Intra Company

Transmission and Chassis Division
Sterling Plant

October 23, 1972

To: Mr. A. Darin

cc: Messrs. R. D. Byrom
R. R. Kentro

Subject: Identification of all Processes Involving Material Containing Asbestos Fibers.

Reference: Your letter dated 10-6-72, same subject.

The following list indicates areas where materials containing asbestos fibers are currently in use at the Sterling Plant:

1. Pipe covering.
2. Boiler jackets.
3. Welder flash curtains.
4. Asbestos rope used as gasket material on caustic quench tanks and furnaces.
5. Clutch and brake linings.
6. Heat resistant electrical wire for furnaces and heating elements.
