M. C. Throdahl

At St. Louis

Date December 29, 1958

DEC 29 1958

To Mr. Elmer P. Wheeler

Reference

At A - 2 - S

Subject

Confirming our conversation of December 23 suggesting the transfer of OS-95 to Sales, we would like to have a statement from you confirming that no other precautions will have to be taken with OS-95 than are recommended for Pydraul F-9 or Aroclor.

We believe that this statement, along with previously transmitted reports on the toxicity of OS-95, will be sufficient for this possible transfer.
