REQUEST FOR TECHNICAL SERVICE

PROBLEM TITLE: Analysis of building materials from Trenton CPD Plant

SIGNIFICANCE: Determine if materials contain asbestos

SPECIFIC OBJECTIVE:
1) Does pipe wrap contain asbestos?
2) a - does texture coat contain asbestos?
   b - what is composition of texture coat?
3) What is composition of ceiling material analyzed in Report #76478.

SUGGESTED APPROACH: None

DEADLINE (Last day information will be of value): February, 1987

DETAILS OF PROBLEM: Analysis is part of building survey in preparation for possible renovation.

ACCEPTED BY RESEARCH DEPT.: DATE:

ASSIGNED TO:

ADDITIONAL COPIES: Original to Library J. S. Hamilton, J. Hughes, J. W. Wolter, S. Venuti

CONFIDENTIAL

JAN 5 1986

CAMBRIDGE

TO: T. Carrothers/Trenton DATE: December 17, 1986

FROM: T. E. Hamilton

SUBJ: Asbestos Determination of Ceiling Material

The lab report on the sample you sent is attached. As you can see the sample contained chrysotile asbestos. I have recommended that an Industrial Hygiene assessment of the condition of this material be done as soon as possible.
