Dear Art:

Thank you for your letter of November 2 requesting toxicity and labeling information on our Pydraul series of hydraulic fluids which contain chlorinated hydrocarbons.

I have enclosed a description of the following five Pydrauls: F-9, (685) 150, A-200 and AC. If you need additional information on these, please let me know.

In connection with your question concerning precautionary labeling of the Pydrauls, the following statement is included on these labels:

CAUTION! CONTAINS CHLORINATED HYDROCARBONS

Avoid prolonged breathing of vapors or mists.
Avoid contact with eyes or prolonged contact with skin.
If skin contact occurs, remove by washing with soap and water. Following eye contact, flush with water.
If clothing becomes soaked with fluid, launder before wearing again.

If I can be of any further assistance, please let me know.

Sincerely,

Elmer P. Wheeler
Assistant Director
Medical Department
