

Commercial Series

Standard Duty Wet/Dry Commercial Vacs

Ruggedly constructed, powerful and portable units — all equipped with 2-stage 1.7 HP (peak) by-pass motors for the daily heavy duty demands of commercial uses.

Three models available, in 6 and 10 gallon sizes with a choice of tanks: steel with baked-on finish and rust-resistant epoxy phenolic-coated interiors, or corrosion-resistant stainless steel. All with heavy-duty 14" metal die-cast accessories.

Rugged Duty Wet/Dry Commercial Vac

The workhorse...made to tackle the heaviest duty professional cleaning problems — for fast and thorough pick-up of heavy debris and liquids. Equipped with 2-stage 2.5 HP (peak) by-pass motor. Rugged top quality construction with unique double plenum to reduce noise.

15 gallon model available, with a corrosion-resistant stainless steel tank and heavy-duty 14" metal die-cast accessories.

Continuous Duty Wet/Dry Commercial Vac

Continuous duty vacuum that runs quietly for as long as 8 hours per day, even in heavy-duty use. An exceptionally quiet machine designed for longer life; unique double plenum reduces noise. 3-stage 1.8 HP (peak) by-pass motor.

15 gallon model available with a rust- and corrosion-resistant stainless steel tank and heavy-duty 14" metal die-cast accessories.
