REPORT ON THE EXAMINATION OF

(R 1027)

NAME. George Angus

ADDRESS: 873 Washington St., Norwood

AGE. 51 DATE: October 19, 1966 X-RAY NO. R 5395

EXPOSED TO TUBERCULOSIS

SYMPTOMS: Returns for check-up. Has worked with asbestos off and on for 19-20 years. For the past 5 years has had dyspnea, no wheezing. Denies cough or sputum.

PHYSICAL EXAMINATION:

Weight: 200 lbs.

Heart: Negative. Chest examination: Negative, no rales or wheezes.

X-RAY: Lungs: There is haziness thruout with diffuse linear and nodular densities suggested in the upper lung field. The x-ray has a typical ground-glass appearance usually seen in asbestosis.

Compared with June 15, 1966, no change.

IMPRESSION:

Pulmonary fibrosis, probably asbestosis

RECOMMENDATIONS and Remarks

003008

Check-up in 6 months.
