March 17, 1949

Lumbermens Mutual Casualty Co.
4750 North Sheridan Road
Chicago, Illinois

Re: John Blaho

Gentlemen:

You have on file my original report regarding the above captioned case.

This man was discharged from my care on March 12, 1949.

There is a ten per cent loss of the left little finger, a twenty to twenty five per cent loss of the left ring finger, a five per cent loss of the left middle finger, and a five per cent loss of the left index finger. This permanency is due to deformity and loss of use.

Very truly yours,

H. R. Weinzimmer, M.D.
