Mr. John Nosse
International Conference of Building Officials
5360 South Workman Mill Road
Whittier, CA 90601

Dear Mr. Nosse:

Referencing your recent meeting with our Mr. Thomas Feit, please be advised that the Type AP cementitious mixture product tested at Underwriter's Laboratories, Inc. is the same material as our MK-6 product. Type AP was the designation given to the product for internal identification during initial product development. When all testing is completed, U.L.I. will be notified that our new product will be named MK-6.

We trust the above addresses any inquiries or questions, and ask that you please contact the undersigned if any further information is required.

Very truly yours,

Robert H. Locke
Marketing Director
