Texas City, Texas

Dear Mr. Price:

ASTM Committee D-20, Sub-Committee VII, Section C Task Group, on vinyl chloride monomers, met on June 14, 1965 at Purdue University.

It was decided to recirculate to the task group members the two methods for vinyl chloride analysis, which are under consideration.

(1) The B.F.Goodrich method.

(2) A two section method submitted by the Firestone Plastics Co.

Enclosed is a copy of the B.F.Goodrich method.

Sincerely,

B.F.Goodrich Chemical Co.

James P. Cornwell
