Home Planning Page Regular Feature

This page is the first of 12 pages to be published semi-monthly in the Development Section and is sponsored by the Home Planning Bureau with the cooperation of the Oakland Tribune.

The purpose of this campaign is to accomplish better home planning and design, to enlighten the public as to the quality and uses of all materials entering into the construction of a home and, in general, to promote better home construction. The Home Planning Bureau, with offices at Breuner's, 21st Street and Broadway, Oakland, is a non-profit organization composed of leading firms in the building material industry.
