C. J. PATTERSON COMPANY
KANSAS CITY, MISSOURI

J. R. Fallon/D. E. Roush

Mr. C. L. Clay

Patterson has a Therminol FR system which is used in the manufacture of VERV, a bread additive. From what I gather, this is a borderline case of whether this should be viewed as a Therminol food use or a chemical use.

Please review their application with them, and then reach a decision with Jack and Don as to what action we should take. Contact should be with Mr. Ted Lithgow, who runs their Grandview, Missouri, plant.

As I recall, they put this Therminol system in at our request and they are a large ($2 million) customer so you will want to work with them as closely as possible.

Thanks.

D. A. Olson
