mills of Quebec.

Q Doctor, in your opinion, and all of the opinion questions that I ask you, I ask you to express them with reasonable medical certainty.

Do you understand that phrase as I am using it?

A Yes.

Q Do you have an opinion, with reasonable medical certainty, Doctor, as to what fiber types -- there are various fiber types of asbestos; is that correct?

A Yes.

Q Do you have an opinion, with reasonable medical certainty, as to which fiber types can cause the disease malignant mesothelioma?

A I do.

Q And what is the opinion, Dr. Hammar?

A I think, basically, all of the fiber types can cause mesothelioma; and by all, I mean the three major commercial fiber types which are chrysotile, amosite and crocidolite.
