JKN

May 17, 1977

Mr. Ronald Glowacki
Assistant Vice President
Johnson & Higgins of Ohio, Inc.
Hanna Bldg.
Cleveland, OH 44115

Dear Ron:

Although I mentioned this to both Allen and David during our meeting last week, I thought, perhaps, you might also like to have a record for your files of the fact that BONDEX INTERNATIONAL discontinued the use of asbestos in the production of its product line (with the exception of roof coatings) as of April 28, 1977. This also includes a source change on talc for the elimination of asbestine tremolite.

Within the next six weeks, we expect to be completely out of stock on any such asbestos containing product.

Cordially yours,

BONDEX INTERNATIONAL, INC.

Julius K. Nemeth
