**Subject:** NAAQS, pipeline certification, leasing and more....

What's New in the Energy Tracker

Dear Christian,

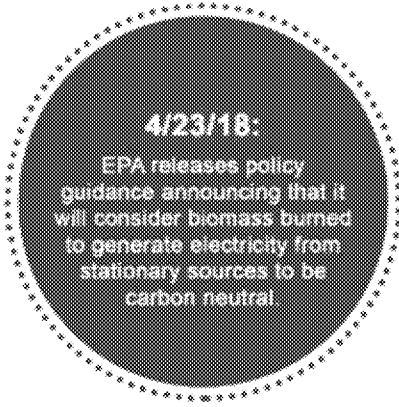

It's been a busy few weeks in energy policy and litigation—by our count, the busiest stretch yet during the Trump Administration. Below is just a *small fraction* of the activity appearing in the latest update of the [Global Energy Institute – Beveridge & Diamond Energy Tracker](#).

**4/12/18:**  
White House issues executive memorandum directing EPA to take a number of actions "to ensure efficient and cost-effective implementation of the NAAQS program," as well as actions relating to regional haze.

**5/9/18:**  
EPA issues memorandum detailing principles for setting future NAAQS standards.

**4/20/18:**  
BLM announces 60-day EIS scoping period for oil and gas leasing in the ANWR Coastal Plain.

**5/4/18:**  
BLM publishes draft environmental impact analyses of proposed changes to sage grouse resource management plans in Colorado, Idaho, Oregon, Nevada, Utah, Wyoming, and part of California.

As a one-stop shop for monitoring key energy policy and litigation activities, the [Tracker](#) can also bring you up to speed on these, and less noticed developments as well.

Sincerely,

Dan Byers  
Vice President Policy  
[Global Energy Institute](#)
