x 1" x 1" MPT.

Cat. No.	Description	Size (I.D.)
095372	CONQUEST Male Elbow Adaptor	3/8" x 3/8" MPT
095380	CONQUEST Male Elbow Adaptor	1/2" x 3/8" MPT
095398	CONQUEST Male Elbow Adaptor	1/2" x 1/2" MPT
095406	CONQUEST Male Elbow Adaptor	1/2" x 3/4" MPT
095448	CONQUEST Male Elbow Adaptor	3/4" x 3/4" MPT
095463	CONQUEST Male Elbow Adaptor	3/4" x 1" MPT
095471	CONQUEST Male Elbow Adaptor	1" x 1" MPT



COMPRESSION COUPLINGS

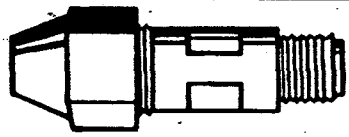
Sizes: 1/4" x 1/4" thru 1" x 1" I.D.

COUPLINGS

Cat. No.	Description	Size (I.D.)
098806*	CONQUEST Coupling	1/4" x 1/4"
095539	CONQUEST Coupling	3/8" x 3/8"
095570	CONQUEST Coupling	1/2" x 3/8"
095588	CONQUEST Coupling	1/2" x 1/2"
095596	CONQUEST Coupling	3/4" x 1/2"
095638	CONQUEST Coupling	3/4" x 3/4"
095646	CONQUEST Coupling	1" x 3/4"
095679	CONQUEST Coupling	1" x 1"

*For 3/8 O.D. Supply Tube Connections

MALE ADAPTOR



FEMALE ADAPTOR

COUPLING ADAPTORS

Male or Female thread. Female adaptors include internal seal.

ADAPTORS

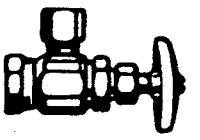
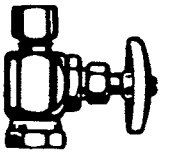
SEXAUER SUPPLY SHUT-OFF CONTROL VALVES (STOPS)

Either angle valves (for wall connections) or straight valves (for floor connections) available. Valves are triple plated with copper, nickel & chrome. All have a comfortable-grip oval handle & detachable bonnet nut & packing gland (stuffing box) stop valves available for iron screw pipe, sweat tube or compression connections. Each valve is individually boxed, packaged in lots of 20,10,5.



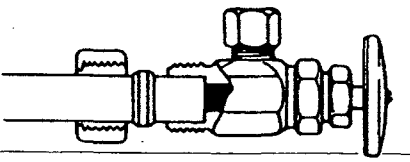
ANGLE VALVES FOR WALL CONNECTION



STRAIGHT VALVES FOR FLOOR CONNECTION

COMPRESSION ANGLE STOPS

Designed for assembly to copper tubing.

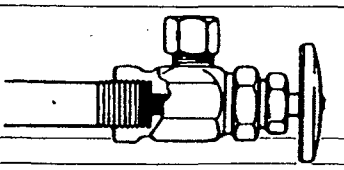


Cat. No.	Description	For Assy. To:
008060	No.4A Compression Stop	3/8" Copper Tube
009902	No.5A Compression Stop	1/2" Copper Tube

HEAVY C.P. BRASS SUPPLY STOPS

STOPS DESIGNED FOR ASSEMBLY TO IRON SCREW PIPE

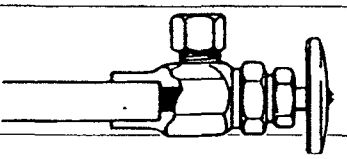
Either angle or straight stops available.



Cat. No.	Description	For Assy. To:
	ANGLE VALVES FOR 3/8" RISERS	
067546	No.1A - 3/8 Stop Valve	3/8" Screw Pipe
067553	No.2A - 3/8 Stop Valve	1/2" Screw Pipe
	ANGLE VALVES FOR 1/2" RISERS	
077164	No.1A - 1/2 Stop Valve	3/8" Screw Pipe
077172	No.2A - 1/2 Stop Valve	1/2" Screw Pipe
	STRAIGHT VALVES FOR 3/8" RISERS	
067579	No.1S - 3/8 Stop Valve	3/8" Screw Pipe
067587	No.2S - 3/8 Stop Valve	1/2" Screw Pipe
	STRAIGHT VALVES FOR 1/2" RISERS	
077198	No.1S - 1/2 Stop Valve	3/8" Screw Pipe
077206	No.2S - 1/2 Stop Valve	1/2" Screw Pipe

STOPS DESIGNED FOR ASSY. TO SWEAT TUBING

Either angle or straight stops available.



Cat. No.	Description	For Assy. To:
	ANGLE VALVE FOR 3/8" RISER

SEXAUER HEAVY DUTY THERMOCOUPLE

Sexauer's Heavy Duty Thermocouple is designed for high ambient application as found in commercial and industrial gas appliances. This unit features one-piece construction with spring terminal nut and installs hand-tight, eliminating the need for tools, stopping all damage to the control due to overtightening. The spring action also keeps the Thermocouple from coming loose. All Sexauer Thermocouples are 100% heat tested for quality assurance. **(Replaces Penn Baso #K16BT-24") Packaged individually.**

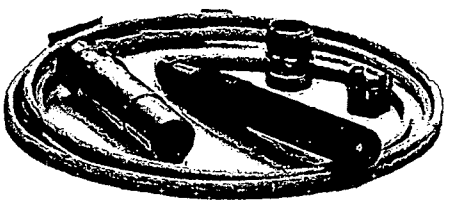
UNIVERSAL POWER GENERATOR

600/750 Millivolt Output

Sexauer Universal Power Generator shuts off the gas when the pilot goes out and supplies power to operate a millivolt thermostat. Generator contains an adaptor sleeve for PG-9 Pilots nut and clip, truly a universal replacement for 600/750 millivolt output generators. Use the Universal Power Generator on incinerators, boilers, degreasers, deep fat fryers, clothes dryers, wall heaters, floor furnaces, space heaters, steam baths and others. Packaged individually.



Use the No. 047027 Universal Power Generator as a replacement for the following:

Robert Shaw: 101934F32, PG-9 (Cartridge only)
Honeywell: Q313A1170, Q313A1139, Q313A1188

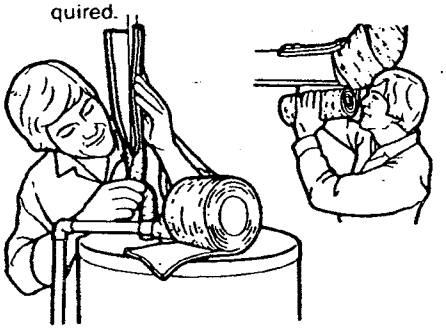
INSULATING PRODUCTS

- Save Energy
- For Hot or Cold Water Pipes
- Fire/Freeze Retardant
- Stop Vibrations

FOR WATER HEATERS TOO!
Note: For large, 40-50 gallon units, 2 Rolls of 12" Duct Wrap are required.



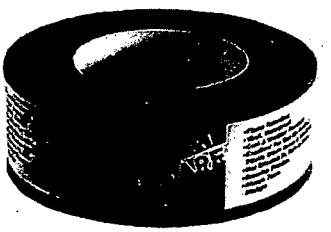
SEXAUER INSULATING PIPE & DUCT WRAPS

Self-adhesive, insulating pipe & duct wraps save fuel and protect hot and cold water pipes from fire and freezing. Easy to apply wraps are flexible and conform to any shape. Prevent heat loss, stop vibration, and save money. Foam construction with reflective exterior material. Packaged in handy sized rolls.

Cat. No.	Description	Size	Use	Packaged
064501	Insulating Duct Wrap	12" x 15' x 1/8"	Ducts & water heaters, covers 15 sq. ft.	Roll
064493	Insulating Pipe & Duct Wrap	5" x 15' x 1/8"	Ducts & pipes, covers 15 linear ft. Can be spiral wrapped on ducts	Roll
064485	Insulating Pipe Wrap	3" x 15' x 1/8"	Covers 15 linear ft. of 3/4" pipe. Can be spiral wrapped on larger pipe.	Roll
064477	Insulating Pipe Wrap	2" x 15' x 1/8"	Covers 15 linear ft. of 1/2" pipe. Can be spiral wrapped on larger pipe.	Roll

SEXAUER INSULATING, FLAME RETARDANT DUCT TAPE

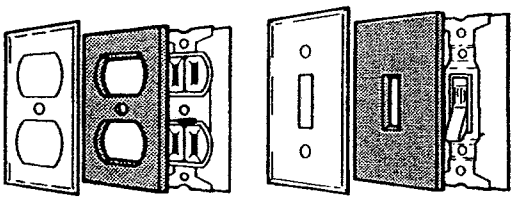
Flame retardant and cold-weather resistant duct tape *insulates with safety.* Safely and efficiently seals hot and cold air ducts. . . to improve a system's performance. Not effected by rain, snow or cold weather, Sexauer's Duct Tape is also an excellent outdoor tape for hanging plastic storm doors, windows, etc. Remains flexible and always tears straight, even at temperatures to – 12°C. Resists oils, acids, alkalis, fading, fungus, rot & mildew and won't leave a damaging rubber residue when removed. UL tested and classified. Packaged in handy size rolls.



Cat. No.	Description	Size	Packaged
064519	Insulating, Fire Retardant Duct Tape	2" x 60 yds.	Roll

SEXAUER INSULATING SOCKET & SWITCH DRAFT SEALS

Electrical sockets and switches leak more air than windows and doors combined! It's a fact according to tests done by **Texas Power & Light.** Sexauer Draft Seals will save up to 20% of home air loss, prevent drafts and save fuel & money. Made of fire retardant, quality, closed-cell PVC foam. Easy to install and UL listed. Can be trimmed and remain hidden when in use.



- Save Fuel/Save Money
- Insulates Without Fear of Fire
- Cold and Weather Resistant
- UL Tested

HOW TO USE THIS CATALOG

The Sexauer Catalog has been designed to create a natural progression, from very GENERAL CATAGORIES, to groups of RELATED ITEMS and finally to SPECIFIC ITEMS.

For example, suppose you are looking for a particular kind of Hack Saw Blade to cut through a certain type of material. First, go to the booklet containing TOOLS, then open the booklet to the SAWS & BLADES section. Read down the contents list in the left hand margin until the desired group of items is reached. The specific blade you need will be found opposite this list.

To further aid you, a comprehensive index is located in the back of each booklet.

HOW TO ORDER

Print or type your order using your company's stationery or Purchase Order and include order number, date, your firm's name, address and zip code. If the shipping address differs from the billing address, please indicate this on the order. Specify items by catalog number, quantity, and description of item. Consult the terms and conditions of sales page for specific information regarding freight allowances, terms, etc. For C.O.D. orders please state C.O.D. on your order. When making payment with an order, please attach the check to your order form. Open accounts are subject to approval by our credit department.

TERMS & CONDITIONS OF SALE

TERMS

MINIMUM ORDER INVOICE: $10.00

2% Discount 10 days from Date of Invoice Net 30 days.

Invoices not paid according to terms are subject to MONTHLY SERVICE CHARGES OF 1% per month (which is an ANNUAL PERCENTAGE RATE of 12%.)

DELIVERY

Shipments are normally made via cheapest route. Delivery is contingent on government regulations, strikes and other circumstances beyond our control.

Orders "UNDER $50.00" are shipped F.O.B. Louisville, Ky. Minimum $1.50 shipping and handling charge.

Orders of "$50.00 or MORE" are prepaid to destination within Continental United States. EXCEPTION: Orders including "Mule-Kick" liquid must be shipped via freight and orders under $50.00 are shipped F.O.B. Louisville, Ky. and the freight charge is added to the invoice.

CLAIMS, DEFECTS & DAMAGE

Claims for shortage must be made within 10 days after receipt of shipment, To J.A. Sexauer, Inc., 10 Hamilton Ave., White Plains, N.Y. 10601. Items defective in manufacture will be replaced without charge.

Our liability is limited to the replacement of defective parts and does not extend to damages, or losses due to the use or inability to use, or failure to follow specific instructions in use of any of our products.

RETURNS

No returns permitted without our written authorization nor after 120 days from date of invoice. Returns so authorized must be made to 10 Hamilton Avenue, White Plains, N.Y. 10601.

When orders have been correctly filled, and unless defective material is involved, RETURNS ARE SUBJECT TO A 15% HANDLING CHARGE.

PRICES & TAXES

Prices and discounts are subject to change without notice. Unless otherwise agreed, all orders are accepted on the basis of "PRICES PREVAILING AT THE TIME OF SHIPMENT"

All local, state, federal or special taxes (including sales and use taxes) now or hereafter imposed, shall be paid by the buyer — unless an exemption certificate is on file with "Sexauer."

All orders subject to acceptance by

J.A. Sexauer, Inc.

10 HAMILTON AVE., WHITE PLAINS, NEW YORK 10601

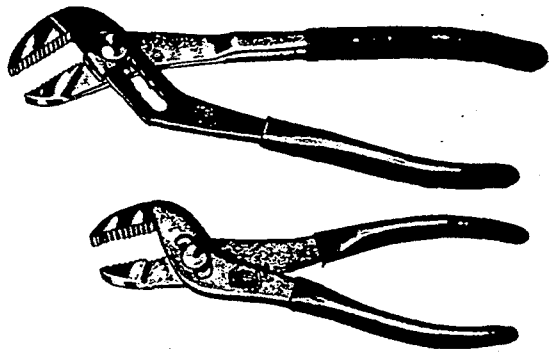
SEXAUER®

TOOLS

SEXAUER TOOLS PREFERRED SINCE 1921

The proper tool for the job is essential to give the mechanic the facility and the professional touch to cope with every problem. The Sexauer Company realizes this fact and for 55 years has been aiding you, The Mechanic, with high quality tools for general and specific purposes. Many SEXAUER tools are exclusively and specifically designed to enable you to do an efficient and better job. Our "Easy-Start" Screwdriver Set for example, will firmly hold screws and permit you to start and drive the screws using only one hand. Our Multi-Purpose tools, such as the 4-in-1 Stop Cock Tool or the 3 [illegible] Radiator Air Valve Tool, enable you to do a job without [illegible] extra equipment. SEXAUER Tools are [illegible] and engineered to exacting [illegible] quality.

SNAPPY WRENCHES



SEXAUER SNAPPY WRENCHES

Special alloy drop forged steel. Adjustable, with machined teeth to insure proper gripping. Fitted with Sexauer Plia-Grips.

Cat. No.	Description	Length	Adjusting Positions	Maximum Grip
065177	Snappy Wrench	10"	7	2"
065193	Snappy Wrench	8"	3	1¼"

SMOOTH JAW SNAPPY WRENCH

Same as above except that jaws have no teeth and thus will not mar or damage chrome plated nuts.

Cat. No.	Description	Length	Adjusting Positions	Maximum Grip
065185	Smooth Jaw Snappy Wrench	10"	7	2"

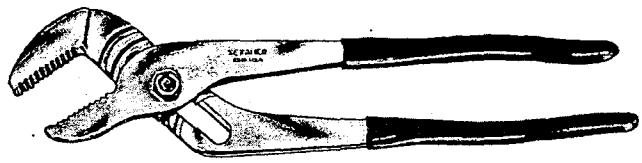
PLIA-GRIPS

SEXAUER PLIA-GRIPS

Rubberized plastic handles insure firm hand grip on Snappy Wrenches — sold by pair.

Cat. No.	Description
077982	No. 1 Pair "Plia-Grips" for 8" Snappy Wrench
077990	No. 2 Pair "Plia-Grips" for 10" Snappy Wrench

EASY-GRIP WRENCH

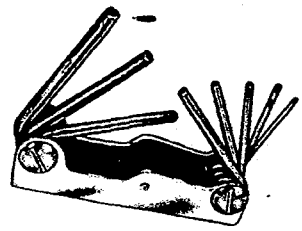


SEXAUER 12" EASY-GRIP WRENCH

A "heavy duty" general purpose plier made of special alloy drop forged steel and chrome plated. The jaws are milled with deep, sharp teeth for positive tight gripping of any shape object. Contoured handles equipped with "Plia-Grips" make it easy to maintain a firm grip and provide maximum leverage. A handy tool for tight places where a pipe wrench cannot be used.

Cat. No.	Description	Length	Adjusting Positions	Maximum Grip
065169	Easy-Grip Wrench	12"	7	3"

ALLEN WRENCH SET



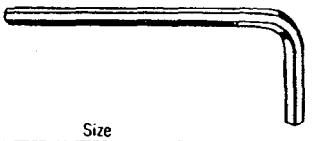
ALLEN SCREW WRENCH SET

Consists of 8 hardened & tempered steel Hex keys — 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 7/32", and 1/4", self contained in heavy duty, cold rolled steel handle. Prevents loss of keys and takes up little room in pocket or tool box.

Cat. No.	Description
008581	Allen Wrench Set

HEX SOCKET KEYS

SEXAUER HEX SOCKET KEYS

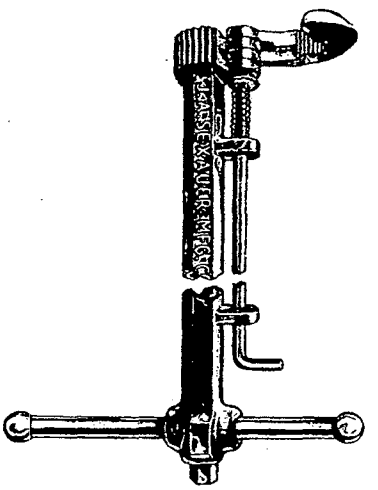


Made from the finest grade, hardened & tempered steel.

Cat. No.	Description	Length	Size
071712	Hex Socket Key	2"	5/64"
071720	Hex Socket Key	2-1/8"	3/32"
071738	Hex Socket Key	2-7/16"	1/8"
070938	Hex Socket Key	2-11/16"	5/32"
085886	Hex Socket Key	3"	3/16"

BASIN WRENCH

SEXAUER 14" BASIN WRENCH

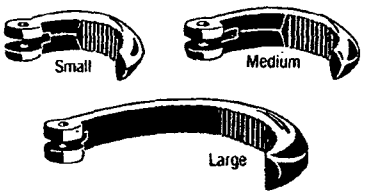


Interchangeable jaws permit gripping any size nut up to 2". For basin or sink faucet couplings and other inaccessible connections. Made from case hardened steel.

Cat. No.	Description
066480	No. 2 Basin Wrench w/Small and Medium Jaws
066498	No. 2A Basin Wrench w/Small, Medium and Large Jaws

BASIN WRENCH JAWS

BASIN WRENCH JAWS



To be used with above basin wrench.

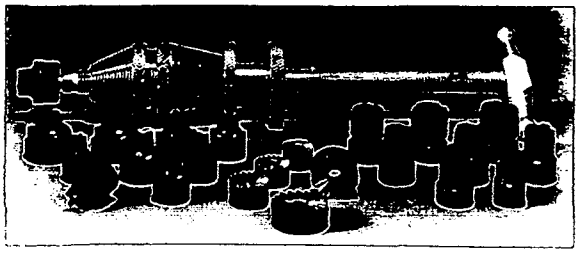
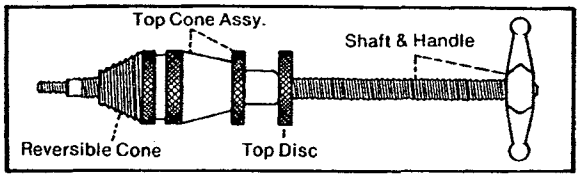
FAUCET SEAT REFORMING TOOL

SEXAUER FAUCET SEAT REFORMING TOOL



A tool for professionals that reforms worn, pitted corroded or water-cut faucet seats to a smooth new contour and provides maximum seating surface for the washer. The reforming tool also corrects imperfections in seats of new faucets and also "off-center" seats.

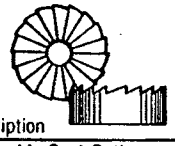
Use this Sexauer tool and insure a positive, easy shut-off, eliminate leaks and prolong the life of the fitting. Available: alone, or in special kits with different cutters and taps. Repair parts and sturdy metal carrying case are also available.



Cat. No.	Description				
053199	Faucet Seat Reforming Tool, only	080283	Shaft and Handle	080358	Top Disc
020123	Carrying Case, only	080341	Reversible Cone	080499	Top Cone Assy.

CUTTERS & TAPS

REMOVABLE SEAT CUTTERS



Reform seats to a "Precision-Smooth" surface. Hardened tool steel. For Reforming Removable Seats.

Item	Cat. No.	Description	Size (O.D.)	Item	Cat. No.	Description	Size (O.D.)

007633	#3 Masonry Drill	5/16"	1/4"	4"

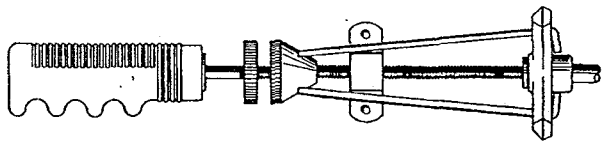
REFILL TUBE EXTRACTOR

SEXAUER REFILL TUBE EXTRACTOR

Easily removes broken off refill tubes from ball cocks. Includes a 1/4" x 40 thread tap, 1/4" x 40 thread die and extractor.

Cat. No.	Description
058602	Refill Tube Extractor

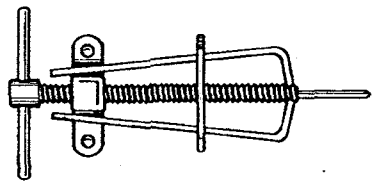
HANDLE PULLER



SEXAUER BIG-CHIEF HANDLE PULLER

Removes most any size or type handle quickly and easily without marring fixture or handle. Easy to attach and even stubborn, tight handles are moved in a jiffy.

Cat. No.	Description
052431	Big-Chief Handle Puller

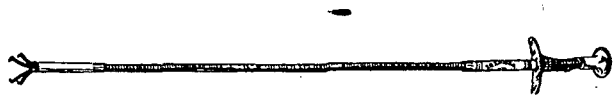


COMPACT HANDLE PULLER

Removes stubborn handles easily. For use in tight, obstructed areas. Professional quality.

Cat. No.	Description
094706	Compact Faucet-Handle Puller

MECHANICAL FINGERS

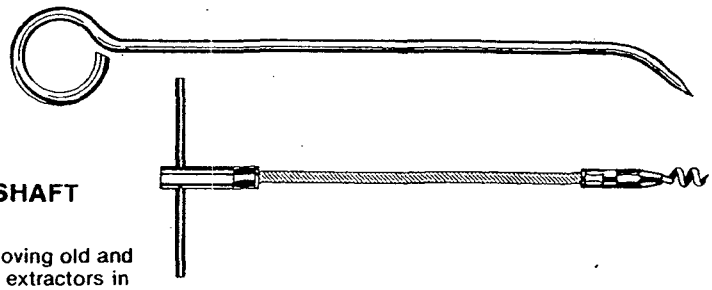


SEXAUER MECHANICAL FINGERS

Provide a quick, easy means of retrieving any object dropped down a plumbing fixture or in any other inaccessible place. Seek and retrieve with a "feel" of a real hand. The slender, flexible shaft permits the tool to be bent readily in any direction. The four retractable fingers will grasp any object and withdraw it through bends and curves. Also handy for starting screws, nuts, bolts, etc. in tight places.

Cat. No.	Description	Overall Length
065144	#1 Mechanical Fingers	36"
065375	#3 Mechanical Fingers	11-1/2"

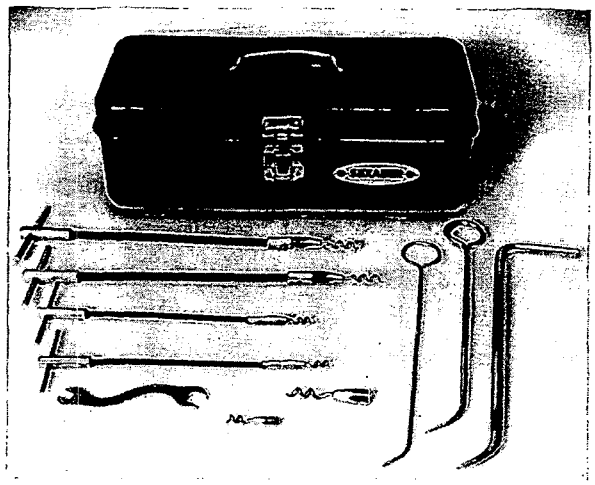
FLEXIBLE & SOLID SHAFT PACKING EXTRACTORS



SEXAUER FLEXIBLE & SOLID SHAFT PACKING EXTRACTORS

Solid shaft extractors in 3 sizes for removing old and hardened valve packings. Flexible shaft extractors in 2 sizes, have removable tips for extracting fibrous packings.

Cat. No.	Description	Length	Shaft Dia.
032250	No. 1 Flexible Extractor with Tip	7-1/2"	—
032268	No. 2 Flexible Extractor with Tip	11"	—
032300	Small Corkscrew Tip for No. 1 Extractor	—	—
032318	Large Corkscrew Tip for No. 2 Extractor	—	—
032276	#7 Solid Shaft Extractor	9-1/2"	1/8"
032284	#8 Solid Shaft Extractor	9-1/2"	3/16"
032292	#9 Solid Shaft Extractor	9-1/2"	5/16"

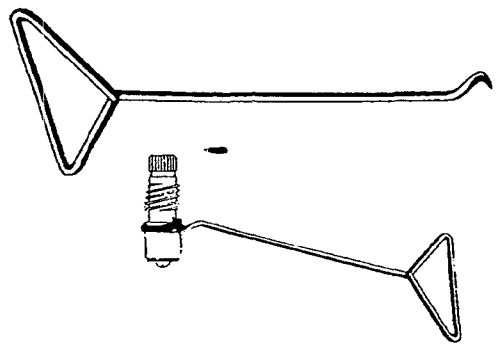


SEXAUER PACKING EXTRACTOR SET

Includes 2 of each #1 and #2 Flexible Shaft Extractors, and 1 each of all other items listed above. The removable tip feature of the Flexible Shaft Extractors makes them multiple purpose tools. As a lantern gland or ring remover, use the pointer threaded end. Simply twist the threaded ends into the lantern ring, using both extractors at opposite sides and pull the lantern ring back. Set comes in sturdy plastic box and includes wrench for removing corkscrew tips.

Cat. No.	Description
032243	Packing Extractor Set, Complete
032367	Packing Extractor Wrench

"O" RING PICK



SEXAUER "O" RING PICK

Provides a quick and easy means of removing worn out, stubborn "O" Rings.

Cat. No.	Description

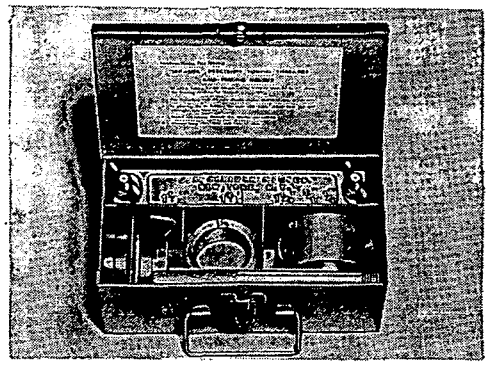
TUBE THREADING TOOLS & TUBING HOLDER

SEXAUER SET OF TUBE THREADING TOOLS & HOLDER

Provides complete "department" in one compact package for threading 1-1/4", 1-3/8", or 1-1/2" brass tubing faster, better, easier than ever before.
The oil-hardened tool steel dies are machined with 8 lands to insure perfect, clean threads. Dies are stamped with the size tubing they thread.
Corresponding sizes of steel guides insure proper alignment of the tubing and both the dies and guides are quickly and easily interchanged.
The companion Tubing Holder is made of "Tenzaloy", a select high tensile strength aluminum alloy. It grips 1/4", 5/16", 1-1/4", 1-3/8" and 1-1/2" tubing and holds it securely for threading, flaring or cutting with full protection against tubing distortion or damage.
A handsome, sturdy metal carrying case comes with each set. Individual parts may be ordered separately. Includes Hex Socket key.



Cat. No.	Description	Included Items
078089	No. 1 Tube Threading Set	w/1-1/4" Die & Guide

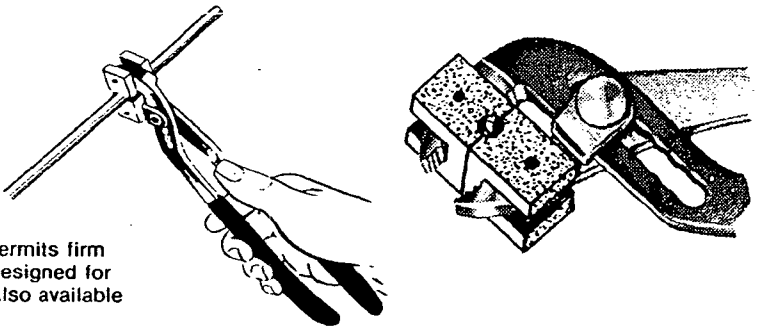
JAW TUBING HOLDER

SEXAUER QUICK GRIP JAW TUBING HOLDER

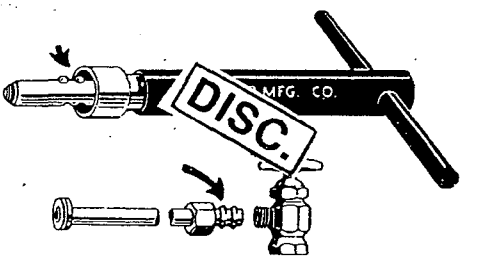


Tubing Holder, used with pliers permits firm grip and prevents marring tube. Designed for use with Sexauer Beading Tool. Also available with Snappy Wrenches.

Cat. No.	Description
007963	Quick Grip Jaws only (2 pieces)
034652	Quick Grip Jaws Assembled w/8" Snappy Wrench
034660	Quick Grip Jaws Assembled w/10" Snappy Wrench

BEADING TOOL

SEXAUER DOUBLE-BEAD BEADING TOOL

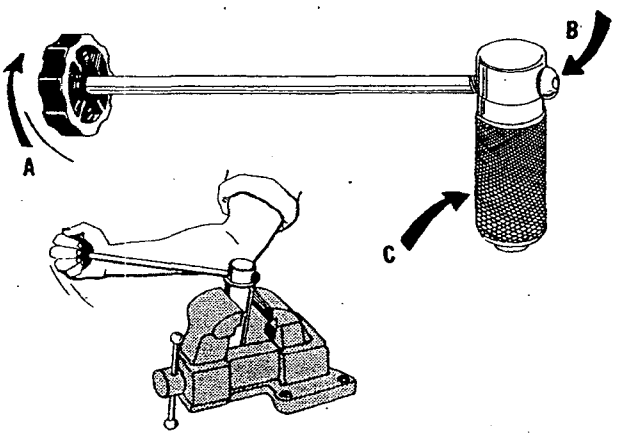


A revolutionary time saver that eliminates use of ferrule and reaming of cut-off, standard 3/8" tubing. After the tapered end has been inserted into the tubing (no reaming necessary). Two cam-actuated balls rise up with a clockwise turn of the tool and form an outwardly shaped double ring on the tubing. This shape is compatable with all standard compression fittings. Joints, collapsed through over use can be perfectly reformed. Makes a connection that cannot be pulled apart. Also available with Quick Grip Jaws and Snappy Wrenches.

Cat. No.	Description
Disc.	**Beading Tool**
Disc.	**Beading Tool w/8" Snappy Wrench and Assembled Tubing Jaws.**
Disc.	**Beading Tool w/10" Snappy Wrench and Assembled Tubing Jaws**

TUBE FLANGING TOOL

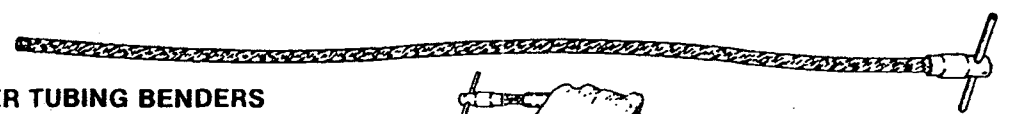
SEXAUER QUICK-FLANGING TOOL



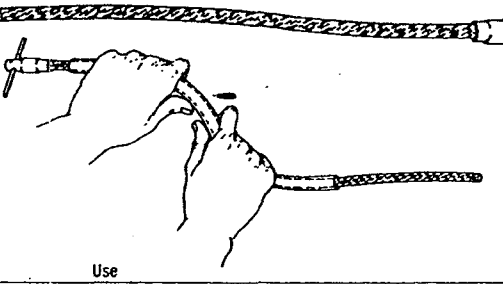
Form scrap 17 ga. and 20 ga. tubing into perfect tailpieces in seconds. To use tool, first turn handle (a) counter-clockwise to retract ball (b) into the cylinder. Insert knurled cylinder (c) completely into **SQUARED OFF 1-1/2"** tubing and **CLAMP THE TUBING SECURELY** in a vise. While using ample lubrication on end of tubing turn the shaft handle clockwise to extend ball 1/3 of the way out and then make one complete revolution of the handle shaft. Turn the handle again to completely extend ball and make another revolution of handle shaft to form perfect flanges.

Cat. No.	Description
065490	Quick-Flanging Tool

TUBING BENDERS



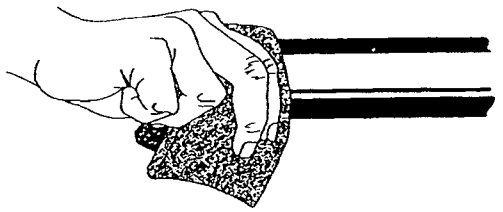
SEXAUER TUBING BENDERS

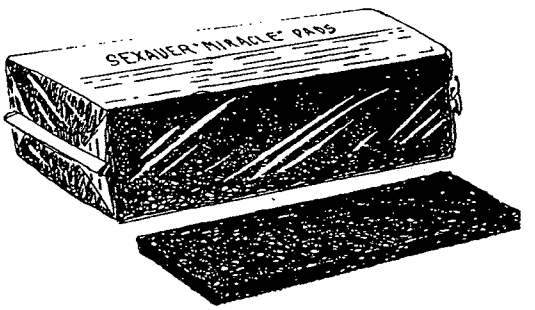


A quick, easy means of bending 3/8" and 1/2" tubing without crimping. Multi-coil cable flexes readily and insures long lasting service. Sturdy metal handle makes tool easy to operate. Simply insert tool into tubing, make bend and withdraw the tool. If unusually sharp bend is made, twisting the tool makes it easier to withdraw.

Cat. No.	Description	Cable Length	Size	Use
062893	#1 Tubing Bender	17"	9/32"	3/8" Tubing
076836	#2 Tubing Bender	17"	3/8"	1/2" Tubing

CLEANING PADS





SEXAUER MIRACLE CLEANING PADS

Clean and de-oxidize copper tubing and fittings preparatory to 'sweating'. Nylon fibers bonded with a fast-cutting, long life, synthetic adhesive. Pads absorb dirt and cuttings and can be shaken out or washed to prolong usefullness. Makes an ideal household scouring pad.

Cat. No.	Description	Size	Packaged
068007	Miracle Pads	6" x 2" x 1/4"	10

COPPER TUBE CLEANING BRUSHES

SEXAUER COPPER TUBE CLEANING BRUSHES

Bristles made from crimped, corrosion resistent, steel spring wire. Tightly bound on spiral steel shaft. Round wooded handle is comfortable to grip and easy to turn.

Cat. No.	Description	Size	For Tube Size	Packaged
068551	Tubing Brush	1/4"	3/8" O.D.	3, 6, or 12

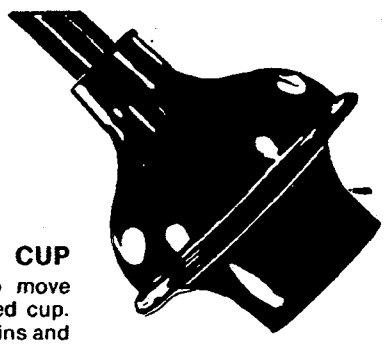
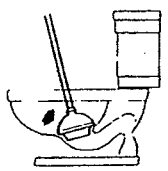
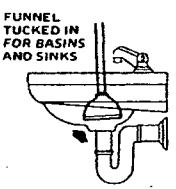
DUAL THRUST FORCE CUP





FUNNEL EXTENDED FOR TOILET BOWLS



FUNNEL TUCKED IN FOR BASINS AND SINKS

SEXAUER DUAL-THRUST FORCE CUP

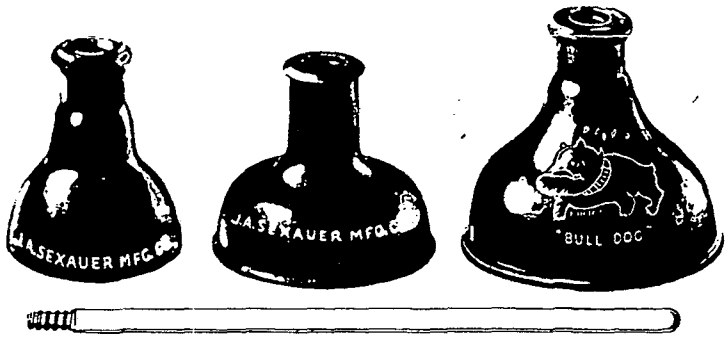
"Super-Charger" action removes hard to move stoppage with large capacity funnel shaped cup. Funnel can be retracted to use in sinks, basins and tubs. Funnel provides a snug, secure fit and ease in handling in even oddly shaped closet bowls. Made of rubber and equipped with wooden handle.

Cat. No.	Description
039214	Dual-Thrust Force Cup w/Handle

FORCE CUPS

SEXAUER FORCE CUPS

Scientifically designed to develop maximum pressure ad suction, dislodge stoppage and keep drains free flowing. Made from rubber compound, treated to prevent oxidation. Flexible, yet give lasting service. Equipped with 24" threaded wooden handle.



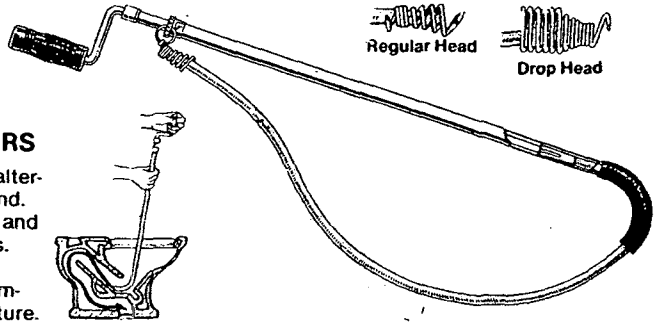
Cat. No.	Description	Size	Use
066035	Force Cup	4"	Soil pipe or trap, lavatories & many toilet bowls.
066043	Force Cup	4-5/8"	Lavatory, tub, sink & laundry tub drains.
066068	Bull Dog Force Cup	6"	Heavy Duty cup for sinks & floor drains.

SEXAUER BULLDOG TOILET BOWL FORCE CUP

Flexible rounded bottom forms perfect seal on any toilet bowl — thus develops tremendous pressure to free stoppage and prevent backsplash. Equipped with 24" threaded wooden handle.

Cat. No.	Description	Use
066076	Toilet Bowl Force Cup	Flexible rounded bottom for perfect seal on any toilet bowl.

CLOSET AUGERS

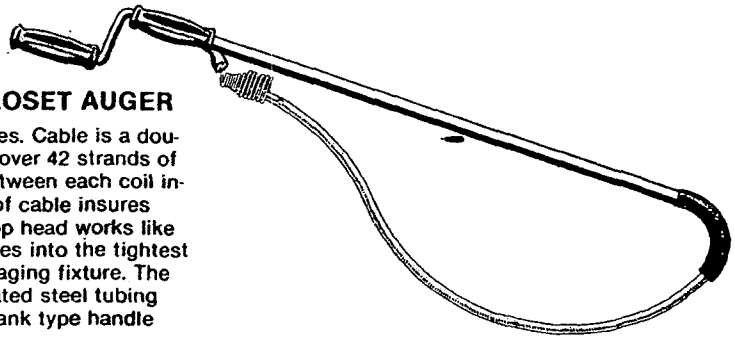


SEXAUER MULTI-COIL CLOSET AUGERS

Cable is made of 21 separate wires, woven in 5 alternate twists of 4 wires each around a center strand. Many times stronger than any single strand coil and resists kinking. Replaceable cable reduces costs. Sturdy 2-way tip grabs either way to hook and remove stoppage. Telescopic inner shell for "compact strength." Rubber boot on end protects fixture.

Cat. No.	Description	Type Head	Cable Size	No. Wires
065821	Closet Auger Complete	Regular	3/8" O.D. x 36"	21
078436	Closet Auger Complete	Drop	3/8" O.D. x 36"	21
065839	Closet Auger Cable	Regular	3/8" O.D. x 36"	21
078451	Closet Auger Cable	Drop	3/8" O.D. x 36"	21
083915	Closet Auger Cable Boot			

HEAVY DUTY CLOSET AUGER

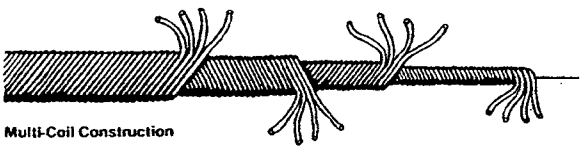


SEXAUER HEAVY DUTY CLOSET AUGER

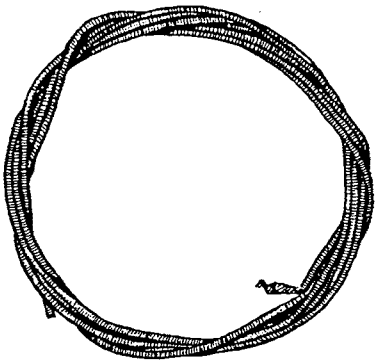
Breaks up most stubborn stoppages. Cable is a double layer of springs wound tightly over 42 strands of aircraft-type wire rope. Spacing between each coil insures flexibility and construction of cable insures strength and long life. Flexible drop head works like a cushioned universal joint and goes into the tightest passages and curves without damaging fixture. The body is of heavy 3/4" O.D. Zinc plated steel tubing with protective boot. Aluminum crank type handle eases operation.

Cat. No.	Description	Type Head	Cable Size	No. Wires
007971	Heavy Duty Closet Auger	Drop	15/32" O.D. x 33"	44

MULTI-COIL SNAKES



Multi-Coil Construction



SEXAUER MULTI-COIL SNAKES

Made from the finest tempered steel wire and Multi-Coil construction provides tremendous strength. They withstand far more severe usage and perform better than ordinary single-strand wire snakes. Available with either regular or drop head.

Cat. No.	Description	Length	Size	No. Wire Strands	Type Head
078295	Multi-Coil Snake	15'	1/4"	17	Drop
078303	Multi-Coil Snake	20'	1/4"	17	Drop

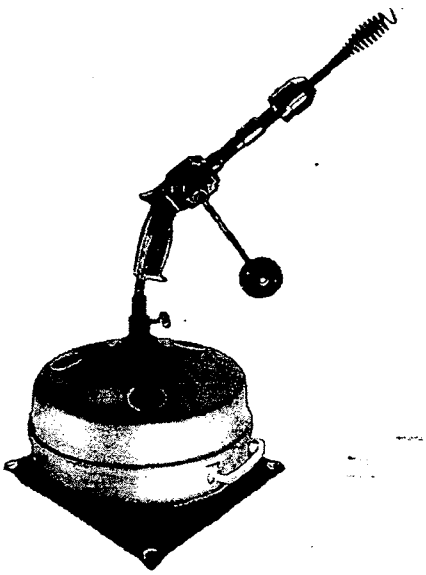
ROTARY SNAKE CONTAINER

SEXAUER PROPELLER DRIVEN ROTARY SNAKE CONTAINER



Designed for one man operation, prevents kinks and backlashing, increases the life of snakes. Propeller with Jacobs Chuck insures positive grip on 1/4" to 1/2" snakes and propeller body is made from tough alloy. Fully enclosed gears are unbreakable pressure cast alloy and are factory lubricated for long life and easy operation. Idle-locking set screw locks propeller and snake to the container so the entire equipment can be picked up by propeller for easy handling. Heavy sheet metal container is rust-proofed inside and out, has carrying handle and three vent holes for airing and quick cleaning. Radial bearing mounting assures smooth, quiet rotation. Accomodates snakes up to 1/2" x 50'. Does not include snake.

SEXAUER SUBMERSIBLE PUMP

Powerful, portable pump offers great performance and many special features that make it one of the most versatile and hard-working pumps on the market.

Strong, metal construction with a tough epoxy coating inside **and** out for extra protection. The powerful 1/6 H.P. motor (115 volt AC, 5 amps) is designed to run noiselessly for 10,000 hours with sealed-in oil lubrication. Wafer thin bottom screen allows pumping to within 1/8" of floor surface. Entire unit weighs 8-1/2 lbs., measures 9-1/4" high and is UL listed. Includes shock resistant, 8' grounded cord and convenient swivel carrying handle. Protected by one year limited warranty.

GREAT PERFORMANCE
20 Gallons per minute 3 ft. above pump
14 Gallons per minute 10 ft. above water
10 Gallons per minute 15 ft. above water
5 Gallons per minute 20 ft. above water

Check These Features:

- *8' Grounded Cord & Carrying Handle*
- *For Garden Hose or 1" Pipe Connections*
- *Automatic Overload Protection*
- *Sealed-In Oil Lubrication*
- *Double Epoxy Coating*
- *Anti-Airlock Valve for Instant Start and Instant Drain*
- *Pumps To Within 1/8" of Floor Surface*

CHEMICALS & COMPOUNDS

JASBlatt01127

WASTE PIPE CLEANER

"MULE-KICK" WASTE PIPE CLEANER

Designed primarily for use in relatively small doses, to unclog or "pep-up" plumbing drains. A pure chemical with no adulterants such as aluminum chips or zinc borings that cause harmful, obnoxious fumes. Can be used in the home without any annoyance. Full strength of the fast dissolving 'flakes' is protected by air tight moisture-proof packaging. Cannot crystallize and is harmless to fixtures, chrome or piping. Use as directed.

Cat. No.	Description	Packaged	Weight: Each/Case
063958	Waste Pipe Cleaner/48	Case/48 Cans	12 oz./45 lbs.
063958	Waste Pipe Cleaner/24	Case/24 Cans	12 oz./24 lbs.

CLOSET BOWL CLEANER

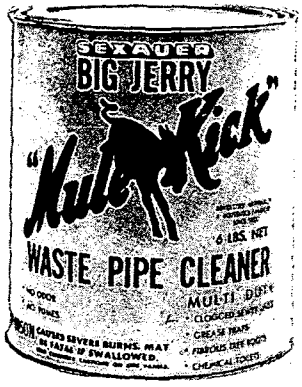
"MULE-KICK" CLOSET BOWL CLEANER

Formulated for use in toilet bowls. Effective chemical reaction removes stubborn stains. Use as directed.

Cat. No.	Description	Packaged	Weight
063966	Closet Bowl Cleaner/48	Case/48 Cans	60 lbs.
063966	Closet Bowl Cleaner/24	Case/24 Cans	30 lbs.

BIG JERRY HEAVY DUTY CLEANER

"MULE-KICK" BIG JERRY HEAVY DUTY CLEANER



For cleaning clogged sewer lines, to clear lines of obstructing tree roots, and to relieve sluggish or clogged grease traps. Following instructions, Big Jerry can also be used on installations of chemical toilets. It has no odor and no fumes and will not harm drains or waste lines, including tile or Orangeburg pipe. Use as directed.

Cat. No.	Description	Packaged	Weight: Each/Case
063941	Big Jerry Cleaner	Case/8 Cans	6 lbs./57 lbs.

STAIN ERASER

"MULE-KICK" STAIN ERASER

Made of a refined volcanic substance that will not mar delicate surfaces. Removes rust and other stains. For tile, basins, sinks, tubs and other china or enameled-iron surfaces. Comes in a convenient sized cake. Just moisten cake and rub the affected area.

Cat. No.	Description	Packaged	Weight
077255	Stain Eraser	Case of 12/Individual boxed	2 lbs.

LIQUID DRAIN CLEANER

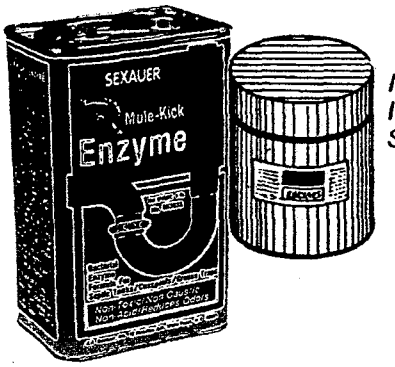
"MULE-KICK" LIQUID DRAIN CLEANER

Packs more power, works faster, recommended for professional use only. Easy to pour directly into fixture drain or waste line. It's heavier than water and flows directly to stoppage. Dissolves grease, food scraps, hair, lint, paper and organic matter. Periodic treatment keeps sewer lines clear and sanitary. Will not freeze or interfere with biolgical action in cesspool or septic tank. Comes in durable plastic bottles with safety cap. Use as directed.

Cat. No.	Description	Packaged	Weight
087072	Liquid Drain Cleaner/Quart	Case/12-Qt. Bottles	50 lbs.
087213	Liquid Drain Cleaner/½ Gal.	Case/4-½ Gal. Bottles	33 lbs.

ENZYMES

"MULE-KICK" ENZYME



New Institutional Size

Formulated especially for septic tanks, cesspools and grease traps. A bacterial enzyme mixture that quickly and safely restores and reactivates natural biological action in any sewer system. Laboratory certified free from harmful Salmonella bacteria. Digests and liquifies organic wastes. Eliminates odors in septic systems and grease traps. Non-poisonous, non-caustic, non acid - completely safe for all plumbing. Harmless to people and pets. Regular use may eliminate pumping and cleaning of septic systems and grease traps.

Cat. No.	Description	Packaged	Weight: Each/Case
063933	Enzyme	Case/12 Cans	1 lb./17 lbs.
029371	Enzyme	Each Container	25 lbs.

WATERLESS HAND CLEANER

"MULE-KICK" WATERLESS HAND CLEANER

"Mule-Kick" Waterless Hand Cleaner is a hard hitting cleaner with extra muscle to remove soil and grime. A special formulation works wonders in three ways. First, "Mule-Kick" Hand Cleaner contains strong cleaners and pumice to remove ground-in dirt and grease. Secondly, it contains lanolin to condition your skin as it cleans. Thirdly, a germicidal antiseptic additive is included to help heal minor cuts and abrasions.
"Mule-Kick" Hand Cleaner is packaged in a Plastic container with a spout top that prevents waste and spillage. Best results are achieved by rinsing hands with water after use.

Cat. No.	Description	Packaged	Weight: Each/Case
031559	Waterless Hand Cleaner	Case/24 Bottles	1 lb./26 lbs.

IMPORTANT NOTICE REGARDING SHIPMENT OF "MULE-KICK" PRODUCTS:

"Mule-Kick" Cleaners (Waste Pipe Cleaner, Closet Bowl Cleaner, Liquid Drain Cleaner and Big Jerry Cleaner) are sold in case lots only. Orders for Liquid Drain Cleaner must be shipped via freight due to its chemical nature, and orders under $50.00 are shipped F.O.B. Louisville, Ky. **and the Freight Charge is added to the invoice.**

BOILER COMPOUNDS

BOILER COMPOUNDS

Sexauer's specially formulated Boiler Cleaners and Sealers are truly *"formulas that perform"*, with a minimum of labor & the maximum of protection. All products are packaged in convenient economical sizes so that you get what you need - no waste.

(1) BOILER SEALER LIQUID

Sexauer Boiler Sealer Liquid seals leaks while boiler is in use. A unique pressure sensitive formula sends the sealant directly to the source of the leak, for a quick seal. Boiler Sealer Liquid prevent the formulation of scale and rust in the system thus increasing the efficiency of the boiler. Recommended for steam systems only.

(2) MULE-KICK® BOILER CLEANER LIQUID

Sexauer Mule-Kick® Boiler Cleaner Liquid is a colloid cleaner for steam/hot water systems. Used as directed, priming, foaming and surging stops. Mule-Kick® Boiler Cleaner Liquid also prevents rust and increases the efficiency of the system.

(3) SEXAUER BOILER GUARD

Formulated for optimum performance of hot water heating systems. It is designed to provide durable, long lasting flexible repair of leaks while providing protection from air pockets, circulation noises and corrosion for at least two heating seasons.

(4) BOILER SEALER POWDER

A fast acting concentrated compound which permanently repairs leaks in steam heating systems. Both large and small cracks are sealed through the entire thickness of the metal; often in less than 50 minutes. Not recommended for use in hot water systems.

(5) MULE-KICK® BOILER CLEANER POWDER

A concentrated power cleaner for low pressure steam heating systems. Once introduced into the system, Mule-Kick® Boiler Cleaner Powder stops priming and surging . . . operating noises stop, system is lubricated and conditioned while being cleaned without flushing. Cannot be overdosed.

Cat. No.	Description	Size

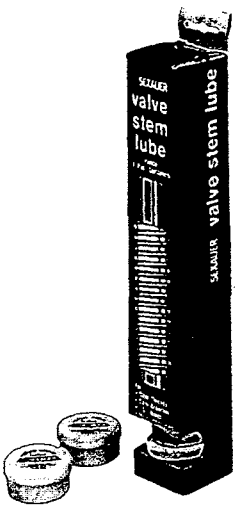
CHEMICALS

FAUCET AND VALVE STEM LUBRICANT

SEXAUER VALVE STEM LUBE
NEW 1/2 OZ. CONTAINER

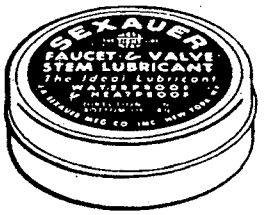


Sexauer's waterproof and heatproof lubricant is now available in two convenient sizes; our 4 oz. metal container and the new 1/2 oz. plastic container.

Plastic snap-close containers are attractively packaged in a convenient dispenser box which can be wall hung for over the counter sales. Each dispenser contains 12, 1/2 oz. containers. Whether the 1/2 oz. or 4 oz. size best suits your needs, you can be assured that Sexauer Valve Stem Lube will not melt like ordinary grease and is an excellent lubricant for valve threads, ballcock pistons, etc.

Cat. No.	Description	Packaged
028654	Valve Stem Lube	Ea./1/2 oz. Container
028662	Valve Stem Lube	Ea./Dispenser box w/12, 1/2 oz. Containers

SEXAUER VALVE STEM LUBE



Waterproof and heatproof. Will not melt like ordinary grease. For lubricating faucet and valve threads, ball cock pistons, ground keys, etc. Makes squeaky, hard-turning parts work smoothly and quietly. Eliminates wear and costly replacements.

Cat. No.	Description	Size	Packaged
051508	Valve Stem Lubricant	4 oz. Can	6, 12 or 24

"EZY-OFF" NUT LOOSENER

SEXAUER "EZY-OFF" NUT LOOSENER

A different and better penetrating fluid. Non-flammable. Penetrates, cleans, lubricates, preserves. Will free any 'seizure' caused by: Rust, scale, corrosion, gum, red and white lead, paint, dirt, shellac, and carbon. "Ezy-Off" Nut Loosener is a special formula of chemicals and oils, blended to provide exceptional penetrating and solvent properties. Free from harmful alkalies and acids and can be used on the most delicate mechanisms when directions are followed. Capillary action draws the fluid into frozen threads on parts for an "Ezy-Off" job. Packaged in aerosol containers. Complies with G.S.A. Spec. 6850 For Penetrating Fluid.

Cat. No.	Description	Packaged
068544	"Ezy-Off" Nut Loosener	Carton/12-11 fluid oz. cans

SILICONE LUBRICANT SPRAY

SEXAUER SILICONE LUBRICANT SPRAY

A modern and practical lubricant - now available in aerosol cans. Spray is non-flammable, stainless, will not jam up, and protects against rust and corrosion. Easy and convenient to use and will not evaporate. Typical uses as a lubricant are for faucet stems, ball cock pistons, "O"Rings, and hand and cutting tools. Has many household uses. Lubricant spray has many other uses. Has plastic tube for use in tight, unreachable places.

Cat. No.	Description	Packaged
089979	Silicone Lubricant Spray	Each/8 oz. Can

JASBlatt01132

TEFLON* PIPE JOINT TAPE

SEXAUER "EASY-WRAP"® PIPE JOINT TAPE

It takes only seconds to wrap threads with this permanent, Teflon* Sealant. Remains pliable indefinitely and resists temperatures from -300°F to 500°F. Withstands pressure of thousands of pounds. Chemically inert and non-toxic. Tape is clean and economical. Makes lifetime joints for just pennies.

REBUILDING KITS

FOR SPECIFIC MAKES AND TYPES OF FAUCETS AND VALVES

Sexauer Rebuilding Kits contain the parts that are the "most essential" and usually required to PROPERLY REBUILD the fixtures for which designed.

The parts of each Rebuilding Kit are enclosed in a sealed transparent bag with a hole at the top, which permits hanging them on nails or a rack if desired.

Each Rebuilding Kit is clearly identified by its Kit No. and Catalogue No. It also identifies the fixture for which it is designed, shows the name and quantity of each part it contains.

[illegible] Sexauer Rebuilding Kits you have assurance [illegible] The parts will "fit" the fixture — which saves [illegible] costly come-backs and insures [illegible]

SEXAUER FLUSH VALVE PISTON CONVERSION KITS

FOR SPEAKMAN FLUSH VALVES

Contain all the parts necessary to make effective longlasting flush valve repairs **without having to use the Speakman Piston Unit.** Kits are available for all Speakman Flush Valve models: Diamond and Si-Flo, both new style (mfg. after 1954) *and* old style (mfg. before 1954). In fact, troublesome old style valves (without renewable seat) are made almost as good as new; virtually eliminating the need to replace the entire unit.

Installation is fast and economical. Easy to follow instructions are included in each kit. These Conversion Kits are a must for any facility containing Speakman Flush Valves.

For more information, see Section 3.

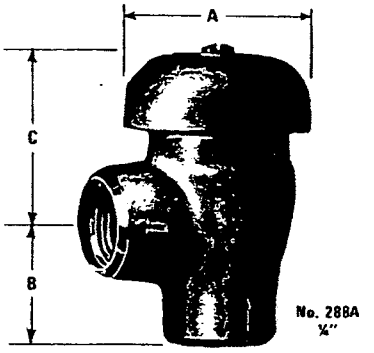
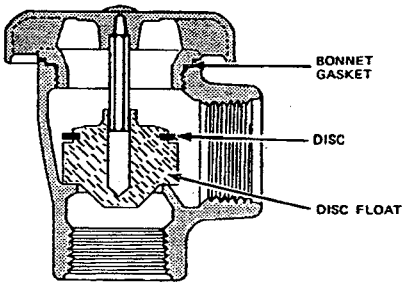
WATTS... BACK-SYPHONAGE, BACKFLOW PREVENTIVE DEVICES THE COMPLETE CONCEPT IN CROSS CONNECTION CONTROL

NO. 288A SERIES
HOT OR COLD WATER
ANTI-SYPHON VACUUM BREAKERS



Designed to prevent back syphonage of polluted water into potable water supply.

Vacuum breakers feature a lightweight, durable "disc-float" to handle temperatures up to 212 degrees F, which closes the atmospheric vent to prevent spilling under all rates of flow. Therefore, they are recommended for low-flow installations such as laboratory equipment which uses such a small amount of water. They also contain a durable Silicone disc which resists high temperatures and water hammer shock and assures tight sealing.



Series 288A have a full sized orifice to assure pipe size capacity. Water passages are streamlined to provide high water flow with minimum pressure loss.

Rebuilding Kits are also available.

Cat. No.	Description	Finish	Size	"A"	"B"	"C"

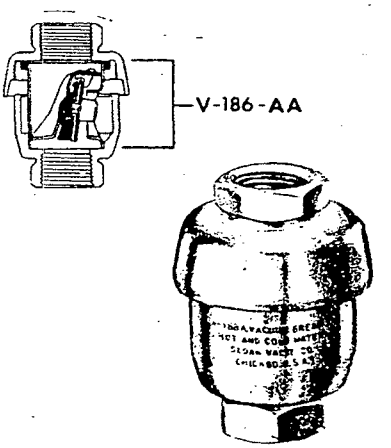
SLOAN V-350-A REPLACEMENT VACUUM BREAKERS

Specifically designed for piping systems employing solenoid-operated valves (which cause surge flows because they open quickly). Simple, practical design is the same as Sloan's V-370-A Vacuum Breaker, but the V-350-A has an extra O-Ring Seal to compensate for surge. Packaged individually. Repair kit available.

Cat. No.	Description	Size/Finish
069112	V-350-A Vacuum Breaker, Complete	1/2" Rough Chrome Finish
069120	V-350-A Vacuum Breaker, Complete.	3/4"-Rough Chrome Finish
069138	V-332-AA Repair Kit	For 1/2" & 3/4" Vacuum Breakers. Includes Items 1 thru 4



SLOAN V-188-A REPLACEMENT VACUUM BREAKERS

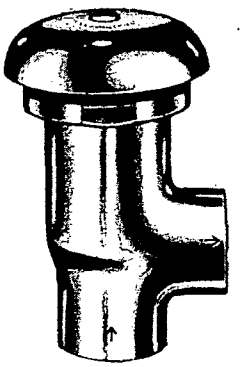
Designed for fixtures requiring high rates of flow or surge flows such as dishwashers, glass washers, etc. Packaged individually. Repair kit available.

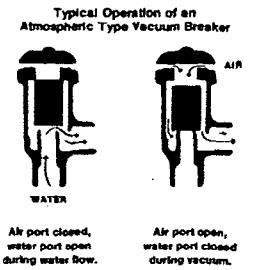
Cat. No.	Description	Size/Finish
069161	V-188-A Vacuum Breaker, Complete	3/8" IPS/Rough Chrome Finish
069260	V-188-A Vacuum Breaker, Complete	1/2" IPS/Rough Chrome Finish
069278	V-188-A Vacuum Breaker, Complete	3/4" IPS/Rough Chrome Finish
069286	V-188-A Vacuum Breaker, Complete	3/4" Hose Inlet & Outlet/Rough Chrome Finish
069294	V-188-AA Vacuum Breaker Repair Kit For Sloan V-188 Series Vacuum Breakers. Includes V-186-A Insert & Slip Joint Gasket	

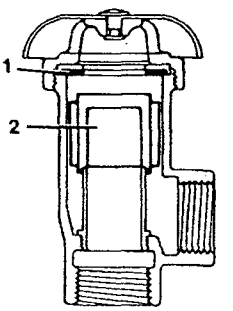
JASBlatt01179

SLOAN

VACUUM BREAKERS







SLOAN V-370-A REPLACEMENT VACUUM BREAKERS

Chrome Plated Vacuum Breakers, with bottom inlet & side outlet, are specifically engineered for fixtures supplied by small piping & operated under low flow rates. Simple, practical design prevents back-syphonage under all operating conditions. Repair kits are available.
Note: Kits also repair Sloan V-360-A Vacuum Breakers.

Cat. No.	Description	Size	Packaged
017608	Vacuum Breaker, Complete	3/8" Rough Chrome Finish	Each
017590	V-362-A Rebuilding Kit	For 3/8" Vacuum Breaker, Includes Items 1 & 2	Each
033225	Vacuum Breaker, Complete	1/2" Polished Chrome Finish	Each
033241	V-388-A Rebuilding Kit	For 1/2" Vacuum Breaker, Includes 1 & 2	Each
033233	Vacuum Breaker, Complete	3/4" Rough Chrome Finish	Each
033258	V-392-A Rebuilding Kit	For 3/4" Vacuum Breaker, Includes Items 1 & 2	Each

These Vacuum Breakers prevent pollution of water supply through back syphonage caused by a sudden drop of pressure.

VACUUM BREAKER COMPLETE

WOODFORD SAFEGUARD™ NOZZLE ADAPTOR/VACUUM BREAKER

Nozzle adaptor and vacuum breaker are for use in connecting standard ¾" thread garden hose outlets to an anti-contamination, backflow protected outlet.

Vacuum breaker provides easy, sure draining during cold months to prevent freezing damage to sillcocks.

Vandal-Proof nozzle adaptor is designed so that hose cannot be used if vacuum breaker is removed.

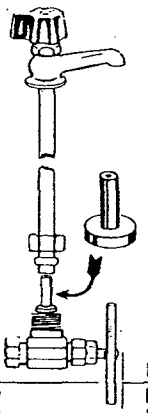
FLOW CONTROL DEVICES

SEXAUER FLO-CONTROLS FOR LAVATORIES AND SINKS

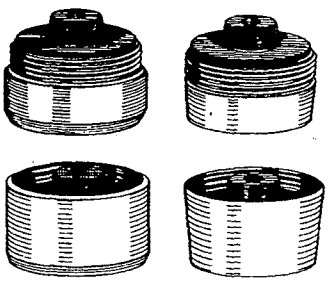
Conserve water, fuel and energy. Thoroughly tested and endorsed, Sexauer Flo-Controls are easily installed in the flexible supply where it joins the shut-off valve. Made of non-corroding metal.



Cat. No.	Description	Size	Packaged
032128	Flo-Control	3/8" Flex. Supply	Each
032136	Flo-Control	1/2" Flex. Supply	Each

SEXAUER FLO-CONTROL AERATORS

A result of 3 years of development and testing, these aerators will provide a constant flow of aerated water, regardless of ingoing line pressure, while conserving 60 to 70% of normal water usage. Specially designed internal parts and the use of a pressure compensating device make these aerators the best flow restriction devices available. Tests have shown that they will pay for themselves within 55 minutes of hot water running time, based on average cost of heating the water. Packaged individually.



FLO-CONTROL AERATORS

Cat. No.	Description	Size/Thread
038117	Flo-Control Aerator	15/16" Male

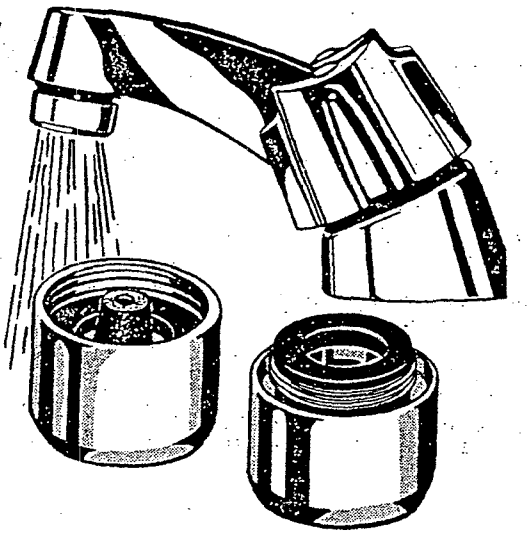
The Ultimates!



1/2 GPM WATER SAVER AERATORS

The ultimate water conserving aerators. Limit the flow of water to 1/2 GPM up to 80 PSI. Perfect for lavatory installations. Aerators have a corrosion resistant face with 28 orifices that disperse the water in a gentle spray pattern. Polished chrome plated finish and vandal resistant with internal pressure-compensating device. Aerators meet BOCA & ASHRAE standard for flow rates in lavatories of public rest room facilities. Packaged each/12 box - special key included with each shipment.

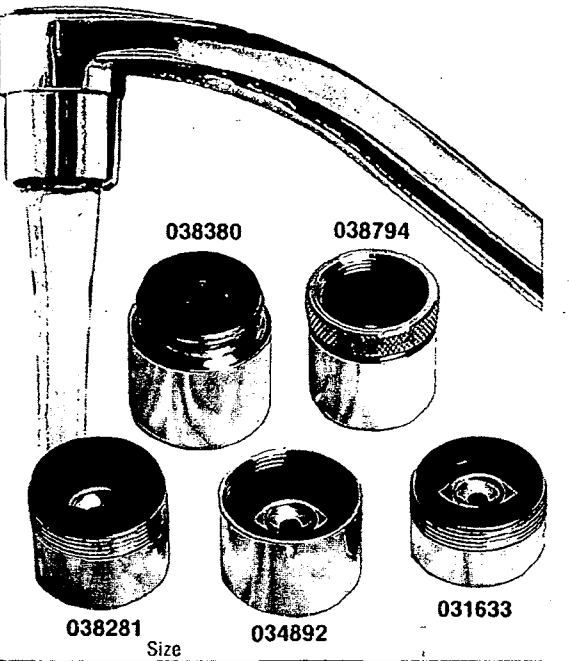
SANI-RATORS

SEXAUER SANI-RATOR®

- *Approved for demanding sanitary applications*
- *Non-contaminated water stream*
- *Water hugs surface with no splash*
- *Flow-control cuts water usage*

The Sexauer Sani-rator® looks like a normal faucet aerator . . . but that's where the similarity ends, because the Sani-rator® completely excludes air from the water stream. Normally, aerators use outside air to aerate and soften water flow. But, air contains bacteria, dust, pollen and other contaminents which have caused problems in hospitals and other institutions.

The specially engineered Sani-rator® **uses no air** yet delivers a clean stream of moderated and **sani-rated** water, free of airborne contaminants. Water hugs the surface and contours of anything it touches, produces no splash and is completely silent . . . and water usage is minimized because the Sani-rator® contains a built-in flow control. Made of solid brass with mirror-like finish. Easily attaches to faucet spout.



Cat. No.	Description	Thread	Size
031633	1M Sani-rator®	Male	15/16" x 27

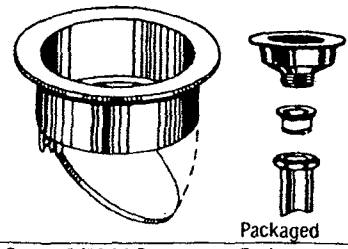
FLOW CONTROL DEVICES FOR SHOWERS

SHOWER REPAIRS

SEXAUER BACK CHECK VALVE

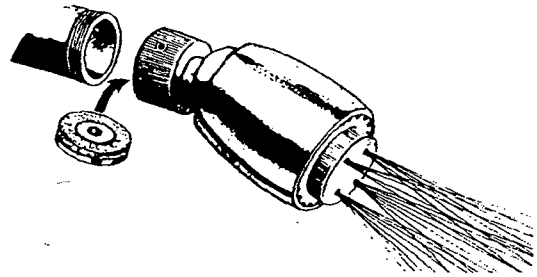
Durable, plastic device prevents back syphonage of waste water in sinks. Recommended for double sinks and sinks in multi-storied buildings where back syphonage often causes severe problems.



Cat. No.	Description	Size	Packaged
037952	Back Check Valve	1-3/4" Top x 1-3/8" O.D. x 1-9/32" I.D.	Each

SEXAUER FLO-CONTROLS FOR SHOWERS

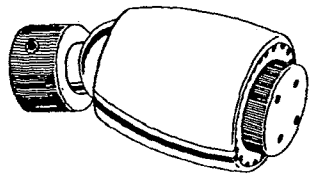
Easily installed in coupling nut between shower arm and shower head, Sexauer Flo-Controls conserve water, fuel and energy. They cut the flow of water from 8-10 gallons per minute to 2-4 gallons per minute. Tests have proved that these trouble-free, all brass flow restrictors can cut water usage by up to 50%. Three different sizes are available.



Cat. No.	Description	Size	Packaged
034447	Shower Flo-Control	2 gal. unit/90 lbs. PSI or more	Each
034421	Shower Flo-Control	3 gal. unit/60 to 90 lbs. PSI	Each
034439	Shower Flo-Control	4 gal. unit/60 lbs. PSI or less	Each

SEXAUER VANDAL-PROOF SHOWER HEAD

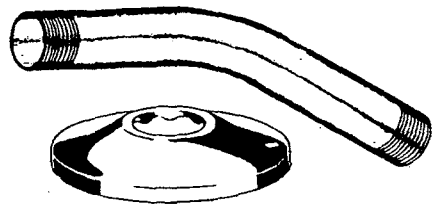
Made of heavy chrome plated brass. Shower arm coupling nut has set screw which prevents removal, except with included hex socket wrench. Assembles to standard ½" I.P.S. shower arm.



Cat. No.	Description	Packaged Individually
089987	No.2 Vandal-Proof Shower Head w/Wrench	Each

SEXAUER CHROME PLATED BRASS SHOWER ARM & SHOWER ARM FLANGES

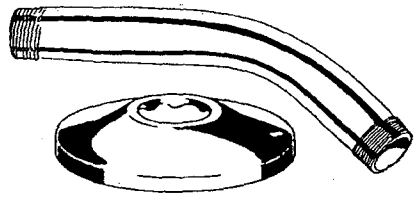
Arm has standard ½" I.P.S. threads on each side and so fits almost any shower head and supply fitting. Flanges available in either regular or vandal-proof (with set screw) models. Fit snugly around all standard size shower arms.



Cat. No.	Description	Size	Packaged
089409	Shower Arm	6" x ½" I.P.S.	Each
089417	Shower Arm Flange	2-1/2" O.D. x 13/16" I.D.	Each
089995	Shower Arm Flange, Vandal-Proof	2-1/2" O.D. x 13/16" I.D.	Each

CHROME PLATED PLASTIC SHOWER ARM AND FLANGE

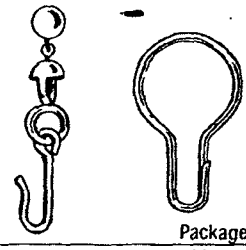
Shower arm and shower arm flange made from ABS plastic that is impervious to water corrosion and deterioration. Durable and tough, they will give as good service as those made from brass.



Cat. No.	Description	Size
013292	C.P. Plastic Shower Arm Flange	2-1/2" O.D. x 26/32" I.D.
013300	C.P. Plastic Shower Arm	1/2" IPS x 6" Length

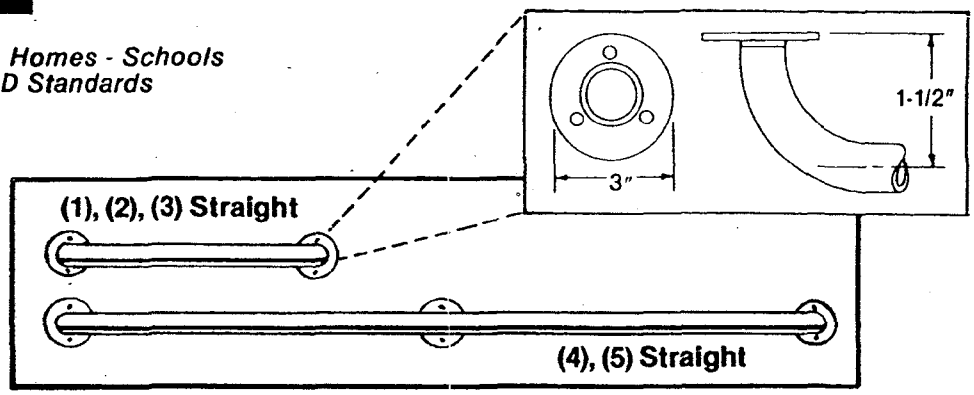
SEXAUER CHROME PLATED CURTAIN HOOKS

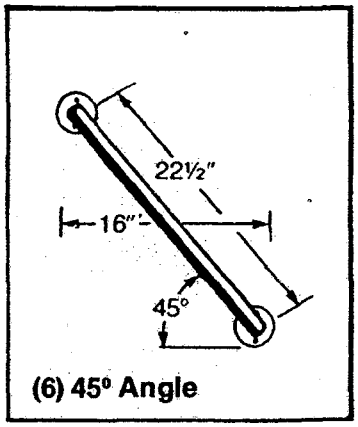
Split ring style hooks for secure hold in either regular or heavy weight styles and beaded chain hooks for special slotted curtain rods that require them.

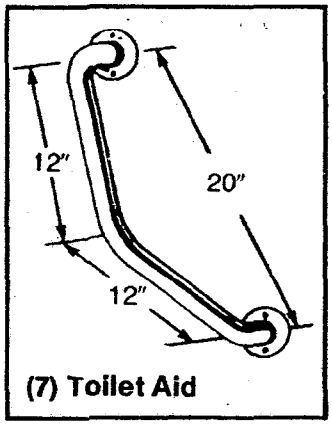


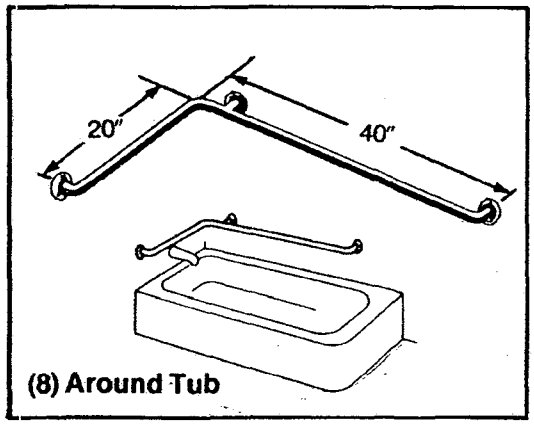
Cat. No.	Description	Packaged
062315	No.1 Regular Weight Curtain Hook	100,50,25
062323	No.2 Heavy Weight Curtain Hook	100,50,25
076620	No.3 Beaded Chain Curtain Hook	100,50,25

- *For Hospitals - Nursing Homes - Schools*
- *Meets Strict FHA & HUD Standards*









SEXAUER "SAFETY-GRAB" SUPPORT BARS

Sexauer "Safety-Grab" support bars were designed for heavy-duty usage; meeting stringent safety standards when and where they are needed.

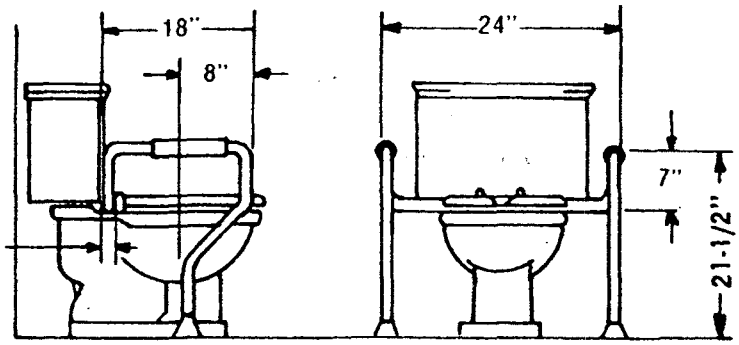
Sexauer specified the materials used in the bars to be safe, sanitary and eye appealing by using 1-1/4" x .035, type 304 stainless tubing with a #4 satin finish. The three (3) inch round wall flanges are Heliarc welded to the bar. Support bars project 1-1/2" from face of wall to center of bar, which allows ample hand grip, but does not crowd the facility being used. Installed correctly, "Safety-Grabs" stay secure under a pull strength that exceeds 500 lbs.

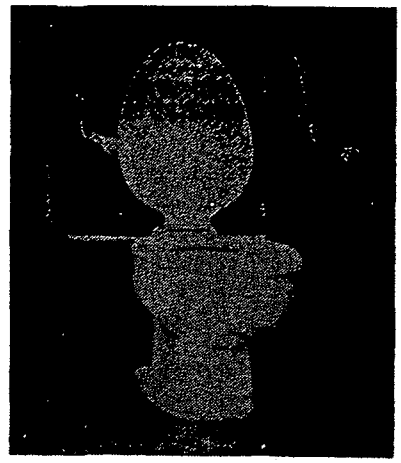
Sexauer "Safety-Grip" support bars are furnished complete with the proper fastening anchors and bolts for easy and sure installations. They meet strict HUD and FHA requirements.

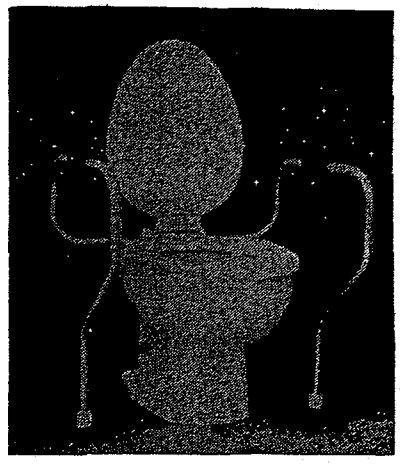
"Safety-Grab" Support Bars are a must for nursing homes, hotels, motels, hospitals, schools. . .any public or private facility. The use of grab bars is increasing in demand as an aid for the aged and handicapped.

	Cat. No.	Description	Type
1	028670	Safety-Grab Bar	24" Straight
2	028696	Safety-Grab Bar	16" Straight
3	028704	Safety-Grab Bar	32" Straight
4	028688	Safety-Grab Bar	36" Straight w/Center Bar
5	028712	Safety-Grab Bar	48" Straight w/Center Bar
6	028746	Safety-Grab Bar	45° Angle bar - Right or Left Hand
7	028720	Safety-Grab Bar	Toilet Aid - Right or Left Hand
8	028761	Safety-Grab Bar	Universal Around Tub - Right or Left Hand
9	028779	Safety-Grab Bar	Universal Around Shower - Right or Left Hand

JASBlatt01194







SEXAUER SUPPORT ARMS

Designed for handicapped persons. Support arms extend to floor for maximum support and eliminate excessive strain on seat and closet. Arms lift from floor for easy cleaning and can be used with any Sexauer, or other manufacturer, toilet seat. Made of stainless steel tubing (1" O.D. 16 gauge) with plastic hand grips. Fastens to standard 5-1/2" seat mounting holes. Note: Requires 2" clearance from mounting hole centerline to tank or flush valve.

Includes shaded items.

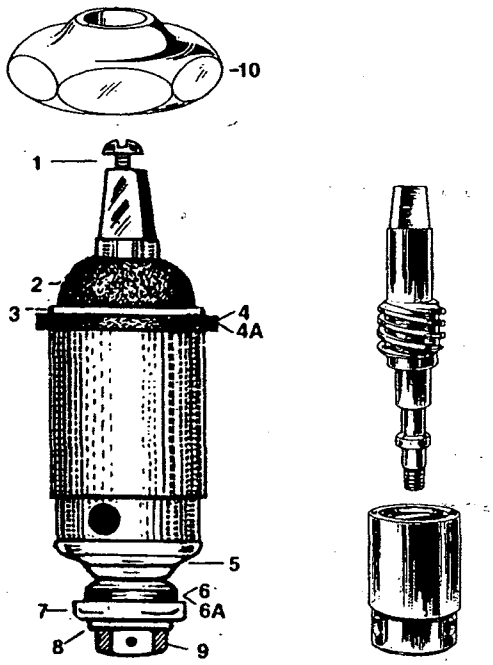
NOTE: Push Buttons alone are no longer available. They are now an integral part of the stem - which makes them "Vandal-Proof" "Old Style" stems designed for "old style" removable Push Buttons can still be furnished (See CH-5A Stem listed above).

CHICAGO "QUATURN" FAUCET PARTS

FOR CHICAGO HANDLES SEE SECTION ONE

HOW TO ORDER "QUATURN" STEMS, ASSEMBLIES & RENEWAL SLEEVES

On all "Quaturn" fixtures, only "cold" faucets with a lever handle or a blade handle require right hand thread parts. All other faucets (either "hot" or "cold") need left hand thread parts. Orders should therefore specify them as left hand thread or right hand thread - not "hot" or "cold", to insure receiving the type required.



Item No.	Cat. No.	Description
1	070714	No.56 Handle Screw

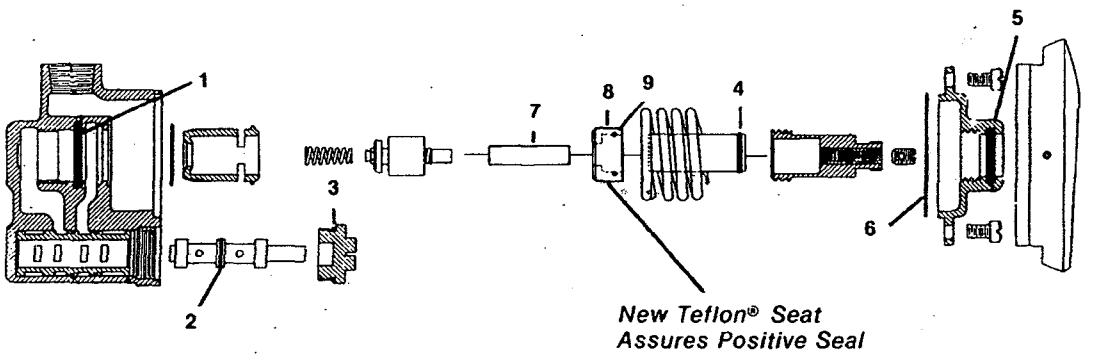
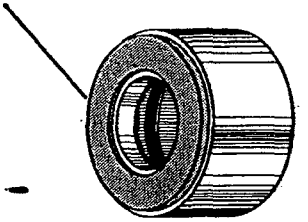
LAWLER

RECESSO ECHELON 3500, 4000 1/2" MIXING VALVES





SEXAUER SEAT CONVERSION KIT FOR LAWLER THERMOSTATIC MIXING VALVES

The solution to leaking problems in Lawler 1/2" Recesso & Echelon, 3500 & 4000 Valves. Providing the thermostat maintains the desired temperature but the valve still leaks, this easily installed kit will enable you to achieve a sure, long lasting repair . . . far superior to the original equipment. Each kit contains a brass and Teflon® seat disc, a hot seat washer, push rod and all the necessary O-Rings to repair the valve. What's more, the seat disc is so designed that it can be reused in the event the thermostat fails and needs replacement. Includes installation instructions.

Cat. No.	Description
053132	Seat Conversion Kit For Lawler Thermostatic Valves

KIT INCLUDES PARTS LISTED

1. 088708 No.55 O-Ring (1)
2. 084020 No.44 O-Ring (1)
3. 088807 No.57 O-Ring (1)

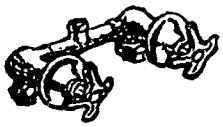
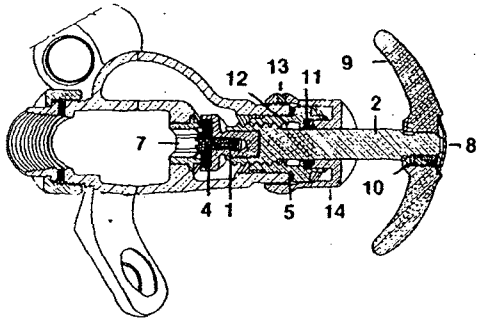
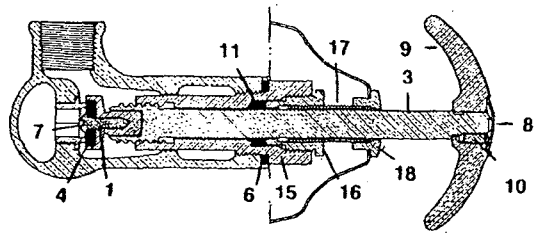
LOGAN

SHOWER VALVE PARTS SERIES 17,18,19







IMPORTANT NOTICE

The handles and stems for these valves do not come "tapped" for installation of the 1/4" x 10-32 Headless Screw (Cat. No. 087361) as shown in the illustrations --- but use of the screw is recommended as it makes the handle VANDAL-PROOF. After driving the serrated handle onto the serrated stem, you merely use a No.21 drill (with either a hand or electric drill) and drill a hole 1/4" deep at any point where the serrations of the handle and stem are mated. Then tap the hole with a 10-32 Bottom Tap so that the screw can be installed before assembling the Welsh Plug ("H" or "C") to the handle.

To remove a Welsh Plug, in order to repair a valve, you have to drill a small hole (3/16") in the plug and use a center punch or other instrument to pry it out of the handle -- which means it has to be "discarded". The Vandal-Proof Screw can then be removed to permit tapping the handle loose from the stem.

If more than one valve is being repaired at the same time, it is "essential" to make sure that each handle goes back onto the same stem from which it was removed -- and that the tapped portions of the handle and stem "match" so that the Vandal-Proof Screw can be properly installed.

REBUILDING KIT....Cat. No. 087536 LO-1

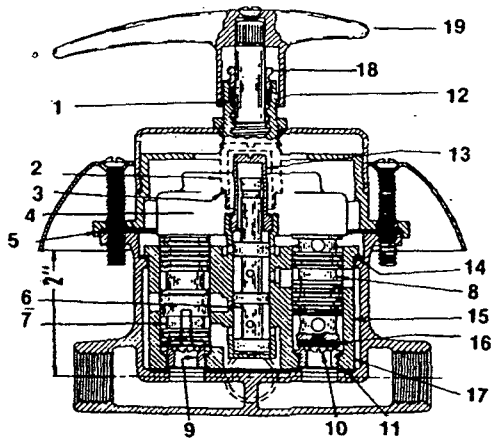
SENTINEL BALANCED PRESSURE SHOWER MIXING VALVE

WITH RENEWABLE SEATS

S-1735 MODEL 1960

1/2" I.P.S. VALVE

Parts for S-1725 Exposed Valve are the same as for the S-1735 Concealed Valve.



SP-4 REBUILDING KIT PARTS ARE ALSO USED ON 1953 & 1957 MODELS OF S-1725 AND S-1735 VALVES.

The 1957 Model also uses all the other parts listed EXCEPT that it requires different "H" and "C" Stems, prices of which will be furnished on request.

For all other repairs on 1953 Model, use Item 17.

REPLACEMENT BLADE HANDLES

SEXAUER SURE-GRIP BLADE HANDLES

Hospitals, Nursing Homes, Clinics, etc., throughout the Country today are required by State and Federal Governmental Agencies (OSHA) to have faucets (Valves) equipped with handles that can be operated without the use of hands, in areas where they are used by Hospital Personnel. Where present valves do not meet these specifications HANDLES must be REMOVED and REPLACED immediately.

The SEXAUER BLADE HANDLE is the most economical and efficient answer to this problem. It utilizes the same brass inserts and has the same flexibility and adaptability as our famous Sure-Grip Handle Family, depicted in Section 2.

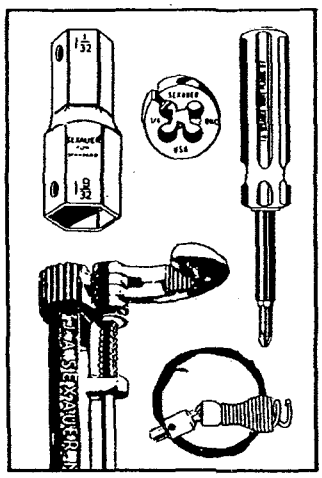
Sexauer Plumbing Repair Products Let You

FIX IT . . . AND FORGET IT!



•Tools

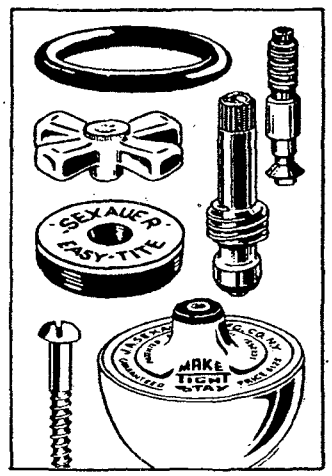
Top quality Sexauer Tools help make tough jobs easier. A complete line of over 250 different specialized and general purpose tools are available. Many are specially designed or patented with your requirements in mind.

•Kits And Assortments

Sexauer sorts it all out! Handy Andy repair assortments and Rebuilding Kits for specific-model fittings put the right parts at your fingertips and help you achieve effective, fast repairs. Designed by professionals. . .for use by professionals.

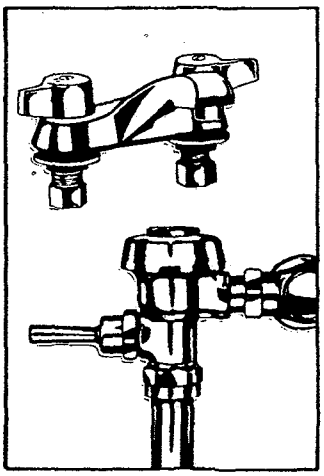
•Chemicals And Compounds

Our heavy duty industrial strength compounds and cleaners *perform.* From our super-tough drain cleaners, to our pipe-joint and sealing compounds, they all do the job they're supposed to. . .with no guesswork.



•Specific Repair Parts

With thousands of different, individual repair products and all inventory of millions, we probably have just about anything you'll ever need for effective plumbing & heating repairs. And the Sexauer name assures you that these parts will fit properly. . .and last.



•Complete Faucets & Valves

We carry a complete line of faucets and valves for residential and institutional applications. And with brand names like Sloan, Delany, Valley and, of course, our own, you know that the fitting you're getting is the best.

•Service

We wouldn't offer a complete line of plumbing repair products without giving you all the necessary service, too. Professionally trained Sexauer representatives are there to help you achieve the best possible repairs with fewer problems. Got a problem? Need service fast? Call us on our toll free Wats Lines:
Nationwide - 800-431-1872
N.Y. State - 800-742-1785

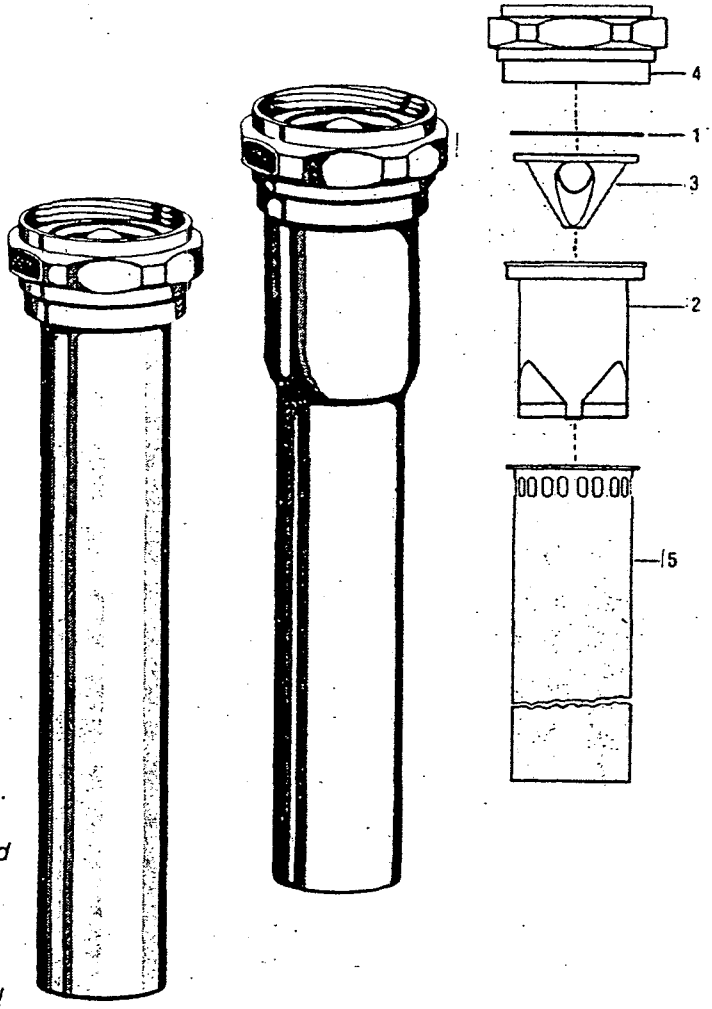
SEXAUER VACUUM BREAKERS
FOR COYNE DELANY, SLOAN, SPEAKMAN & WATROUS FLUSH VALVES

The Sexauer *Universal* Vacuum Breakers for closets with 1-1/2" top spuds or urinals with 1-1/4" top spuds feature top quality and performance with flexibility as the complete unit and internal mechanism efficiently replace those of Delany, Sloan, Speakman and other pressure flush valves. Rigorously field tested and researched. Packaged individually. Repair kit available.



Check These Features:

- ✓ *Seamless brass tubing and extra heavy coupling nut . . . all triple plated in copper-nickel-chromium for long life.*
- ✓ *Internal mechanism replaces those of Delany, Sloan & Speakman Flush Valves.*
- ✓ *Special-compound sleeve for long life. Rigorously field tested in water. Soft and pliable, yet durable enough for the heaviest usage.*
- ✓ *Eliminate the problems of stocking and locating supply of different O.E.M. Vacuum Breakers. More economical too!*

Includes Items 4,5,6,7,8.

JASBlatt01275

An easy, economical way to help conserve water . . . and money!

THE WATER WARDEN

A unique new watersaving device for Sloan Royal and Coyne Delany Flushboy Flushometers. Actually shortens the flush cycle of these valves, without restricting the water flow. So, you still get the pressure you need, but with only half the amount of water. Made of heavy duty plastic, the WATER WARDEN installs easily into the top of the Flushometer, between the inner cover and the diaphragm. Simple installation instructions included.

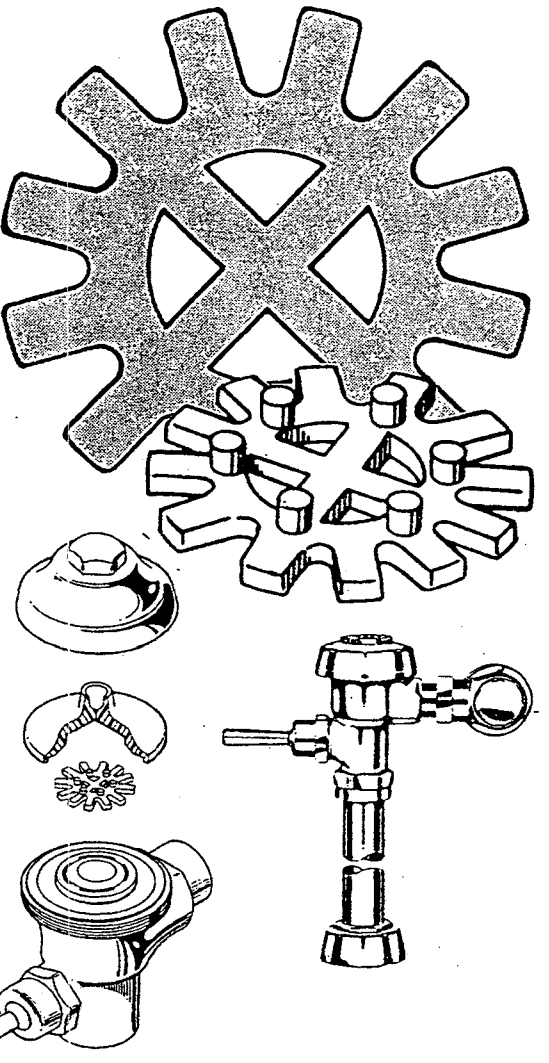
Fully Tested And Proven To Work

Tests conducted using a wide range of valves of different makes, under varying conditions, have shown that the WATER WARDEN reduces the water required per flush by 50%. You'll save approximately 2 gallons per flush on urinals and 3.5 gallons per flush on closet valves.

Installs In Seconds

With only a screwdriver and wrench. The Water Warden can be installed in less than a minute - so there's no interruption in normal toilet facility use during the changeover. Unbreakable, the WATER WARDEN has no moving parts to adjust or replace, assuring a good flush every time.

And for an extra easy installation, we recommend using the special Sexauer Wrench for Sloan Valves.



Cat. No.	Description	Color
083345	Water Warden for Sloan Royal Closets & Urinals	White
083709	Water Warden for Urinals Having 95 PSI (or White) Relief Valves Inside	Blue
085753	Water Warden for Sloan Valves used on Blow-out Urinals	Red

SEXAUER WRENCH FOR SLOAN VALVE REPAIRS

Special design wrench accurately fits Sloan Royal A-4 and A-72 covers and Sloan A-6 handle coupling nuts. A handy tool for Sloan valve maintenance.

WATER WARDEN INSTALLATION INSTRUCTIONS

1. Turn off water supply at control stop.
2. Flush fixture to be sure water supply is completely shut off.
3. Remove outer cover
4. Remove inner cover.
5. Inspect rubber diaphragm for deterioration, cracks, splits, etc.. Replace if necessary.
6. After inspection of rubber diaphragm, place the "Water Warden" directly over the center of the plastic relief valve.
7. Be sure the "Water Warden" is centered over the plastic relief valve.
8. Replace inner cover making sure of a good seal with the rubber diaphragm.
9. Replace outer cover and tighten with wrench.
10. Turn on water supply at control stop.
11. Flush the fixture and adjust the water supply at control stop to the full open position.

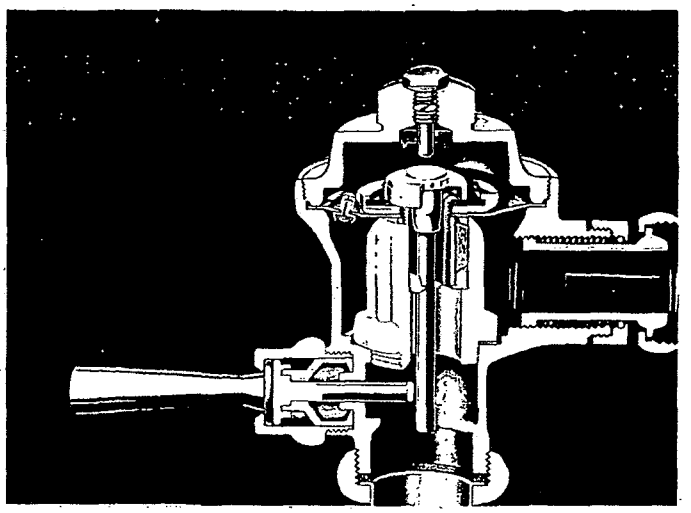
NOW AVAILABLE FROM SEXAUER! COMPLETE COYNE & DELANY *FLUSHBOY* FLUSH VALVES



The *FLUSHBOY* Flush Valve -

The finest flushing device yet produced. A master-valve with sweeping, distinctive lines to harmonize with any plumbing fixture.

The *FLUSHBOY* is the premium valve series in the Delany line. Diaphragm type and precision manufactured, it is inevitably found in most exacting specifications.

Proven design insures a consistent flush and ample refill with all makes of fixtures at recommended fixture pressures ranging from 10 to 100 psi. An exceptionally large waterway allows maximum discharge even under lower-than-desirable pressure conditions.

The Sexauer Delany *FLUSHBOY* Line is available in gleaming chrome for exposed installations.

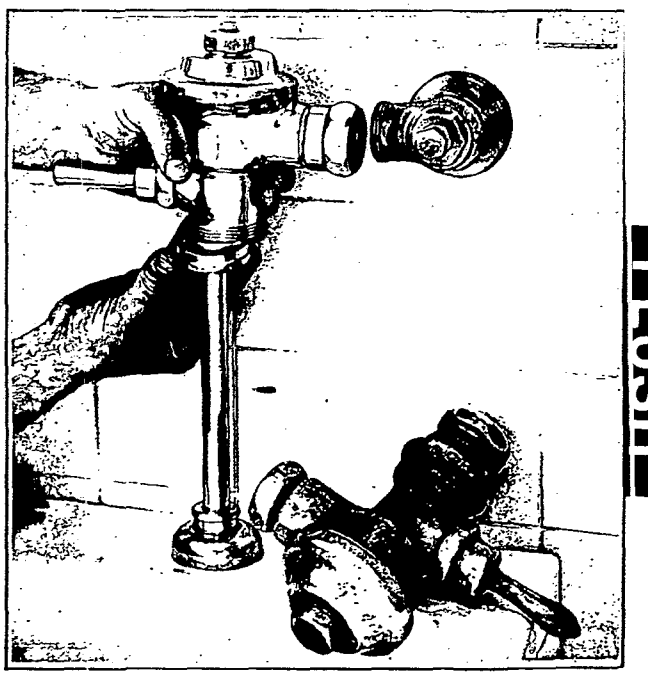
Special Delany Feature Makes Replacing Old Valves Easier

Start replacing with Delany without stopping, no matter whose stop is on the line.

Because with Delany you need only to replace the flush valve, not the stop. Without draining risers. Without the possible problem of replacing old nipples through the wall. Without having a line of fixtures down for hours at a time.

Their secret? Because they still make their valves with a union connection between valve and stop. The same union they and all other valve makers supplied since the beginning of time.

FOR VALVE MODELS SEE NEXT PAGE



DELANY

COMPLETE FLUSH VALVES

CLOSET VALVE EXPOSED TYPE

Polished chrome flush valve, externally adjustable, diaphragm type, with 1" screwdriver angle stop, metal "Rubberflex" oscillating handle, flush connection & coupling for 1½" top spud, wall & spud flanges.

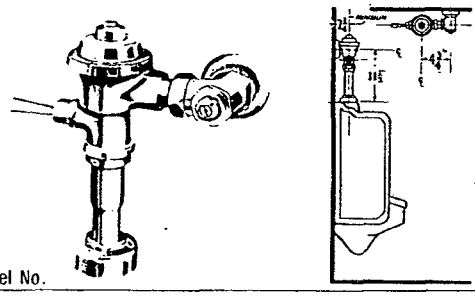
019554	Delany ¾" Urinal Flush Valve	451

MALE URINAL VALVE EXPOSED TYPE

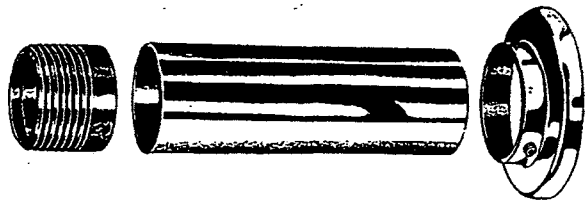
Polished chrome flush valve, externally adjustable, diaphragm type, with 1" screwdriver angle stop, metal "Rubberflex" oscillating handle, flush connection and coupling for 1¼" top spud, wall and spud flanges.



Cat. No.	Description	Model No.
019562	Delany 1" Urinal Flush Valve	452

SWEAT ADAPTOR KIT

For sweat installations of above valves (or other Delany valves). Kit includes cast wall flange with set screw, 4" C.P. covering tube and sweat adaptor bushing. Kits may be particularly useful where the centerline of exposed valves roughs closer than 2¾" to the finished wall. After the copper stub is cut to length, the sweat adaptor is soft soldered to it. The covering tube and flange are slipped over the stub and the IPS inlet stop is screwed on the adaptor bushing. The covering is then brought back to butt against the stop and the set screw secured in place.



Cat. No.	Description	Model No.
019570	Sweat Adaptor Kit for 1" Stops	194K
019588	Sweat Adaptor Kit for ¾" Stops	195K

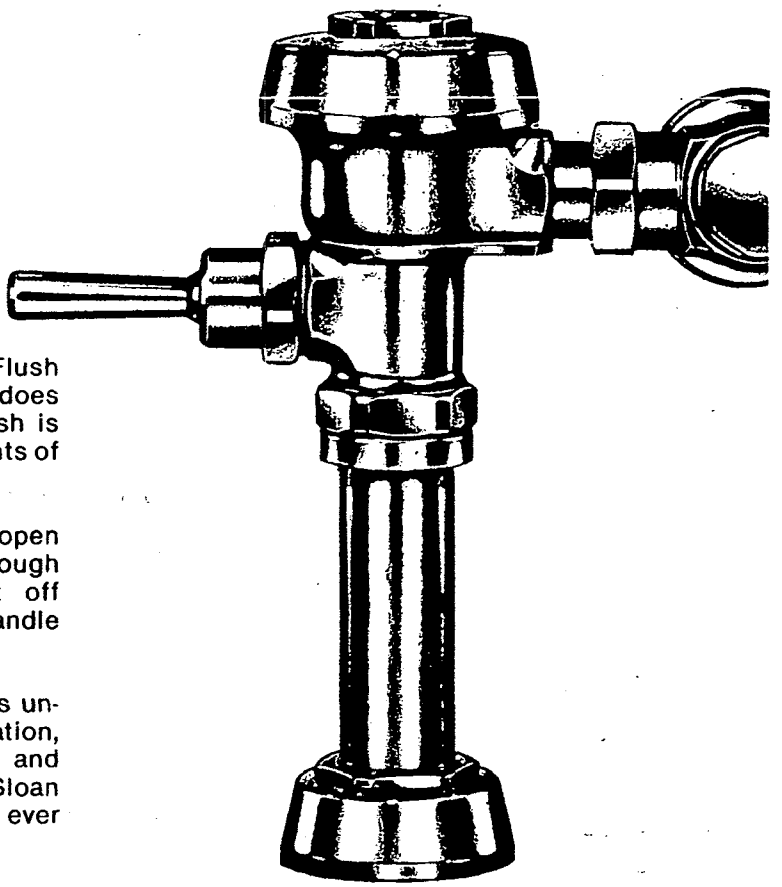
SLOAN
ROYAL QUIET II
FLUSH VALVES



The Sloan ROYAL is a diaphragm type Flush Valve of superior functional design that does not employ a regulating screw. Each flush is accurately metered to meet the requirements of the fixture regardless of line pressure.

The Royal is designed with a non-hold-open feature so that when operated, it will go through its complete flushing cycle and shut off automatically, regardless of whether the handle is held down or released.

Manufactured to exacting tolerances, plus unequalled records of dependable operation, water economy, low maintenance costs and long life all go together to make the Sloan ROYAL the most successful Flush Valve ever made.

SLOAN VALVES ARE EXTRA QUIET & HAVE SPECIAL *BAK-CHEK* FEATURE

Sloan *Royal Quiet II* Valves quieting features are applied at the two vital points where water is restricted to control operation:
1. The flush valve main seat and
2. The control stop

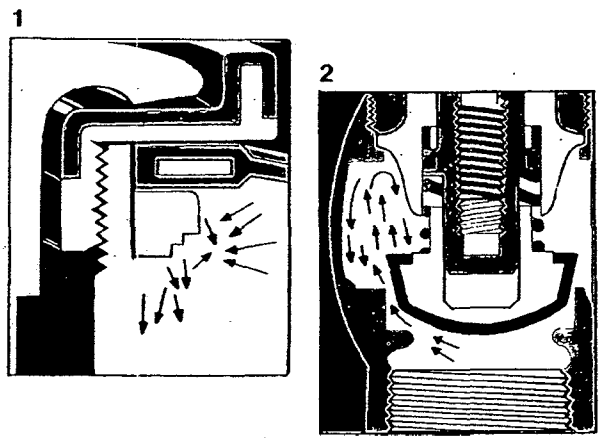
Permanently efficient and without screening the water, Sloan flush valves maintain quiet action and when used in conjunction with a quiet bowl, permit the fixture to operate at a practically inaudible level.

A quiet control stop is essential to the overall quiet operation of the flush valve. Sloan engineers have introduced an entirely new design in the quiet control stop which not only offers a new dimension in quietness, but serves as a "back check" to store water at normal line pressure in the control stop and in the flush valve after each operation.

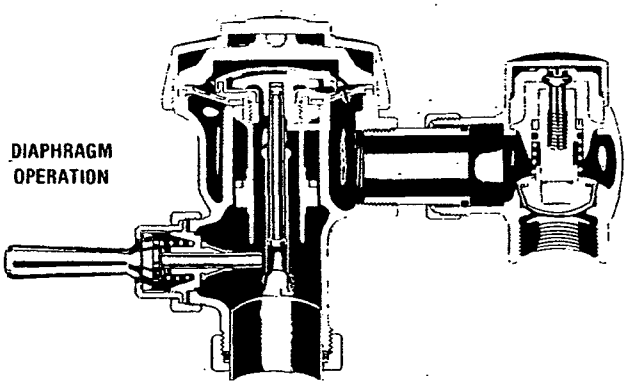
This feature prevents false operation of the valve when pressure in the supply line is lost and then restored. When such action occurs, flush valves could flush spontaneously or run continuously.

With BAK-CHEK, water cannot be syphoned from the fixture giving the user quiet and positive protection against back syphonage.

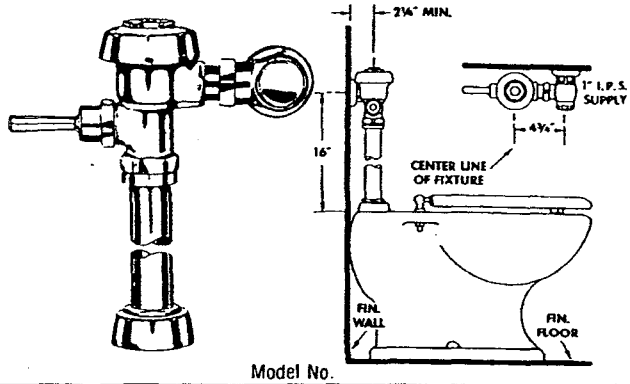
FOR VALVE MODELS SEE NEXT PAGE



BAK-CHEK



DIAPHRAGM OPERATION



CLOSET FLUSH VALVE

Quiet Exposed Closet Flush Valve, Chrome Plated, metal oscillating non-hold-open handle, 1-inch I.P.S. screw driver Bak-Chek angle stop with protective cap, adjustable tailpiece, and spud coupling for 1½-inch top spud, wall and spud flanges. Available with or without Vacuum Breaker.

Cat. No.	Description	Model No.

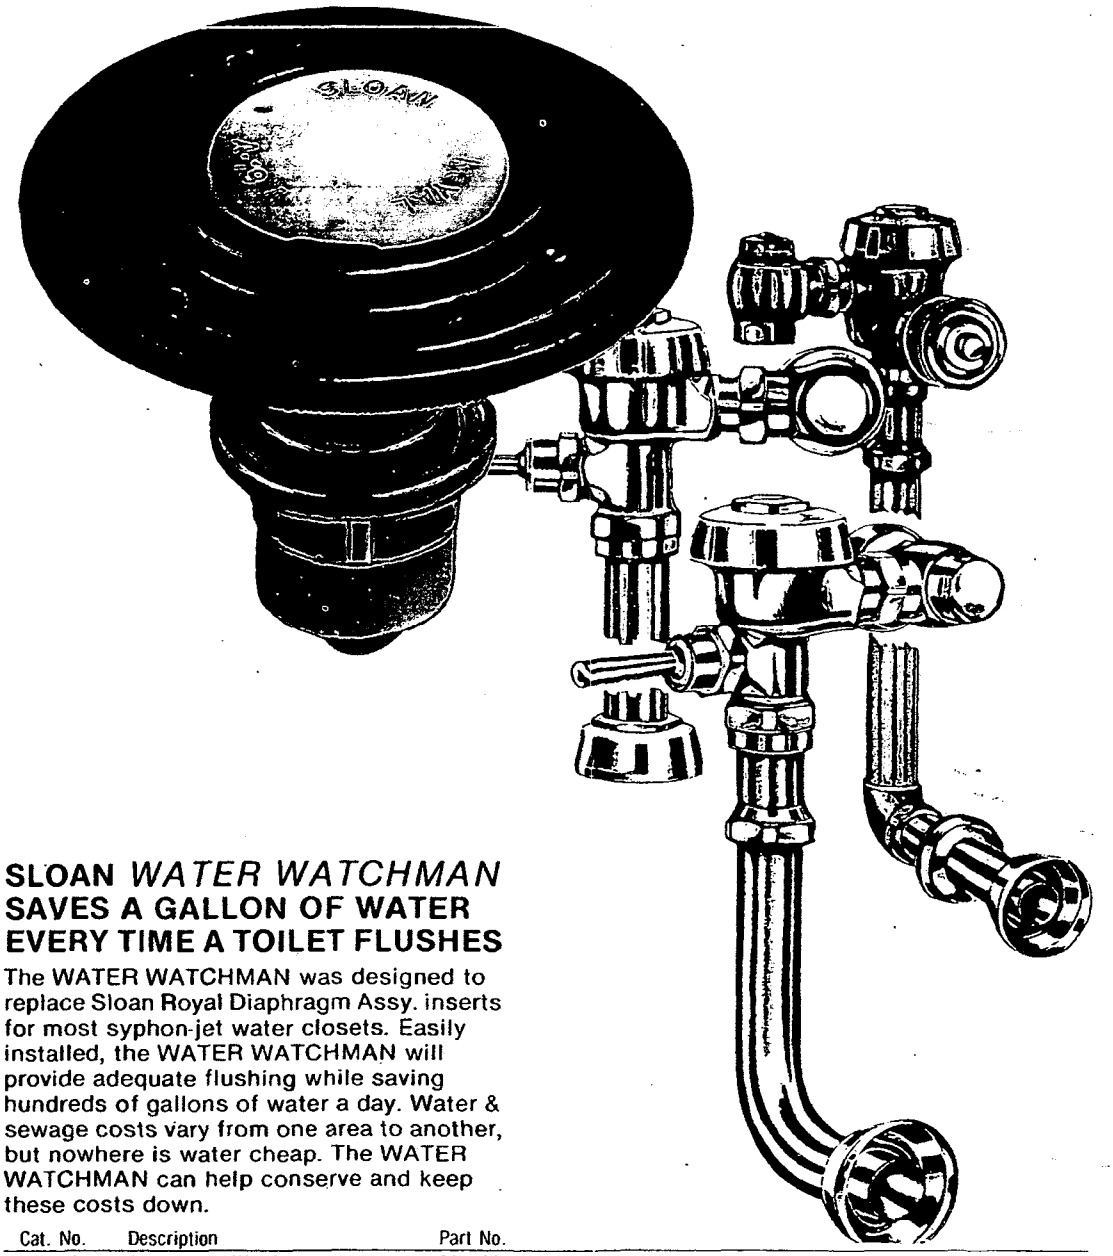
SPECIAL SLOAN REPAIR PRODUCTS



SLOAN *WATER WATCHMAN* SAVES A GALLON OF WATER EVERY TIME A TOILET FLUSHES

The WATER WATCHMAN was designed to replace Sloan Royal Diaphragm Assy. inserts for most syphon-jet water closets. Easily installed, the WATER WATCHMAN will provide adequate flushing while saving hundreds of gallons of water a day. Water & sewage costs vary from one area to another, but nowhere is water cheap. The WATER WATCHMAN can help conserve and keep these costs down.

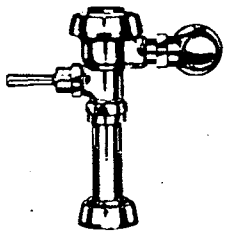
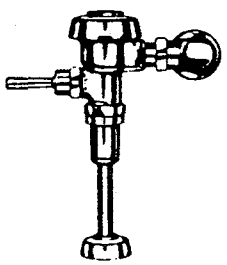
SLOAN

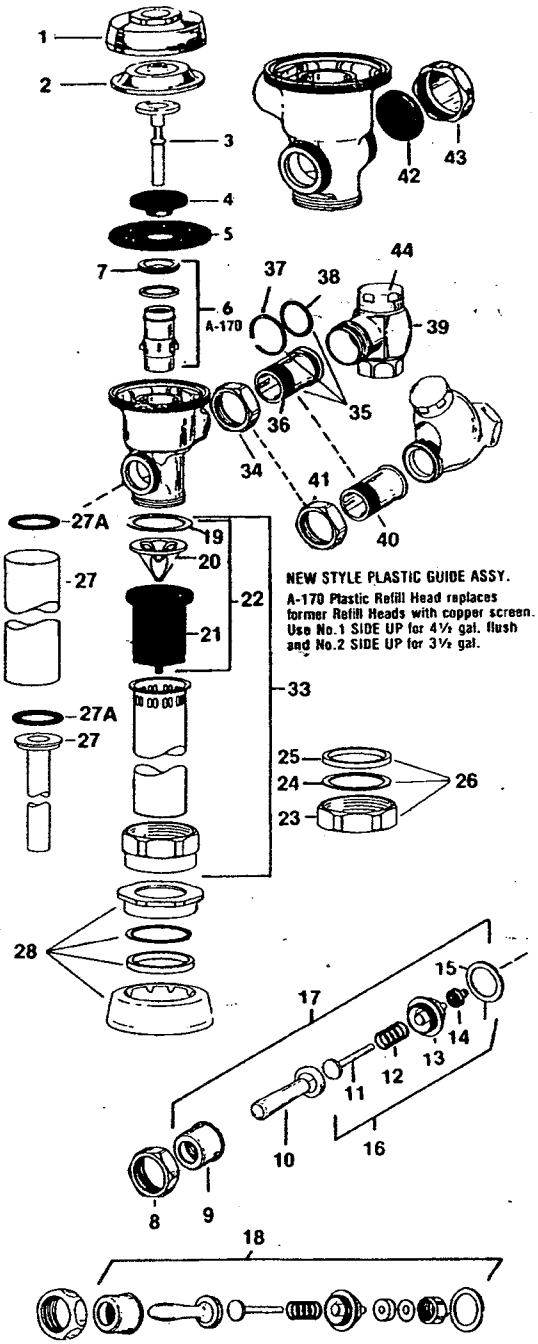
ROYAL & ROYAL QUIET-FLUSH II FLUSH VALVES



CLOSET



URINAL



NEW STYLE PLASTIC GUIDE ASSY.
A-170 Plastic Refill Head replaces former Refill Heads with copper screen. Use No.1 SIDE UP for 4½ gal. flush and No.2 SIDE UP for 3½ gal.

IMPORTANT INFO. FOR INSTALLING DIAPHRAGMS & GUIDES
"New" Royal Guides (metal or plastic) have a Refill Head at the top. Use of these Guides requires discarding the Copper Gasket that comes with all A-56-A and A-156-A Diaphragms. Top of Guide will then slip up into Diaphragm.

If an A-56-A Diaphragm is used, it is also necessary to remove the Flow Ring from the bottom of the Guide.

REBUILDING KIT.....Cat. No. 092387 SL-2
For Quiet II Flush Valves with old style handles.
Includes 1 each Items (4) A-15-A, (5) A-56-A, (15) A-31, 1 090373 Leather Packing & 1 090399 BR-4 Brass Wa.

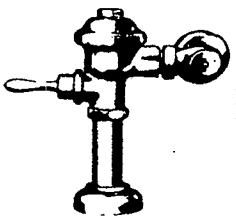
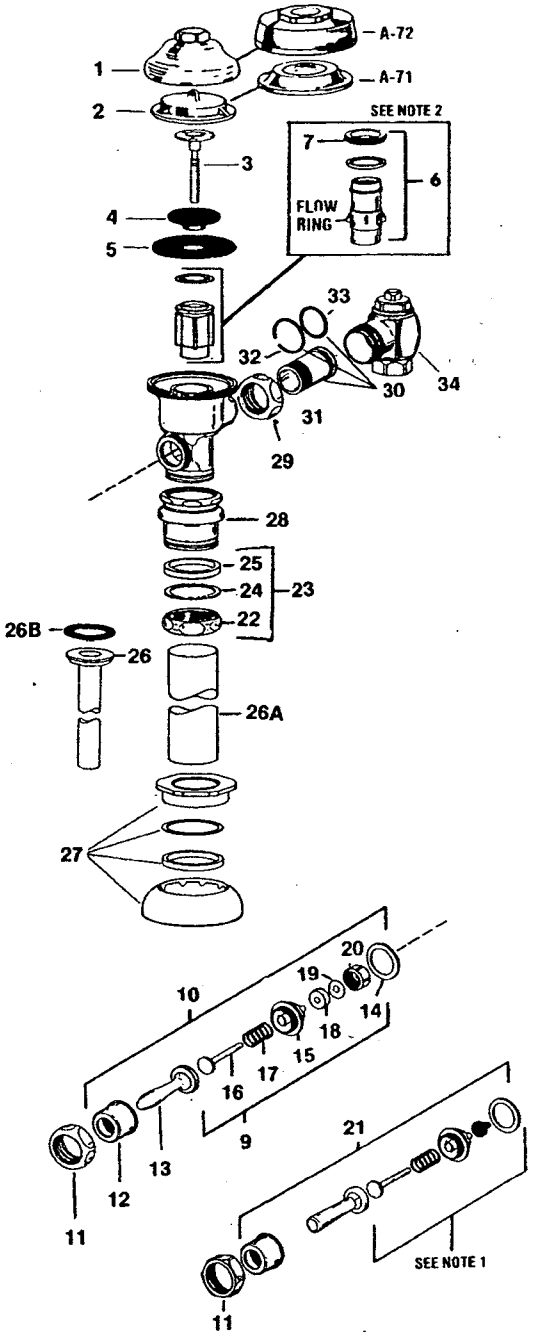
SLOAN

ROYAL FLUSH VALVE "OLD STYLE"

BEFORE 1972



In 1972 Sloan Valve Co. made a design change on its Royal and Royal Quiet Flush Valves. They updated the external appearance of the valves by changing the Outside Cover. However, when the New A-72 Outside Cover is used it requires the use of the New A-71 Inside Cover.



VALVE

Item	Cat. No.	O.E.M.	Description
1		A-4	Cover, Disc., use new style A-72

FOR VALVES WITH "OLD STYLE" HANDLE REBUILDING KIT.....Cat. No. 092379 SL-1
Includes Items 4,5,14,18,19.

FOR "NEW STYLE" FLUSH VALVE REBUILDING KIT.....Cat. No. 092532 SL-18
Includes Items 4,5,14,15,16,17,18,19,20.

"Old Style" Royal Valves have a smaller outlet with fine threads which require parts marked with star (*).

NOTE 1: HANDLE CONVERSION
"Old Style" Handle Assy. is readily converted to a "New Style" - by ordering B-50-A (SL-10 Rebuilding Kit).

NOTE 2: IMPORTANT INFO. FOR INSTALLING DIAPHRAGMS & GUIDES
Royal Valves now use a new A-163-A Plastic Guide Assy. (with Plastic Refill Head & Flow Ring) in place of former Metal Guides, either A-13-A (no Refill Head) or A-113-A (with Metal Refill Head & Flow Ring) - both now discontinued. Using any Guide with a Refill Head requires discarding the Copper Gasket that comes with each A-56-A or A-156-A Royal Diaphragm. Top of Guide will then slip up into the Diaphragm and center it.

If an A-56-A Diaphragm is used, it is also necessary to remove the Flow Ring from the bottom of the Guide.

NOTE 3: A-170 Plastic Refill Head replaces former Refill Heads with Copper Screen. Use No.1 Side Up for 4½ gal. flush and No.2 Side Up for 3½ gal. See Items 6 & 7.

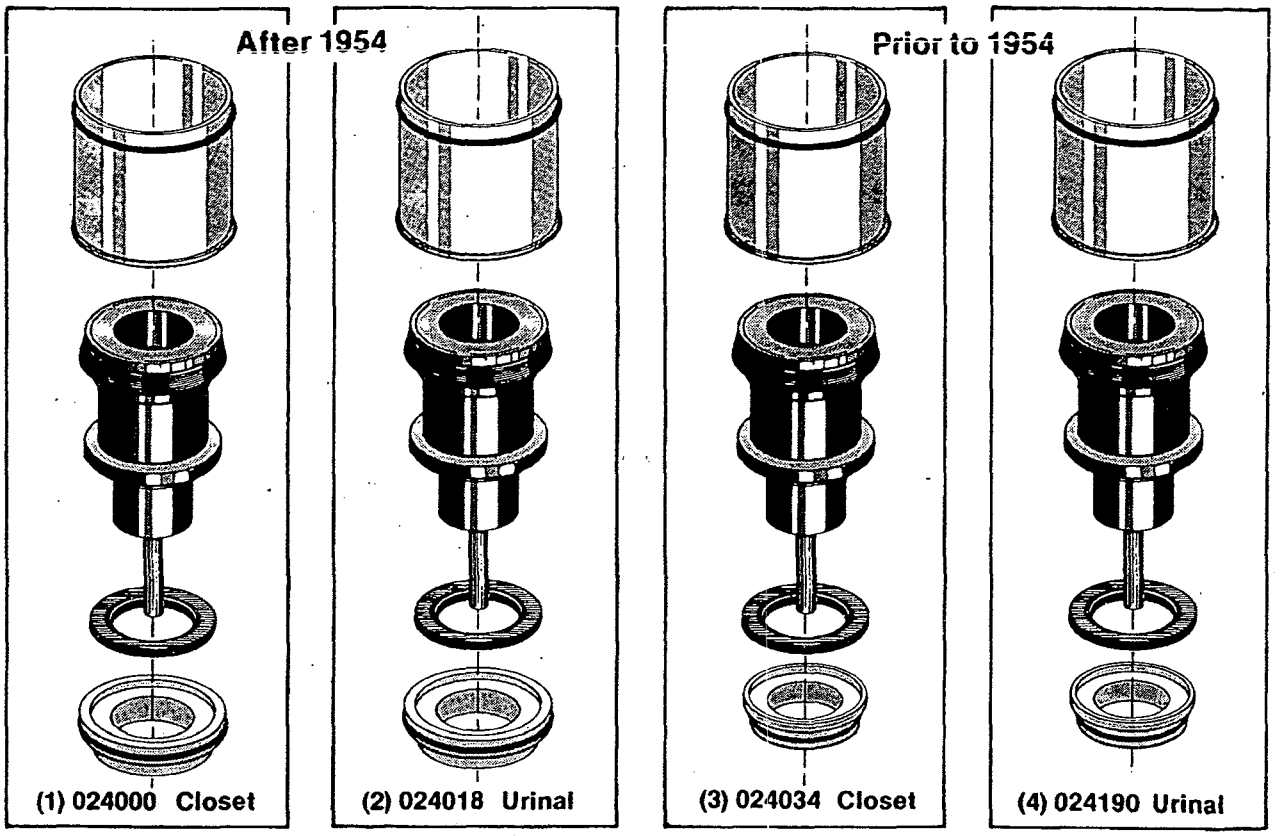
SEXAUER®

JASBlatt01307



SEXAUER FLUSH VALVE PISTON CONVERSION KITS

FOR SPEAKMAN FLUSH VALVES

Contain all the parts necessary to make effective long lasting flush valve repairs **without having to use the Speakman Piston Unit.** Kits are available for all Speakman Flush Valve models: Diamond and Si-Flo, both new style (mfg. after 1954) *and* old style (mfg. before 1954). In fact, troublesome old style valves (without renewable seat) are made almost as good as new; virtually eliminating the need to replace the entire unit.

Installation of the Conversion Kit is fast and economical. You can install the kit by turning the water off at the valve. . . *.not at the main.* Also available are repair parts for the replacement piston. . . at a fraction of the cost of a new Speakman piston unit.

Easy to follow instructions are included in each kit. These Conversion Kits are a must for any facility containing Speakman Flush Valves.

	Cat. No.	Description
(1)	024000	Speakman Conversion Kit - Closet - after 1954
(2)	024018	Speakman Conversion Kit - Urinal - after 1954
(3)	024034	Speakman Conversion Kit - Closet - prior to 1954
(4)	024190	Speakman Conversion Kit - Urinal - prior to 1954
(5)	038422	G-78 Molded Cup for Piston Unit
(6)	034413	G-83 Relief Valve Seat (1" O.D. x 5/8" I.D. x 1/16")
(7)	090886	G-21 Main Seat (new style)
(8)	090795	G-75AC Closet Valve Piston Assy. (black delrin)
(8)	090803	G-76AU Urinal Valve Piston Assy. (black delrin)

HOW TO USE THIS CATALOG

The Sexauer Catalog has been designed to create a natural progression, from very GENERAL CATAGORIES, to groups of RELATED ITEMS and finally to SPECIFIC ITEMS.

For example, suppose you are looking for a particular kind of Hack Saw Blade to cut through a certain type of material. First, go to the booklet containing TOOLS, then open the booklet to the SAWS & BLADES section. Read down the contents list in the left hand margin until the desired group of items is reached. The specific blade you need will be found opposite this list.

To further aid you, a comprehensive index is located in the back of each booklet.

HOW TO ORDER

Print or type your order using your company's stationery or Purchase Order and include order number, date, your firm's name, address and zip code. If the shipping address differs from the billing address, please indicate this on the order. Specify items by catalog number, quantity, and description of item. Consult the terms and conditions of sales page for specific information regarding freight allowances, terms, etc. For C.O.D. orders please state C.O.D. on your order. When making payment with an order, please attach the check to your order form. Open accounts are subject to approval by our credit department.

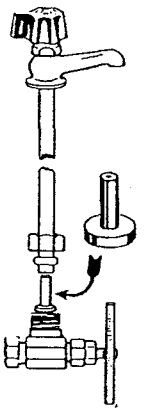
SEXAUER®

FLOW CONTROL DEVICES

SEXAUER FLO-CONTROLS FOR LAVATORIES AND SINKS

Conserve water, fuel and energy. Thoroughly tested and endorsed, Sexauer Flo-Controls are easily installed in the flexible supply where it joins the shut-off valve. Made of non-corroding metal.



Cat. No.	Description	Size	Packaged
032128	Flo-Control	3/8" Flex. Supply	Each
032136	Flo-Control	1/2" Flex. Supply	Each

SEXAUER FLO-CONTROL AERATORS

A result of 3 years of development and testing, these aerators will provide a constant flow of aerated water, regardless of ingoing line pressure, while conserving 60 to 70% of normal water usage. Specially designed internal parts and the use of a pressure compensating device make these aerators the best flow restriction devices available. Tests have shown that they will pay for themselves within 55 minutes of hot water running time, based on average cost of heating the water. Packaged individually.

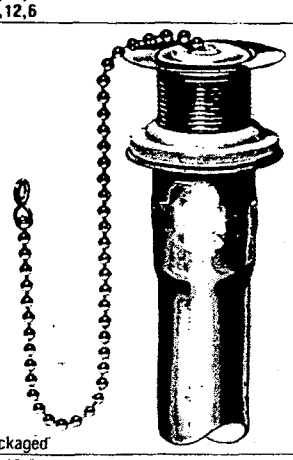
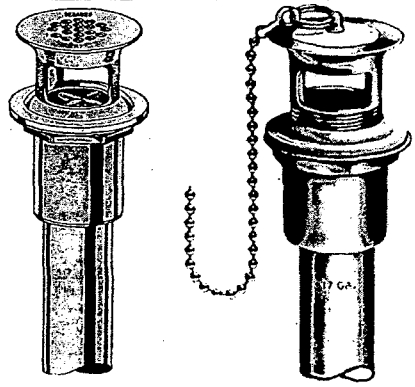
062786	P.O. Plug	1-1/4" x 10"	24,12,6



CHROME PLATED C.O. (CONTINUOUS OUTLET) PLUG

Designed for fixtures without a "built-in" overflow, spud has full length thread and no overflow opening, Plug, with 22 gauge tubing, comes complete with solid white stopper, 11' C.P. Beaded Chain, C.P. Chain Coupling and Basin Gasket. Individually boxed.

Cat. No.	Description	Size	Packaged
012021	C.O. Plug	1-1/4" x 5"	24,12,6



SEXAUER CHROME PLATED, CAST BRASS P.O. PLUGS

Either strainer or stopper types available. Plugs have a heavy, cast brass body and a 17 gauge tailpiece.

The one-piece strainer type plug lets water run through at all times and thus keeps basin in a cleaner condition. Highly recommended for heavy usage applications.

The stopper type plugs come complete with a solid white stopper, 11" C.P. Beaded Chain, C.P. Coupling, and Gasket.

All spuds have 2-3/4" threads, sufficiently long for installing on practically any fixture. Individually boxed.

Cat. No.	Description	Size	Packaged
076455	No.2 P.O. Plug, Cast Brass w/Strainer	1-1/4" x 8"	Each
062794	No.1 P.O. Plug, Cast Brass w/Stopper	1-1/4" x 6"	Each

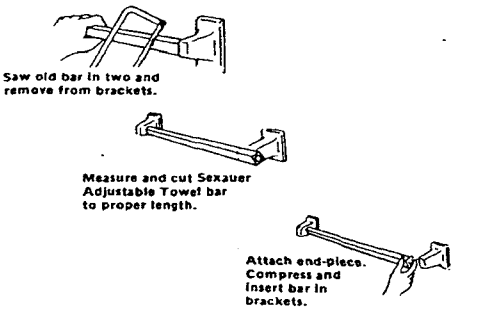
Connections for basins. Available in 3/8" O.D. size. For hot or cold water. Includes compression rings.

Cat. No.	Description	Size	Packaged
094995	CONQUEST Basin Supply Tube	3/8" O.D. x 12"	Pair
095000	CONQUEST Basin Supply Tube	3/8" O. x 20"	Pair
095018	CONQUEST Basin Supply Tube	3/8" O.D. x 30"	Pair

SEXAUER ADJUSTABLE "SPRING ACTION" TOWEL BARS

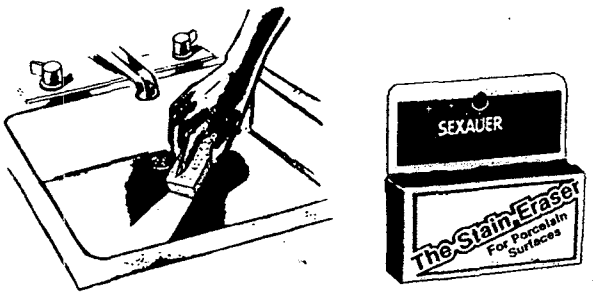
Will replace chipped, discolored or broken towel bars in minutes, without having to remove the ceramic holding brackets from the tile. The Sexauer "*Spring Action*" towel bar snaps in place with the touch of a finger. Towel bar is available in 24" & 36" lengths and can be easily cut to any other length. Spring-loaded end-caps hold the bar securely in place in any standard ceramic or metal bracket. Made of high-impact, heavy-gauge polystyrene that is not affected by moisture, mildew, corrosion or discoloration.



Cat. No.	Description	Length	Color
019612	Towel Bar	24"	Clear
019901	Towel Bar	24"	White
019620	Towel Bar	36"	Clear

"MULE-KICK" STAIN ERASER

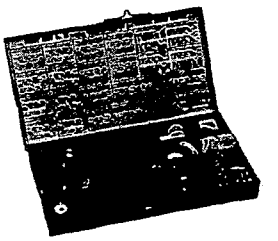
Made of specially refined pumice, it will not mar delicate surfaces. For tile, basins & other china or iron-enamel surfaces. Removes even the most stubborn stains. Individually boxed.



Cat. No.	Description	Weight	Packaged/Individually
077255	Mule-Kick Stain Eraser	2 lbs.	12 Per Carton

SEXAUER "HANDY ANDY" ASSORTMENT FOR GENERAL FAUCET REPAIRS

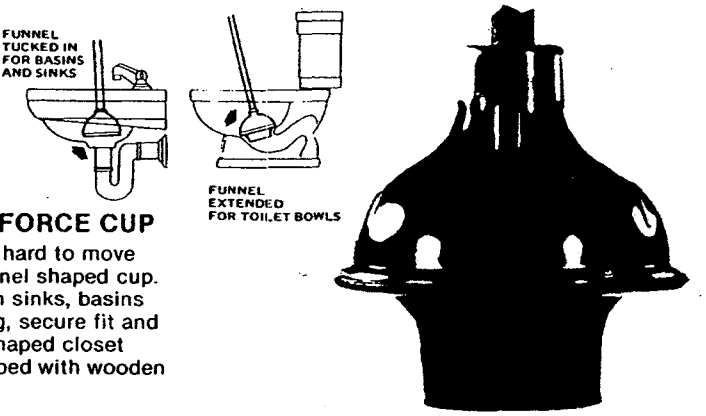
Contains 572 pieces of beveled & flat "Easy-tite"® washers, self-locking screws, washer retainers, gaskets, friction rings, and 2 screw taps. Everything needed for general faucet maintenance. Complete with sturdy, compartmented metal box with easy reference parts chart.



Cat. No.	Description	Packaged
050500	Handy Andy No.1A	Each

SEXAUER DUAL-THRUST FORCE CUP

"Super-Charger" action removes hard to move stoppage with large capacity funnel shaped cup. Funnel can be retracted to use in sinks, basins and tubs. Funnel provides a snug, secure fit and ease in handling in even oddly shaped closet bowls. Made of rubber and equipped with wooden handle.



Cat. No.	Description
039214	Dual-Thrust Force Cup w/Handle

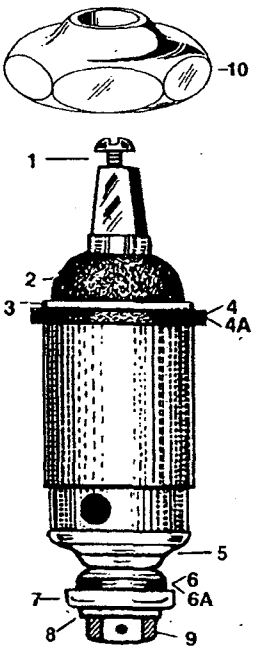
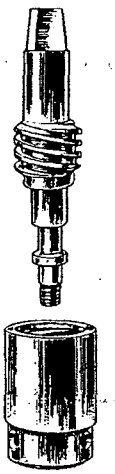
CHICAGO "QUATURN" FAUCET PARTS

HOW TO ORDER "QUATURN" STEMS, ASSEMBLIES & RENEWAL SLEEVES

On all "Quaturn" fixtures, only "cold" faucets with a lever handle or a blade handle require right hand thread parts. All other faucets (either "hot" or "cold") need left hand thread parts. Orders should therefore specify them as left hand thread or right hand thread - not "hot" or "cold", to insure receiving the type required.





Item No.	Cat. No.	Description
1	070714	No.56 Handle Screw
2	050831	No.31 Teflon Packing
3	063883	BR-43 Brass Washer
4	053389	Cork & Rubber Gasket
4A	079244	AS-12 Asbestos Washer
5	053439	Monel Renewal Seat
6	053397	Hard Seat Washer
6A	053744	Semi-Hard Seat Washer
7	053447	Monel Washer Retainer
8	053405	Monel Stem Nut Washer
9	053454	"Self-Lock" Monel Nut
10	073205	CH-1 Bonnet Nut
REBUILDING KIT . . . Cat. No. 053363 CH-1 Includes shaded items.		

"QUATURN" ASSEMBLIES

INCLUDES APPLICABLE STEMS SLEEVES & ALL OTHER PARTS

053462 CH-1L L.H.Th. Assembly, 2-5/8" Short Stem
053470 CH-1R R.H.Th. Assembly, 2-5/8" Short Stem

053488 CH-2L L.H.Th. Assembly, 3-5/16" Long Stem
053496 CH-2R R.H.Th. Assembly, 3-5/16" Long Stem

RENEWAL STEMS

STEM END IS "MONEL"

053520 CH-1L L.H.Th. Stem, 2-5/8" Short Stem
053538 CH-1R R.H.Th. Stem, 2-5/8" Short Stem

053546 CH-2L L.H.Th. Stem, 3-5/16" Long Stem
053553 CH-2R R.H.Th. Stem, 3-5/16" Long Stem

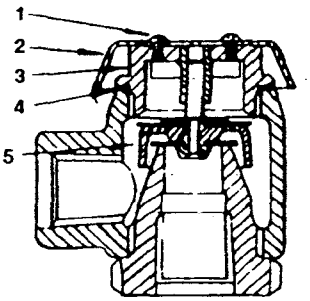
RENEWAL SLEEVES

FOR SHORT OR LONG STEMS

053504 CH-1L L.H.Th. Sleeve
053512 CH-1R R.H.Th. Sleeve

FOR CHICAGO HANDLES SEE SECTION ONE

CHICAGO VACUUM BREAKER PARTS NO.892 (1/2") & NO.893 (3/8")



Item No.	Cat. No.	Description
1	070417	Cover Screw (2 Required)
2	070425	Chrome Plated Cover
3	070433	Seat Assembly
4	070441	AS-23 Asbestos Washer
5	070458	Valve Assembly

These Vacuum Breakers prevent pollution of water supply through back syphonage caused by a sudden drop of pressure.

CHICAGO CLO-SELF & NAIAD FAUCETS

HOW TO USE THIS CATALOG

The Sexauer Catalog has been designed to create a natural progression, from very GENERAL CATAGORIES, to groups of RELATED ITEMS and finally to SPECIFIC ITEMS.

For example, suppose you are looking for a particular kind of Hack Saw Blade to cut through a certain type of material. First, go to the booklet containing TOOLS, then open the booklet to the SAWS & BLADES section. Read down the contents list in the left hand margin until the desired group of items is reached. The specific blade you need will be found opposite this list.

To further aid you, a comprehensive index is located in the back of each booklet.

HOW TO ORDER

Print or type your order using your company's stationery or Purchase Order and include order number, date, your firm's name, address and zip code. If the shipping address differs from the billing address, please indicate this on the order. Specify items by catalog number, quantity, and description of item. Consult the terms and conditions of sales page for specific information regarding freight allowances, terms, etc. For C.O.D. orders please state C.O.D. on your order. When making payment with an order, please attach the check to your order form. Open accounts are subject to approval by our credit department.

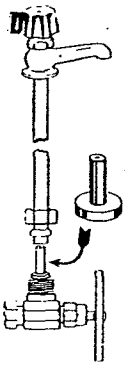
SEXAUER

FLOW CONTROL DEVICE



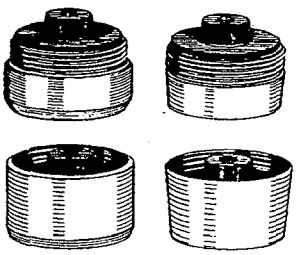
SEXAUER FLO-CONTROLS FOR LAVATORIES AND SINKS

Conserve water, fuel and energy. Thoroughly tested and endorsed, Sexauer Flo-Controls are easily installed in the flexible supply where it joins the shut-off valve. Made of non-corroding metal.

Cat. No.	Description	Size	Packaged
032128	Flo-Control	3/8" Flex. Supply	Each
032136	Flo-Control	1/2" Flex. Supply	Each

SEXAUER FLO-CONTROL AERATORS

A result of 3 years of development and testing, these aerators will provide a constant flow of aerated water, regardless of ingoing line pressure, while conserving 60 to 70% of normal water usage. Specially designed internal parts and the use of a pressure compensating device make these aerators the best flow restriction devices available. Tests have shown that they will pay for themselves within 55 minutes of hot water running time, based on average cost of heating the water. Packaged individually.



FLOW CONTROL AERATORS

Cat. No.	Description	Size/Thread
038117	Flo-Control Aerator	15/16" Male
038125	Flo-Control Aerator	15/16" Female

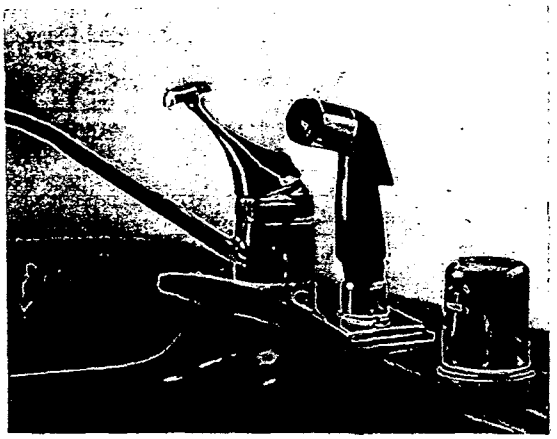
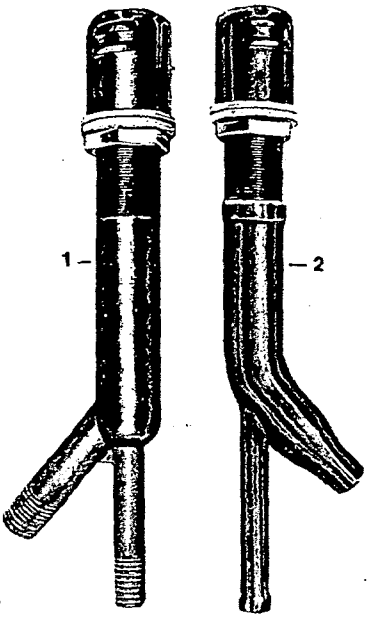
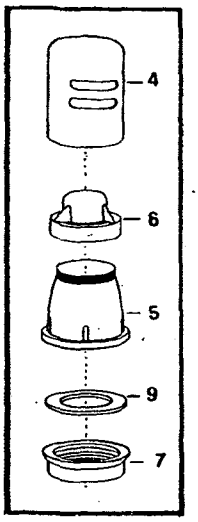
GOT A PROBLEM? YOU CAN DEPEND ON SEXAUER FOR FAST SERVICE

We've built our reputation on fast dependable service.....and getting the right repair parts to you when you need them. Most orders are shipped within 24 hours after being received; or for faster service, call us on our toll free Wats Line (800-431-1872).
For those extra difficult problems, call your local Sexauer representative. He's a plumbing expert.

DISHWASHER DISPOSAL REPAIR PARTS







EASTMAN CENTRAL D

DISHWASHER AIR GAPS & REPAIR PARTS

Prevent waste water from backing up into dishwasher. Air gaps are engineered for fast and easy installation and contain no movable parts for trouble free performance. Available with either a proven-quality copper body or economic plastic body. Both models are approved by all major code authorities.

For a completely efficient job, we also offer an **Air Gap Installation Kit**, containing one 4' length x 5/8" I.D. hose with clamps and one 2' length x 7/8" I.D. hose with clamps. This kit will eliminate looping in tight areas and the need for locating proper size copper tubing. Installation kit will help you get the job done quickly - easily - efficiently.

Air gaps and installation kit are each packaged individually with clear, concise installation instructions. Repair parts available separately.

Key	Cat. No.	Description
1	013045	Air Gap w/Plastic Body (CD-4P)

068007	Miracle Pads	6" x 2" x 1/4"	10 Per Bag

"MULE-KICK" WATERLESS HAND CLEANER

"Mule-Kick" Waterless Hand Cleaner is a hard hitting cleaner with extra muscle to remove soil & grime. A special formulation works wonders in three ways. First, "Mule-Kick" Hand Cleaner contains strong cleaners and pumice to remove ground-in dirt and grease. Secondly, it contains lanolin to condition your skin as it cleans. Thirdly, a germicidal antiseptic additive is included to help heal minor cuts and abrasions. "Mule-Kick" Hand Cleaner is packaged in a plastic container with a spout top that prevents waste and spillage. Best results are achieved by rinsing hands with water after use.

Cat. No.	Description	Packaged	Weight Each/Case
031559	Waterless Hand Cleaner	Case/24 Bottles	1 lb./26 lbs.

SEXAUER SURE-GRIP REPLACEMENT HANDLES

Sure-Grip replacement handles encompass 80 varieties with just six sizes and two styles for basins, sinks and baths. Convenient, portable metal kit, with felt lined compartments. Contains 12 attractively designed canopy handles, handle screws and brass bushing adaptors. Everything to facilitate an efficient and functional replacement of worn-out handles on almost any fixture.

HOW TO USE THIS CATALOG

The Sexauer Catalog has been designed to create a natural progression, from very GENERAL CATAGORIES, to groups of RELATED ITEMS and finally to SPECIFIC ITEMS.

For example, suppose you are looking for a particular kind of Hack Saw Blade to cut through a certain type of material. First, go to the booklet containing TOOLS, then open the booklet to the SAWS & BLADES section. Read down the contents list in the left hand margin until the desired group of items is reached. The specific blade you need will be found opposite this list.

To further aid you, a comprehensive index is located in the back of each booklet.

HOW TO ORDER

Print or type your order using your company's stationery or Purchase Order and include order number, date, your firm's name, address and zip code. If the shipping address differs from the billing address, please indicate this on the order. Specify items by catalog number, quantity, and description of item. Consult the terms and conditions of sales page for specific information regarding freight allowances, terms, etc. For C.O.D. orders please state C.O.D. on your order. When making payment with an order, please attach the check to your order form. Open accounts are subject to approval by our credit department.

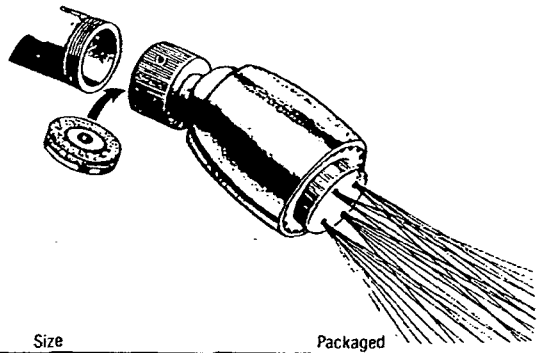
SEXAUER

FLOW-CONTROL DEVICES

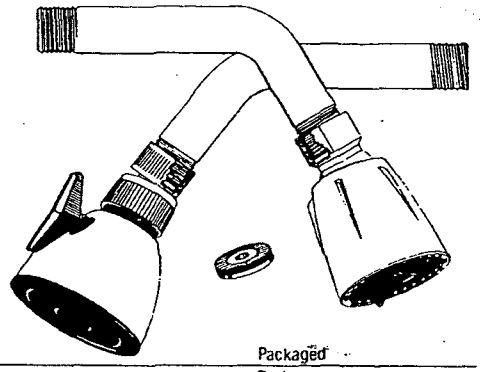
SEXAUER FLO-CONTROLS FOR SHOWERS



Easily installed in coupling nut between shower arm and shower head, Sexauer Flo-Controls conserve water, fuel and energy. They cut the flow of water from 8-10 gallons per minute to 2-4 gallons per minute. Tests have proved that these trouble-free, all brass flow restrictors can cut water usage by up to 50%. Three different sizes are available.

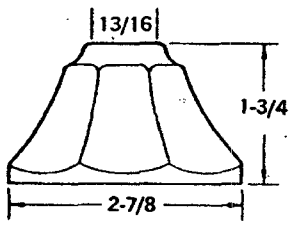
Cat. No.	Description	Size	Packaged
034447	Shower Flo-Control	2 gal. unit/90 lbs. PSI or more	Each
034421	Shower Flo-Control	3 gal. unit/60 to 90 lbs. PSI	Each
034439	Shower Flo-Control	4 gal. unit/60 lbs. PSI or less	Each

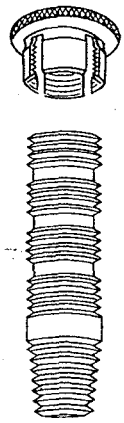
SEXAUER COMPLETE SHOWER HEAD ASSEMBLIES WITH FLO-CONTROLS

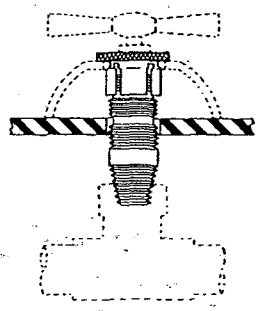


Replacing a worn out or broken shower head will be a cinch since all necessary parts are included for easy installation. Includes 6" x 1/2" I.P.S. Shower Arm, Sexauer Flo-Control and either our No. 089250 or No. 002543 adjustable shower head.

Cat. No.	Description	Packaged
037044	Shower Head Assy. w/Adjustable Spray Shower Head	Each
037051	Shower Head Assy. w/Adjustable All-Plastic Shower Head	Each







SEXAUER "FITS-ALL" ESCUTCHEON, NIPPLE AND NIPPLE HOLDER

Perfect for replacing old style bath escutcheons. Can also be used on some old style sink faucets. Available as complete assembly or as separate parts.

Cat. No.	Description	Packaged
038323	Bath Escutcheon Set (Escutcheon, Nipple & Nipple Holder)	Each

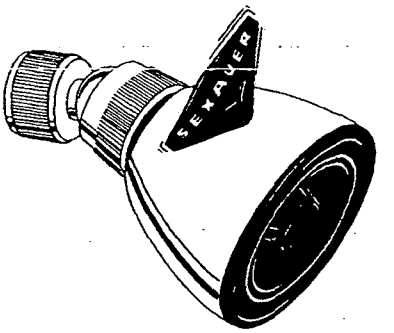
SEXAUER®

SHOWER HEADS

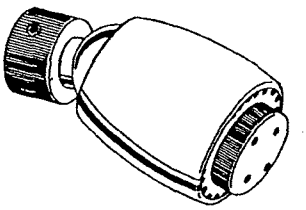
SEXAUER ADJUSTABLE SPRAY SHOWER HEAD



Adjusts from a "flood" spray all the way up to a needle point spray. Delrin "non-liming" interior parts are self-cleaning when spray is full open. Shower head is 2-1/2" in diameter and assembles to a standard 1/2" I.P.S. shower arm. Made of chrome plated, high-strength plastic with C.P. Brass connections.

Cat. No.	Description	Packaged Individually
089250	No.1 Adjustable Spray Shower Head	Each

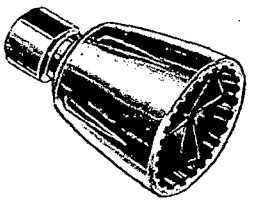
SEXAUER VANDAL-PROOF SHOWER HEAD



Made of heavy chrome plated brass. Shower arm coupling nut has set screw which prevents removal, except with included hex socket wrench. Assembles to standard 1/2" I.P.S. shower arm.

Cat. No.	Description	Packaged Individually
089987	No.2 Vandal-Proof Shower Head w/Wrench	Each

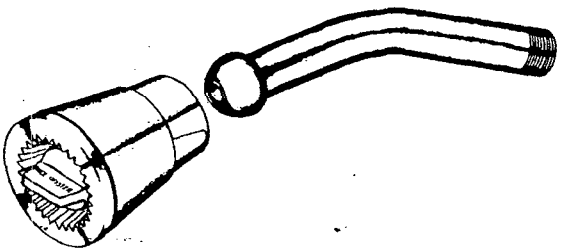
SEXAUER CHROME PLATED ALL-PLASTIC SHOWER HEAD



Made of non-corroding, high strength ABS plastic. Withstands 150 PSI line pressure. Is self-cleaning and fully adjustable, from very fine to coarse spray. Assembles to standard 1/2" I.P.S. shower arm.

Cat. No.	Description	Packaged Individually
002543	No.3 All-Plastic Shower Head	Each

PRICE PFISTER SHOWER HEAD & SPECIAL SHOWER ARM & BALL

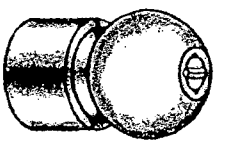


Used with Price Pfister Shower Valves and many other makes. Adjustable, self-cleaning shower head has Delrin internal parts and C.P. metal outside parts. Attaches to any standard size 1-1/32" O.D., Shower Arm Ball. C.P. Brass Shower Arm & Ball available separately only. C.P. Shower Head Nut, included with Shower Head is also available separately.

Cat. No.	Description	Size	Packaged
038349	P.F. Shower Head w/Nut		Each
038562	Shower Arm & Ball	6" x 1/2" I.P.S. w/1-1/32" Ball	Each
038430	Shower Head Nut	1-5/64" I.D. Threads	Each

SHOWER HEAD REPAIRS

REPLACEMENT SHOWER ARM BALL



Fits Price Pfister Shower Head and many others. Attaches to standard 1/2" I.P.S. Shower Arm. Made of C.P. Brass.

Cat. No.	Description	Ball Dia.	Threads	Packaged
038315	Shower Arm Ball	1-1/32"	1/2" I.P.S.	Each

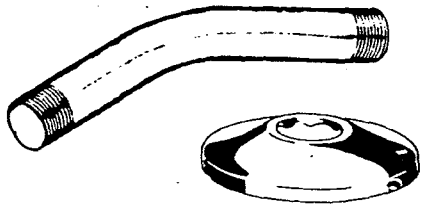
SEXAUER CHROME PLATED BRASS SHOWER ARM

Has standard 1/2" I.P.S. threads on each side and so fits almost any shower head and supply fitting.

Cat. No.	Description	Length	Threads	Packaged
089409	Shower Arm	6"	1/2" I.P.S.	Each

JASBlatt01472

CHROME PLATED PLASTIC SHOWER ARM AND FLANGE



Shower arm and shower arm flange made from ABS plastic that is impervious to water corrosion and deterioration. Durable and tough, they will give as good service as those made from brass.

Cat. No.	Description	Size
013292	C.P. Plastic Shower Arm Flange	2-1/2" O.D. x 26/32" I.D.

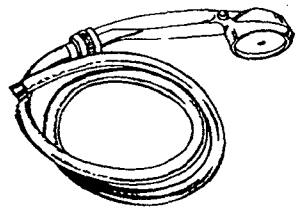
SEXAUER REPLACEMENT HOSES AND HEADS FOR PERSONAL SHOWERS



The best replacement hoses for personal showers available and durable, functional hand held shower heads. Hoses are made from a flexible, non-metallic, clear plastic with a decorative internal chrome inlay. Internal reinforcing coils and cords give the hoses far greater strength than regular metal hoses.

Also available is our reinforced vinyl. Reinfocred with internal webbing, this hose offers quality, with economy. All hoses have standard 1/2" I.P.S. connections at both ends.

Full spray hand held shower heads are made of heavy white plastic and are available with push button volume control or without. Sexauer replacement hoses and shower heads meet rigid standards set forth by plumbing codes nationwide.

Cat. No.	Description	Length	Size
029041	59" Replacement Hose w/Chrome Inlay	59"	1/2" I.P.S.
029058	84" Replacement Hose w/Chrome Inlay	84"	1/2" I.P.S.
029066	59" Reinforced Vinyl Replacement Hose	59"	1/2" I.P.S.

PRODUCT ALERT

3/23/81

Page 6-6B - "Perfect Fit" Tub Drain Assy. Cat. Nos. 001966 & 001974.
Due to the many complaints received concerning these items, we are discontinuing them from our line. The major complaint has been "inferior quality". We still have some customers that insist on purchasing them, so we have decided to retain a supply at 10 Hamilton in our Special Parts Dept. Please send all orders for these to our Special Parts Dept. using Cat. No. 000018. In the description column on the Special Parts Order Form note the Catalog Number, such as 001966 or 001974. The price and commission will remain the same.

I would also like to advise that we **are not** discontinuing the #001982 Tub Overflow Face Plate (blank). This will still be a catalogged item and available from Louisville.

Tony Schiavo

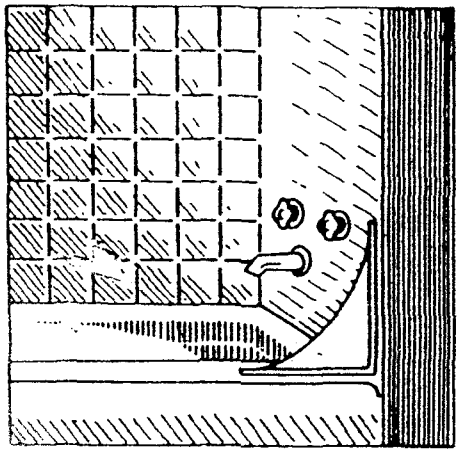
J. A. SEXAUER

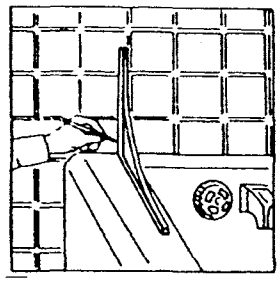
DESCRIPTION	CAT. #	QTY	PRICE
SEXAUER PERFECT FIT SHOWER SPLASH GUARD	** 0-5459-3	1	1.39 EA

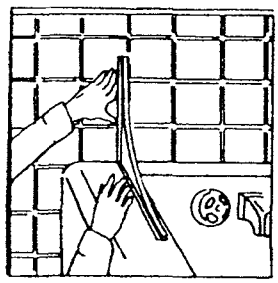
1/9/81

"Perfect Fit" Splash Guard



- Keeps Water Inside Bathtub and Shower Curtain
- Stops Wet Floors and Mop-Ups After Showering
- Protects Walls, Floors and Carpets From Water Damage
- Easily Installed
- Pressure Sensitive Backing
- No Tools Needed





Instructions

1. Thoroughly clean and dry area where "Perfect Fit" Splash Guard is to be applied.

2. Before exposing adhesive backing, place guard in desired position and mark with a pencil. Check surface for excess caulking or interference.

3. Remove paper liner from adhesive. Place Splash Guard in position on penciled marks carefully making contact with wall and top of tub at same time.

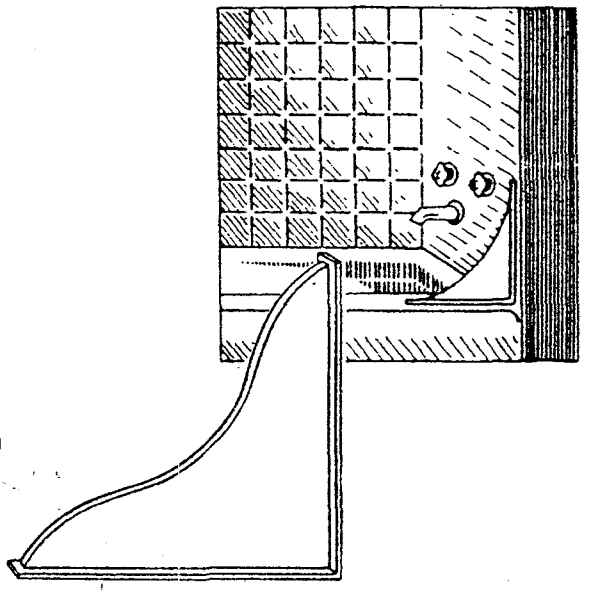
4. Due to irregularities in some tub and wall installations, caulking may be desired.

SEXAUER J.A. Sexauer, Inc. 10 Hamilton Avenue White Plains, N.Y. 10601

JASBlatt01492

SEXAUER "PERFECT FIT" TUB & SHOWER SPLASH GUARD

Keeps water from escaping around ends of shower curtain or bath tubs - stops after shower mop-ups and protects walls and floors. The "Perfect Fit" Splash Guard is a full 7" high, inches larger than other splash guards on the market. Installs in minutes with self-adhesive backing. No tools or hardware needed. Made of white, impact resistant plastic. Packaged individually. Instructions are included.



Cat. No.	Description	Packaged
054593	**"Perfect Fit" Splash Guard**	**Each**

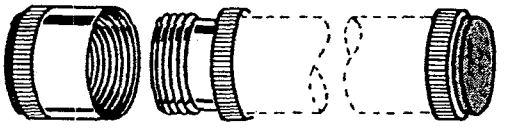
SEXAUER SOCKET WRENCHES FOR KOHLER VALVE REPAIRS

Wrenches designed for repairing various Kohler fittings.

Cat. No.	Description	Purpose
078006	No.3 Kohler Wrench	For "Galaxy" Tub & Shower Valves
056853	No.6 Kohler Wrench	For "Niedecken" Built-In Shower Valves
077974	No.1 Kohler Wrench	15/16" Hex For Kohler And Other Make Valves
080226	No.5 Kohler Wrench	For "Niedecken" Mix. Valve Spindle Bushing
080218	No.7 Kohler Wrench	For "Niedecken" Exposed Shower Mtn. Valves.

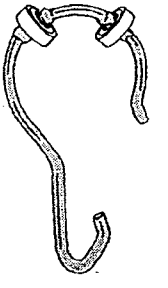
SEXAUER ADJUSTABLE CURTAIN ROD HOLDER



Made of chrome plated brass, this trouble-free durable device insures a secure hold and makes the job of installing curtain rods quick and easy. Simply cut standard 1" rod to desired length to make a snug fit between the wall (including rod holder) and then turn the male thread end counter-clockwise to compress the non-slip rubber ends firmly against the wall. Has many other uses where a hang-rod is necessary.

Cat. No.	Description	Packaged
076612	Adjustable Curtain Rod Holder	Each

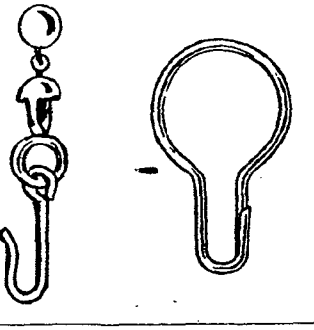
SHOWER CURTAIN REPAIRS



SEXAUER DELUXE ROLLER CURTAIN HOOK

Sturdy nickel plated brass has nylon wheels for smooth, quiet performance.

Cat. No.	Description	Packaged
037572	No.5 Roller Curtain Hook	Each



SEXAUER CHROME PLATED CURTAIN HOOKS

Split ring style hooks for secure hold in either regular or heavy weight styles and beaded chain hooks for special slotted curtain rods that require them.

Cat. No.	Description	Packaged
062315	No.1 Regular Weight Curtain Hook	100,50,25
062323	No.2 Heavy Weight Curtain Hook	100,50,25
076620	No.3 Beaded Chain Curtain Hook	100,50,25

LOGAN

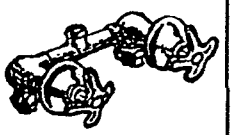
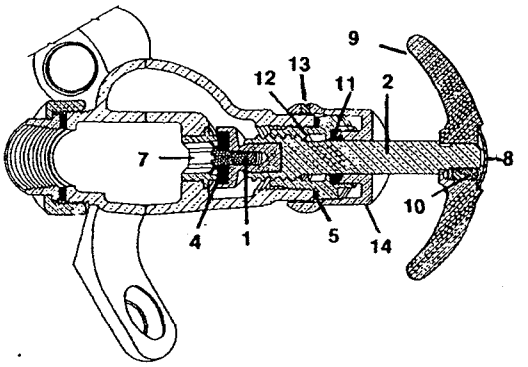
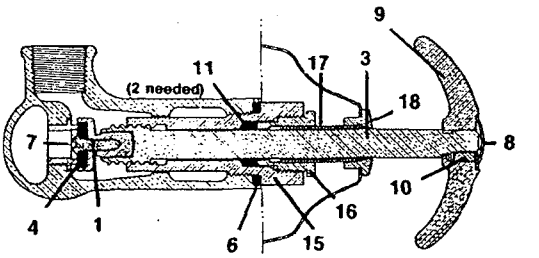
SHOWER VALVE PARTS SERIES 17,18,19







IMPORTANT NOTICE
The handles and stems for these valves do not come "tapped" for installation of the 1/4" x 10-32 Headless Screw (Cat. No. 087361) as shown in the illustrations --- but use of the screw is recommended as it makes the handle VANDAL-PROOF. After driving the serrated handle onto the serrated stem, you merely use a No.21 drill (with either a hand or electric drill) and drill a hole 1/4" deep at any point where the serrations of the handle and stem are mated. Then tap the hole with a 10-32 Bottom Tap so that the screw can be installed before assembling the Welsh Plug ("H" or "C") to the handle.

To remove a Welsh Plug, in order to repair a valve, you have to drill a small hole (3/16") in the plug and use a center punch or other instrument to pry it out of the handle -- which means it has to be "discarded". The Vandal-Proof Screw can then be removed to permit tapping the handle loose from the stem.

If more than one valve is being repaired at the same time, it is "essential" to make sure that each handle goes back onto the same stem from which it was removed -- and that the tapped portions of the handle and stem "match" so that the Vandal-Proof Screw can be properly installed.

REBUILDING KIT....Cat. No. 087536 LO-1
Includes shaded items, 2 each of items 1,4,5 & 4 of item 11.

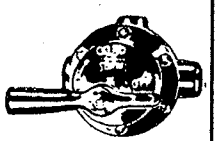
SENTINEL BALANCED PRESSURE SHOWER MIXING VALVE

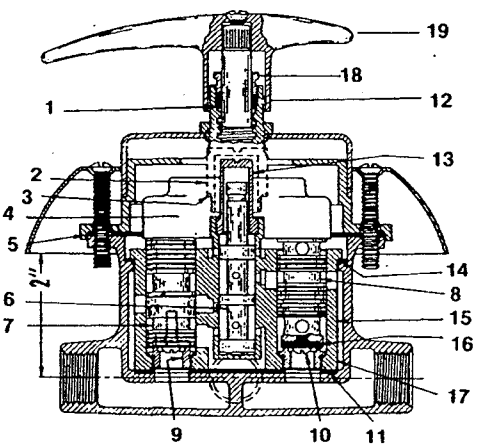
WITH RENEWABLE SEATS

S-1735 MODEL 1960

1/2" I.P.S. VALVE



Parts for S-1725 Exposed Valve are the same as for the S-1735 Concealed Valve.



SP-4 REBUILDING KIT PARTS ARE ALSO USED ON 1953 & 1957 MODELS OF S-1725 AND S-1735 VALVES.

The 1957 Model also uses all the other parts listed EXCEPT that it requires different "H" and "C" Stems, prices of which will be furnished on request.

For all other repairs on 1953 Model, use Item 17.

Item No.	Cat. No.	Description
1	063768	BR-23 Brass Washer

GLOSSARY AND HELPFUL TIPS ON CLOSET MAINTENANCE

TOILET BOWL REPAIRS

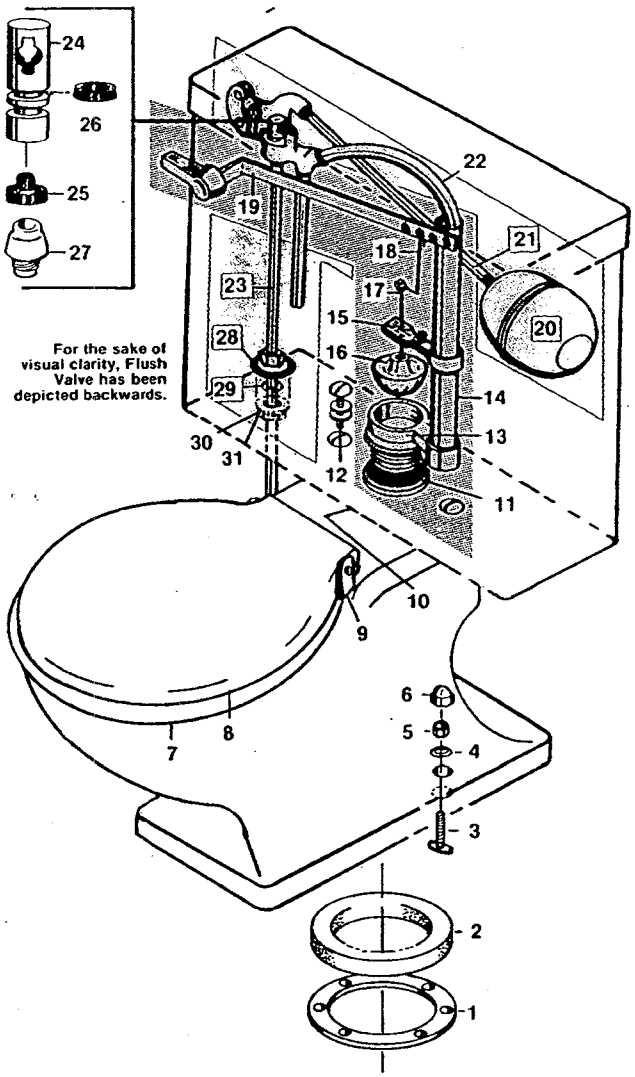
1. **Floor Flange**
2. **Bowl Setting Gasket**
3. **Closet Bolt**
4. **Closet Bolt Washer**
5. **Closet Bolt Head**
6. **Closet Bolt Cap**
   Sexauer's Deluxe Closet Bolt Cap is the best type to use, it needs no putty plaster or glue. It stays in place and won't knock off.
7. **Toilet Seat**
   Sexauer Toilet Seats will not stain, discolor or burn, they are almost indestructible.
8. **Toilet Seat Lid**
9. **Toilet Seat Hinge**
10. **Tank-to-Bowl Gasket (not shown)**

FLUSH VALVE REPAIRS

11. **China Tank Flush Valve Shank Gasket**
12. **Close-Coupled Bolt**
    For Close-Coupled Closets. Two piece closets have closet spuds and flush elbows.
13. **Flush Valve Base**
14. **Overflow Tube, Brass or Sex-o-lite**
15. **Guide Arm, Brass or Sex-o-lite**
16. **Tank Bulb (Ball)**
    The size of the Tank Ball is determined by measuring it's mid-point diameter (between Tank Ball base and bottom) and should match the diameter of the inner seating surface of the flush valve base.
17. **Tank Bulb Stem (Lower Wire)**
    Do not bend this lower wire. If a bend occurs the wire will not operate properly through the Guide Arm.
18. **Lever Wire (Upper Wire)**
    Bend so that loop will be half way between Guide Arm and top loop on Tank Bulb Stem.
19. **Tank Lever**
    Insert Lever Wire through hole in Tank Lever Arm that aligns nearest to the center of Tank Bulb.

FLOAT VALVE (BALLCOCK) REPAIRS

20. **Tank Float**
    Should be immediately replaced if containing any water.
21. **Float Rod**
    Float Rod can be bent downward to allow lower water level in tank to conserve some water. However, water level should not be more than 1" to 2" below water level mark in the back of tank. To bend Float Rod, grip firmly with both hands, hold left hand in steady position next to Ballcock and gently bend downward with right hand. Be sure Float Rod is tight in the Ballcock and Tank Float before bending rod.



22. **Refill Tube**
    Be sure Refill Tube is in Overflow Tube, this assures proper water level in Closet Bowl.
23. **Conventional Brass Ballcock (Pictured)**
    Diaphragm type Ballcock is not shown.
24. **Ballcock Piston (Plunger)**
    Ballcock Piston Packing or O-Ring will work more efficiently when lubricated with Sexauer Valve Stem Lubricant.
25. **Seat Washer**
    If Seat Washer is rough and leaking the problem will usually be a rough worn Ballcock Seat.
26. **Piston Packing or O-Ring**
    If Ballcock is leaking around top of Ballcock, Packing needs replacing.
27. **Ballcock Seat**
    Ballcock Seat should be replaced when new Seat Washer is installed. When replacing Ballcock Seat use Sexauer's ¼" Teflon® Pipe Joint Tape on the seat threads, this assures proper seal and easy removal on the next replacement.
28. **China Tank Ballcock Shank Gasket**
29. **Coupling Washer***
30. **Brass Friction Washer***
31. **Ballcock Lock Nut***

* Underneath the Tank.

SEXAUER®

SEXAUER CLOSET SEATS

Sexauer seats may be raised and lowered manually with ease, yet they will hold themselves in any degree of their arc and will never fall free. The seat is always tight on the bowl and in correct alignment. There is never any weaving or side play. Self-containing hinges prevent the slamming and banging that results in broken seats and broken fixtures.

Sexauer seats are solid plastic throughout and 100% color-stable. They never yellow, never fade or discolor and require only soap and water to keep them gleaming bright throughout their long life.

Sexauer seats are fireproof. They cannot be burned or marred by a cigarette or a match. They are unaffected by any chemical that they encounter in the washroom. They will not stain or discolor or burn, regardless of the treatment that they receive.

Sexauer seats have polyethylene bumpers - not rubber. The bumpers never harden, never discolor and never compress with age. They are driven into a bumper socket and there is no need for screws, tacks or cement to hold them into place. They cannot be removed or kicked loose maliciously and they need no replacement.

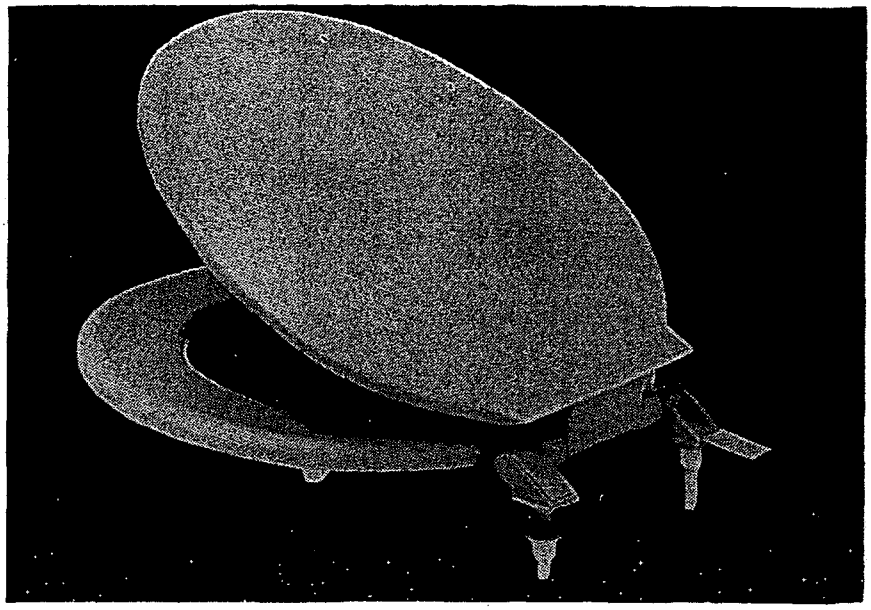
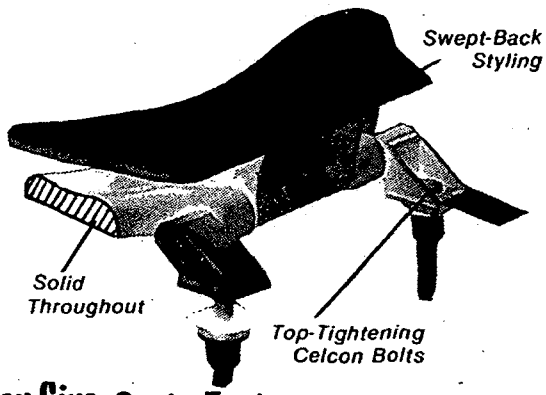
TOILET SEATS



FashionLine Toilet Seats

Contemporary styled seats are available in **white, black, and 5 different fashion colors.** Seat and cover are solid, durable plastic and color impregnated throughout, to resist against chipping and scratching. Swept-back design cover helps conceal hinges and makes cleaning easy. Seats have top-tightening hinges with Celcon bolts for easy installation (5½" centers). Available in regular closed front with cover style. Individually boxed. Repair parts available. For color sample, see your Sexauer representative.



Two Year Warranty

FashionLine Seats Feature:

- Solid plastic with fully impregnated color. No surface finish to wear or scratch.
- Modern styling.
- Swept back cover to help conceal hinges.
- Top-tightening Celcon bolts.
- 4 sturdy bumpers to equalize strain.

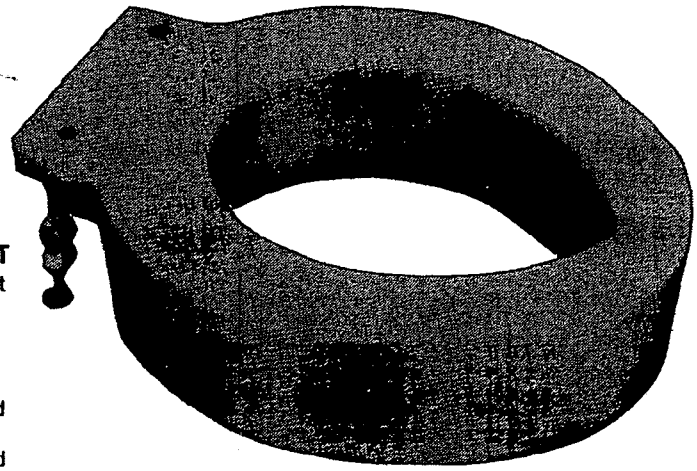
SEXAUER SUPPORT ARMS

Designed for handicapped persons. Support arms extend to floor for maximum support and eliminate excessive strain on seat and closet. Arms lift from floor for easy cleaning and can be used with any Sexauer, or other manufacturer, toilet seat. Made of stainless steel tubing (1" O.D. 16 gauge) with plastic hand grips. Fastens to standard 5-1/2" seat mounting holes. Note: Requires 2" clearance from mounting hole centerline to tank or flush valve.

Cat. No.	Description
024836	Support Arms



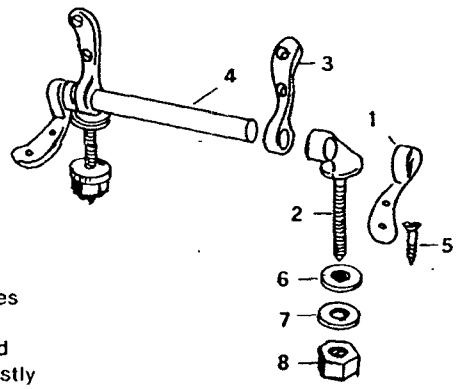
SEXAUER INSTITUTIONAL SEAT LIFT

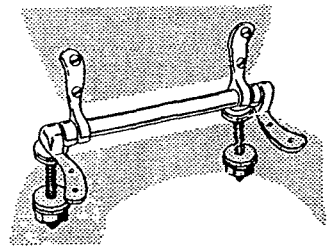
One piece molded construction toilet seat elevator features a 4-1/2" thick hollow-core plastic lift pad with brass reinforced hinge mounting holes for extra strength. Can be used with any Sexauer, or other manufacturer, toilet seat and is contoured to match seat and bowl configuration. Available in regular or elongated style and raises seat 4-1/2" above the bowl. Both seat and seat lift are hinged for easy cleaning.

Cat. No.	Description	Color
024844	Seat Lift/Regular Bowl	White
024851	Seat Lift/Elongated Bowl	White

JASBlatt01539

SEAT HINGE REPAIRS





SEXAUER SEAT HINGES AND REPAIR PARTS

Will replace worn or broken hinges on just about any make of toilet seat. A new hinge will often avoid seat breakage and other more costly repairs. Individual parts can be used as replacements for many other makes and styles or seat hinges.

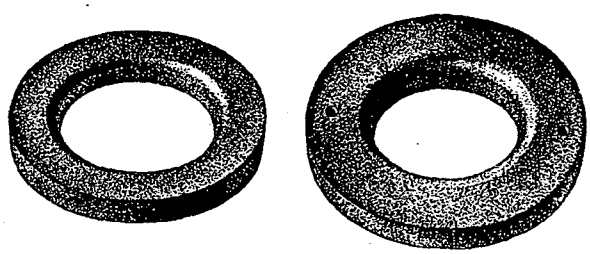
060822	Round China Cap	48,24,12

BOWL SETTING GASKETS

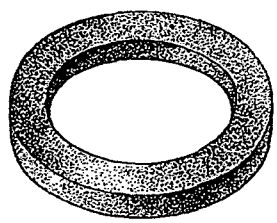
SEXAUER BALLOON SPONGE RUBBER GASKETS



For new installations, remodeling or when bowls must be reset for repairs. Special sponge rubber gaskets, with thousands of tiny cells are super-resilient. Under pressure, gaskets expand into bowl orifice and all crevices to make a positive, gas and water tight connection. Using balloon gaskets saves time by not having to mix putty or plaster and eliminates clean-up.

Cat. No.	Description	Size	Packaged
060830	Balloon Sponge Rubber Gasket	5"x9/16"	24,12,6
060848	Balloon Sponge Rubber Gasket	5"x3/4"	24,12,6
060855	Balloon Sponge Rubber Gasket	5"x1"	24,12,6
060863	Balloon Sponge Rubber Gasket	7"x3/8"	24,12,6
060871	Balloon Sponge Rubber Gasket	7"x9/16"	24,12,6
060889	Balloon Sponge Rubber Gasket	7"x3/4"	24,12,6
060897	Balloon Sponge Rubber Gasket	7"x1"	24,12,6

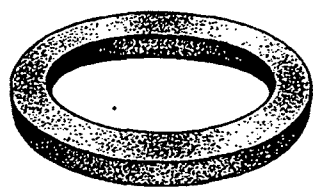
SPONGE RUBBER URINAL GASKETS



Same as above but for urinal installations.

Cat. No.	Description	Size	Packaged
060921	RU-130 Urinal Gasket	3"x2-1/8"x3/8"	24,12,6

TREATED FELT GASKETS



For wall hung closet bowls.

060913	Felt Gasket No.1	5-1/4"x3-11/16"x1/2"	24,12,6
076067	Felt Gasket No.2	4"x3"x9/16"	24,12,6

SEXAUER®

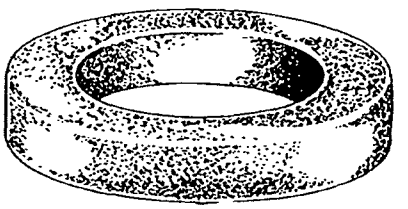
JASBlatt01546

SEXAUER WAX GASKETS

Made of high quality, all-mineral wax. Will not harden or rot. Do not support bacteria so are sanitary and are impervious to vermin. They assure a gas and odor-proof, water tight seal. All wax gaskets are individually boxed and come packaged 24 to a carton. Cartons of any type of wax gaskets can be assorted for quantity prices that apply to each on 4 doz. or gross lot orders.

Wax conforms to federal specification HHC-536a.

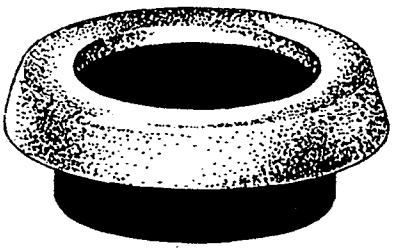
BOWL SETTING GASKETS



PLAIN WAX GASKET

Has uniform texture and unique characteristics that insure a long-lasting, positive seal.

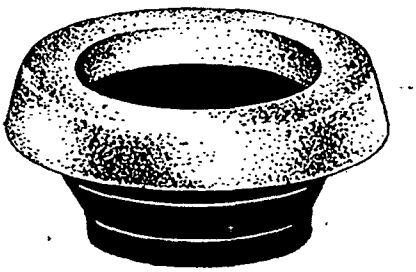
Cat. No.	Description	Size	Packaged Individually
060905	No.1 Plain Wax Gasket	6"x 3-1/4"x 7/8"	24/Master Carton



WAX GASKET WITH PLASTIC FLANGE

For bowls with a "Short Horn" that does not extend deown into lead bend and thus prevents making a proper seal with either a regular gasket, setting compound or putty. Plastic spud is firmly imbedded in wax and will not work loose when bowl is set.

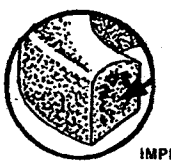
Cat. No.	Description	Packaged Individually
076075	No.2 Wax Gasket w/Flange	24/Master Carton



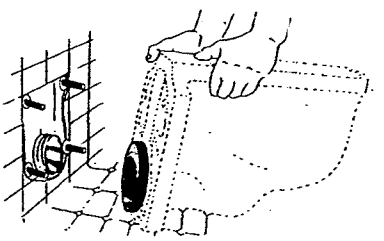
DUAL PURPOSE WAX GASKET WITH RIBBED PLASTIC FLANGE

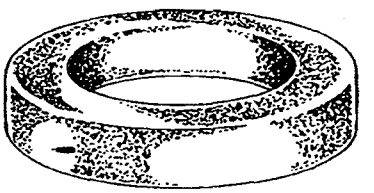
Will fit either regular 4" cast iron or 3" copper pipe. Flange has sealing ribs on side that eliminates capillary action and forms a seal against the inside wall of sewer pipe. Prevents pressure on wax gasket caused by sewer stoppage.

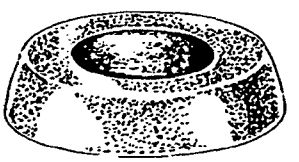
Cat. No.	Description	Packaged Individually
076216	No.3 Wax Gasket w/Ribbed Flange	24/Master Carton



IMPREGNATED WITH PLASTIC







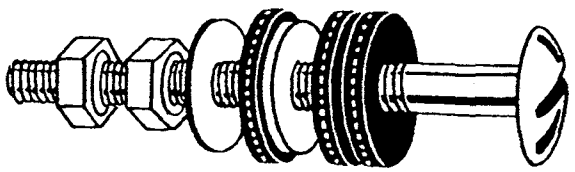
WAX GASKETS FOR WALL-HANGING FIXTURES

Special plastic reinforcement insures sure seal. Available for both closets and urinals.

Cat. No.	Description	Size	Packaged Individually
079996	No.4 Wax Gasket For Wall-Hung Closets	5-5/8"x 3-3/4"x 1"	24/Master Carton
088385	No.5 Wax Gasket For Urinals	3-1/2"x 2"x 15/16"	24/Master Carton

CLOSE-COUPLED REPAIRS

CLOSE-COUPLED CLOSET BOLTS



Available alone (as illustrated) or in kit. Kit contains a pair of closet bolts plus a universal close-coupled spud gasket, (Cat. No.059485). Bolts measure 3-1/4" x 5/16" Repair parts also available.

Cat. No.	Description	Packaged
002378	Close-Coupled Closet Bolt Kit w/Gasket	Pair per bag w/gasket
060574	Close-Coupled Closet Bolt Kit	Pair per bag
060582	RU-58 Rubber Washer	100,50,25

FOR COUPLINGS, STOPS, WASHERS AND OTHER FLEXIBLE SUPPLY PARTS

See "Plumbing & Heating Repair Parts" Section 1.

SEXAUER

JASBlatt01550

CLOSET SUPPLY REPAIRS

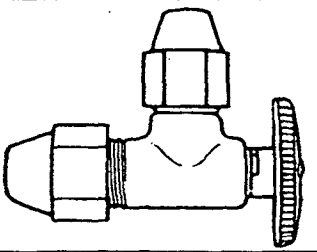
CONQUEST POLYBUTYLENE SUPPLY TUBES

Connections for closets. Available in 3/8" size. Includes compression rings.

Cat. No.	Description	Size	Packaged
095026	CONQUEST Closet Supply Tube	3/8" O.D. x 12"	Each
095034	CONQUEST Closet Supply Tube	3/8" O.D. x 20"	Each

CONQUEST STOP VALVES

Angle or straight valves available with either end -compression or female thread connections. Use with CONQUEST system or any other kind of plumbing system . . . with no "transition" fittings required.



CLEANER

MULE-KICK CLOSET BOWL CLEANER

Formulated for use in toilet bowls. Effective chemical reaction removes stubborn stains. Use as directed.

Cat. No.	Description	Packaged	Weight
063966	Closet Bowl Cleaner/48	Case/48 Cans	60 lbs.
063966	Closet Bowl Cleaner/24	Case/24 Cans	30 lbs.

SEXAUER BULLDOG TOILET BOWL FORCE CUP

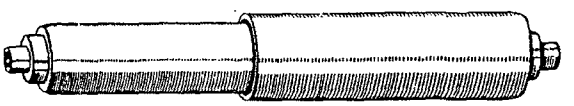
Flexible rounded bottom forms a perfect seal on any toilet bowl - thus develops tremendous pressure to free stoppage and prevent backsplash. Equipped with 24" wooden handle.

Cat. No.	Description
066076	Toilet Bowl Force Cup

PAPER HOLDER

SEXAUER SPRING-TENSION TOILET TISSUE HOLDER

Made of heavy-duty, white plastic. Ends are made with both a 9/16" and 5/16" nipple to replace almost any roller now in use.

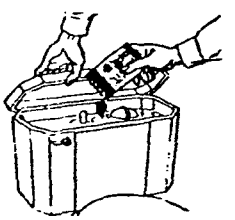


Cat. No.	Description	Packaged
036616	Toilet Tissue Holder	Each

LEAK DETECTOR

SEXAUER TOILET LEAK DETECTOR

Drop these easy to use pellets into the toilet tank. If there is a leaking tank ball or flush valve, the water in the bowl will quickly turn blue! This simple test costs only pennies but can save much more on water bills.



Cat. No.	Description	Packaged
058941	Toilet Leak Detector	100

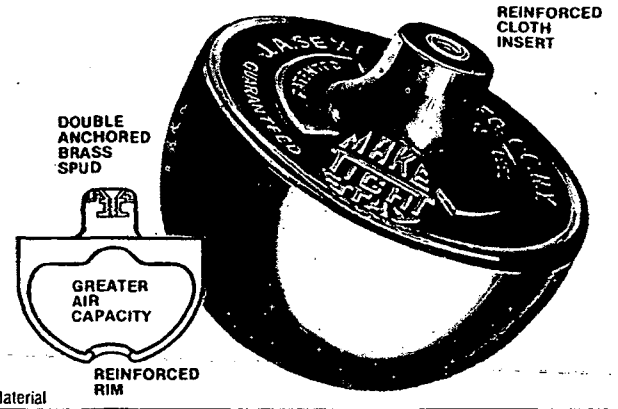
TANK BALLS

SEXAUER FAMOUS FAMILY OF BLUE SPOT TANK BALLS

The right ball for every tank. Made of specially formulated compounds for long-life performance. All tank balls are individually boxed, packed in "Display" cartons containing one dozen. Available in either special "Golden Compound" or "Black Compound."

BALLOON TANK BALLS

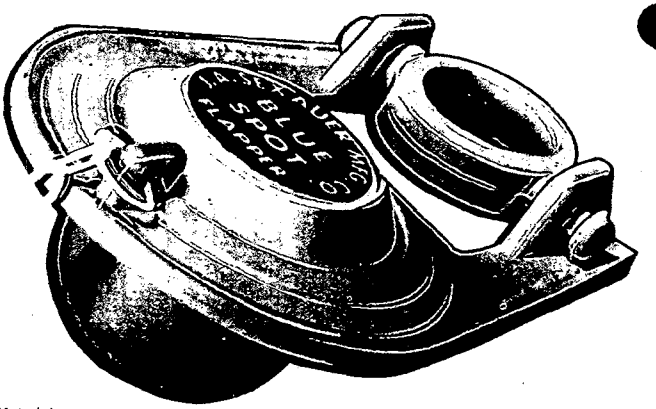
Based on the perfect arc principle the patented construction of the "Blue-Spot" Balloon Tank Bulb creates an expanding action inside the valve seat and adjusts itself to a poorly formed, irregular or corroded brass Flush Valve seat, making it cork-tight. Its larger capacity gives greater bouyancy, easier lift and enables it to ride the water line higher when tank is being flushed. "Reinforced Rim" prevents the bottom opening from enlarging or distorting out of shape. Specially designed SEX-ITE® Spud is firmly anchored to prevent pulling out.



Cat. No.	Description	Size	Material
058909	Balloon Tank Ball	2-3/8"	Golden Compound
058917	Balloon Tank Ball	2-1/2"	Golden Compound
058883	Balloon Tank Ball	2"	Black Compound
Disc.	Balloon Tank Ball	2-1/4"	Black Compound (Sub. 086454)
084624	Balloon Tank Ball	2-3/8"	Black Compound
084632	Balloon Tank Ball	2-1/2"	Black Compound
058925	Balloon Tank Ball	2-5/8"	Black Compound
058933	Balloon Tank Ball	2-3/4"	Black Compound

FLAPPER TANK BALL

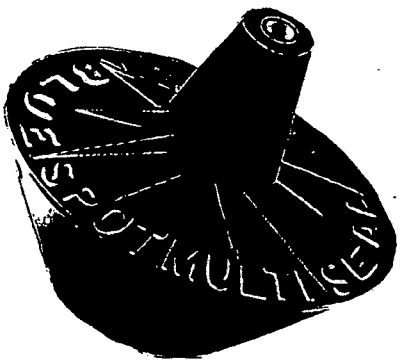
Can be used to replace most existing "flapper-type" tank balls, except Crane and Briggs. When used to replace conventional type tank balls, it eliminates the use of a guide arm and lift wires that are otherwise required. Epuipped with chain and hook.



Cat. No.	Description	Material
086132	"Blue-Spot" Flapper Tank Ball	Golden Compound

MULTI-SEAL TANK BALL

Specially designed to assure a tight seal on flush valves of practically any size or shape, including the built-in china valve seats found in many tanks.



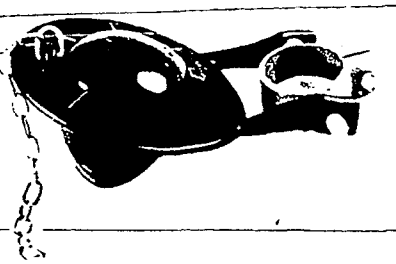
Cat. No.	Description	Material
086454	"Blue-Spot" Multi-Seal Tank Ball	Black Compound

SEXAUER®

JASBlatt01552

TANK BALLS FOR SPECIFIC VALVES

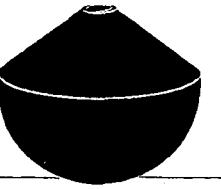
SEXAUER VINYL FLAPPERS



Fit almost any flush valves. Available with "ears" for installation on those valves requiring them, or available with adjustible adaptor for use on overflow tube. Made of durable vinyl and equipped with chain and hook. Individually boxed.

Cat. No.	Description	Packaged
019596	Vinyl Flapper	Each
019604	Vinyl Flapper w/Overflow Tube Adaptor	Each

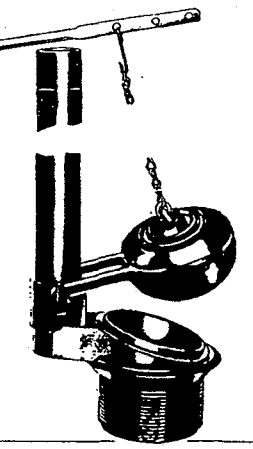
3"TANK BALL



Cone top with double anchored brass spud. Balloon type, made of black rubber as used on old style case closets.

Cat. No.	Description	Size	Packaged
084640	3" Tank Ball	3" O.D.	Each

FLAPPER FOR AMERLINE FLUSH VALVE

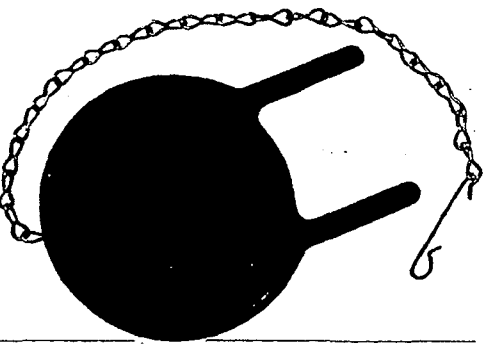


Rubber flapper for Amerline Valve with slanted valve seat, designed to let out more water. Complete with stainless steel chain and hook. Used in the following manufacturer's tanks:

AAA	Kokomo	Rheem
Alliance	Kohler	Verson
Case	Lawndale	Vitroteck
Georgia	National	Woodbridge
Kilgore	Peerless	

Cat. No.	Description	Packaged
075200	Amerline Flapper	Each

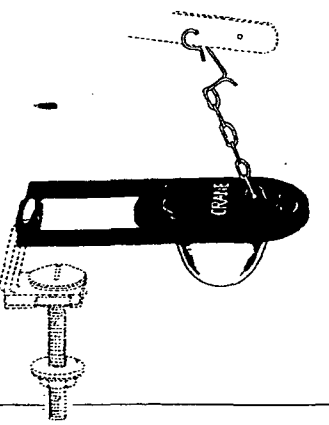
CASE (BRIGGS) FLAPPER



For No.62 flush valve. Special position of pivot pins required for sure seal, complete with chain and hook.

Cat. No.	Description	Packaged
030833	Case Flapper	Each

CRANE FLAPPER

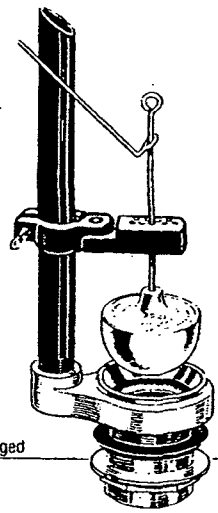


Used on "Neuday", "Drexel", "Oxford", and "Criterion" close-coupled combinations with integral china seat and overflow. Polystyrene float affixed to bottom of rubber flapper is extra bouyant for a full flush before reseating itself. Complete with 10" Monel chain and hook.

Cat. No.	Description	Packaged
075192	Crane Flapper	Each

COMPLETE DOUGLAS TYPE FLUSH VALVES

SEX-ITE® FLUSH VALVES



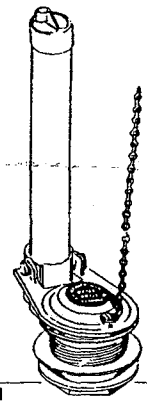
Made of special non-corroding metal with perfectly formed seat. Complete with:

1. Brass Base
2. Sex-o-lite Guide Arm
3. Tank Bulb Stem
4. Lever Wire
5. "Blue-Spot" Tank Ball
6. Over-Flow Tube (Brass or Sex-o-lite)

Each valve comes assembled as illustrated and is individually boxed. Flush valve base w/brass nut available separately.

Cat. No.	Description	Packaged
058818	No.2 Complete Flush Valve w/Sex-o-lite Overflow Tube	Each
058958	No.1 Complete Flush Valve w/Brass Overflow Tube	Each
058966	Flush Valve Base w/Brass Nut	Each

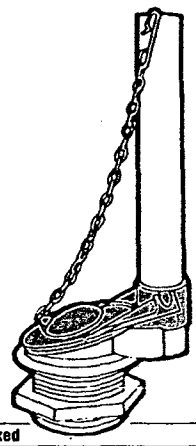
SEXAUER PLASTIC FLUSH VALVE, COMPLETE



Durable plastic flush valve complete with "Blue-Spot" natural rubber flapper, flush valve gasket and hex nut. Overall height is 11".

Cat. No.	Description	Packaged
007609	Plastic Flush Valve	Individually Boxed

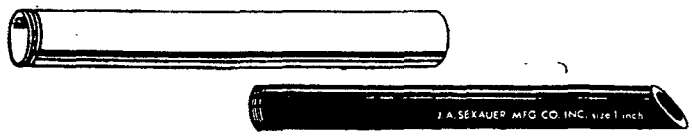
SEXAUER CYCOLAC FLUSH VALVE, COMPLETE



Made from high-impact plastic and equipped with vinyl flapper, beveled washer and hex nut. Has integral extruded ribs to secure refill tube.

Cat. No.	Description	Packaged
025809	Cycolac Flush Valve	Individually Boxed

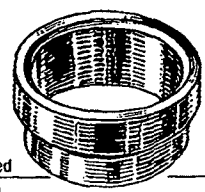
SEXAUER EXTRA HEAVY OVERFLOW TUBES



Available in either 20 gauge copper or durable Sex-o-lite plastic. Measures 1" width x 11" tall.

Cat. No.	Description	Packaged
059162	Copper Overflow Tube	24,12,6
083667	Sex-o-lite Overflow Tube	24,12,6

OVERFLOW TUBE BUSHING



Inside of bushing is tapped 1". Outside is designed and threaded to screw into valves tapped for 1-1/8" or 1-1/4" overflow tubes. Bushing thus permits using a 1" tube and guide for all flush valves and eliminates having to stock other sizes.

Cat. No.	Description	Packaged
058974	Overflow Tube Bushing	24,12,6

TANK BALL STEMS

SEX-ITE® TANK BULB STEMS

Threaded end fits "Blue-Spot" and all other standard tank balls.

Cat. No.	Description	Size	Head	Packaged
058990	Tank Bulb Stem	4-1/8"	Eyelet	144,72,36
058982	Tank Bulb Stem	5-1/2"	Eyelet	144,72,36

SEX-ITE® TANK BULB STEM FOR KOHLER ONE-PIECE CLOSETS

With special loop head.

Cat. No.	Description	Size	Head	Packaged
059006	Kohler Tank Bulb Stem	6-7/8"	Loop	144,72,36

SEX-ITE® LEVER WIRES

Flexible, yet strong and durable.

FLUIDMASTER BALLCOCKS, COMPLETE MODELS 200-A & 400-A

Quality Fluidmaster Ballcocks with "Positive Shut-Off" are made from non-corroding, durable materials like stainless steel & Celcon® . Patented valve designs work with the fluid force of the water pressure, thereby eliminating tank floats & rods. Fluidmaster Ballcocks are also quiet, with no irritating squeaks or leaks, & ballcocks are completely adjustable to water level. Regular or Anti-Syphon models available. Shipped complete - ready for simple installation.

SEXAUER ABS PLASTIC BALLCOCKS REGULAR OR ANTI-SYPHON

Sexauer's REGULAR BALLCOCK is designed for flush tanks 8-1/2" or larger. It is 8-1/2" long from mounting flange to top.

The Sexauer ANTI-SYPHON BALLCOCK fits most tanks and conforms to local plumbing codes that specify an anti-syphon ballcock to prevent accidental contamination. It is 12" long from top to mounting flange and is designed for use in tanks 12" or larger.

Sexauer plastic ballcocks are corrosion resistant, self-cleaning, and durable. Flush tube concentric design reduces refill noise and positive shut-off eliminates hissing. Rebuilding kits are also available.

Cat. No.	Descriptions	Packaged
025759	Plastic Ballcock (Regular)	Individually Boxed
025767	Plastic Ballcock (Anti-Syphon)	Individually Boxed
025775	SE-18 Ballcock Rebuilding Kit	Each/Contains all necessary parts for normal repairs

NOT ALL TOILETS ARE ALIKE

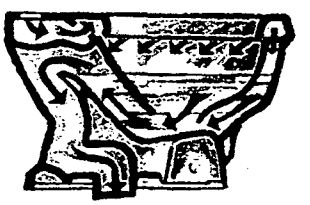
All toilets remove waste, but some work better than others. A good toilet should operate quietly and should provide a large water surface area to prevent contamination and fouling. There are four basic kinds of residential toilets, distinguished by their different flushing actions.

WASHDOWN

The washdown is the least expensive, the least efficient and the noisiest. It's flushed by a simple wash-out action, and may clog more easily than the types below. Much of the bowl area is not covered by water and is subject to fouling, staining and contamination.

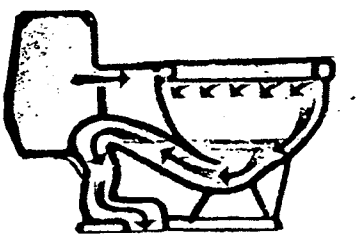
REVERSE TRAP

The reverse trap is the least expensive of the syphon action toilets. It is flushed by creating a syphon action in the trapway, assisted by a water jet located at the inlet to the trapway. This syphon pulls the waste from the bowl. It is moderately noisy, but efficient. The trapway must pass a 1½" ball and the syphon makes the closet less likely to clog. More of the interior bowl surface is covered with water than in the washdown models. Therefore, it is less subject to fouling. It is only slightly more expensive than the washdown and is a better buy.



SYPHON JET

Syphon jet bowls are improved versions of the reverse trap bowls. They have a larger water surface, with most of the interior surface of the bowl covered with water. The trapway is larger and must pass a 2-1/8" ball, thus the flushing action is quieter and less subject to clogging. Syphon jet toilets are usually more expensive than reverse trap toilets.



LOW PROFILE

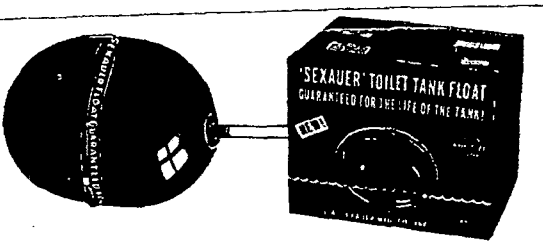
"Syphon Action" is a term applied by some manufacturers to the flushing action of low silhouette, one-piece toilets. These toilets are elegant but more expensive than a syphon jet toilet. The trapway must pass a 2" ball. However, if you want an almost silent flushing action, almost no dry sufaces on the bowl interior, and a low profile, extremely attractive toilet, you may feel the extra cost is well spent.

JASBlatt01560

TANK FLOAT REPAIRS

SEXAUER DELUXE TANK FLOAT

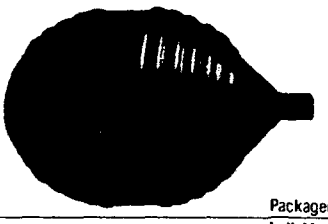
Guaranteed for the life of the tank, the Sexauer float provides maximum lift and insures a positive shut-off. Eliminates electrolysis and is unaffected by water impurities, alkali or sulphur that destroy copper floats. Firmly anchored brass float rod spud cannot pull out and prevents breakage when bending the rod to adjust the float. Individually boxed in cartons of 24.



Cat. No.	Description	Size	Packaged Individually
058750	Deluxe Tank Float	5"x 4"	24/Master Carton

SEXAUER "VACUUM FORMED" TANK FLOAT

Self-threading with pinched neck to prevent leakage. Competitively priced.



Cat. No.	Description	Packaged
025791	Tank Float	Individually

SEX-ITE® ADJUSTABLE FLOAT RODS

Made of non-corroding metal. Long raised threads on one end make it easy to shorten the rod if necessary by simply cutting it off with a hacksaw. without having to rethread it. Threaded 3" one end, 1" opposite end.

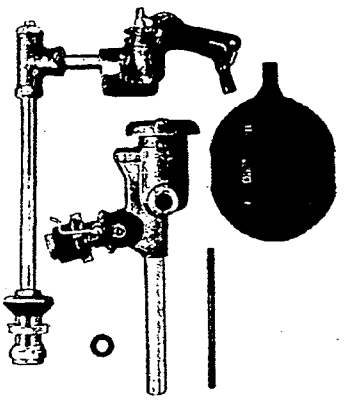
JASBlatt01571

NO.50 BALLCOCK, COMPLETE WITH FLOAT AND FLOAT ROD

COMPLETE BALLCOCK NO.50 FOR 3000, 1000 1100 CLOSETS

Model No.5150 (No.50) operates the same as any compound lever ballcock, except that there is no refill tube. The refilling of the bowl is done through the diverter valve.
The Vacuum Breaker on the ballcock is an open atmospheric vent. The hard rubber ball which seats on a neoprene washer in the vent is NOT a check valve, nor does its function have anything to do with the venting. Its ONLY purpose is to prevent water from spilling through the vent opening when pressure is on an open ballcock. This vent will relieve any vacuum condition on supply lines WITHOUT ANY BACK SYPHONAGE - No other float closet is so adequately protected. WATER VOLUME CONTROL is located beside plunger. Closing the knurled head puts back pressure on plunger and reduces the rate of flow through the ballcock.



No. 3000 Case Wall Hung One-Piece Water Closet

No. 1000-1100 Models Case One-Piece Water Closet

The No.50 Ballcock is used on the models shown above.

CASE

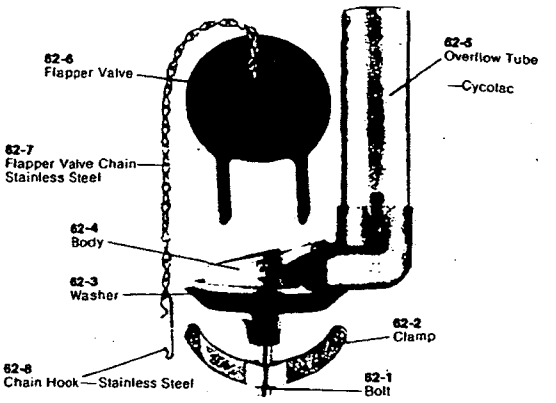
NO.62 FLUSH VALVE FOR 4000 & 4100 CLOSETS ONLY

NO.62 FLUSH VALVE, COMPLETE

Model No. 5113 (SP-13)

No.62 Flush Valve is a flapper type valve with integral overflow. The position of the pivot pins for the flapper on this valve are such that a special flapper is required as most other will not seal. Flapper No.5103 (SP-3) is available separately and includes chain & chain hook.



Cat. No.	Description
030825	No.62 Flush Valve, Complete w/Flapper (SP-13)
030833	No.62 Flush Valve Flapper (SP-3)

OLD STYLE FLUSH VALVE USED WITH NOS.41 & 50 BALLCOCKS

OLD STYLE FLUSH VALVE (MODEL 41-60) USED WITH NOS.41 & 50 BALLCOCKS

Model No.5120 (SP-20)

Old Style Flush Valve with yellow label lift wire for first Model A closet; with pink label lift wire for Old Style Closet with Front Lever, and with green label lift wire for Old Style Closet with Side Lever.

This shrink pack comes with a green, pink, and yellow label lift wires. The first Model A Case one-piece water closet uses the yellow label lift wire with the 5120 Flush Valve. The other lift wires may be discarded. To identify the proper lift wire, simply match it to your previous lift wire.
