Industrial Conference Leaders — 1966

These men were named to guide the Industrial Section activities in 1966

LEADERS of the 1966 National Safety Council Industrial Conference were elected at the 53rd National Safety Congress.

Vice-president for industry will be J. S. Queener, manager, Safety and Fire Protection Div., E.I. du Pont de Nemours & Co., Inc., Wilmington, Del.

H. S. McFarland, director, Personnel Service, General Motors Corp., Detroit, has accepted the chairmanship of the Industrial Conference in place of M.F. Biancardi, Allis-Chalmers Mfg. Co., Milwaukee.

Biancardi, who was originally slated for the chairmanship, has been given a new assignment by his company, not related to accident

prevention and for at least one year will be so involved with his new responsibilities that it would be impossible for him to chair the conference.

McFarland, who had been elected chairman-elect and would have assumed the Conference chairmanship in 1967, accepted the change, and will be the chairman for the coming year.

The Industrial Conference is divided into sections and committees—their activities are coordinated by a vice-president for industry, general chairman, chairman for sections, and chairman for committees. The separate sections and committees are grouped under vice-chairmen.

Chairman of Committees and Chairman-Elect, Conference

D. A. Farrell, director of safety, U.S. Steel Corp., Pittsburgh.

Group Vice-Chairman of Committees, Group A

J. Radcliffe, safety director, Ford Motor Co., Detroit.

Committees under this grouping and their chairmen are:
