Robert L. [illegible], Secretary
David A. Borcina

The meeting was called to order by the acting chairman, Robert L. [illegible], who explained that he had called the Association together at this time and place for the purpose of discussing the problem of [illegible]. The acting chairman then requested F. F. Anderson, Vice Pres., to explain the purpose of the meeting.

Mr. Anderson stated that the purpose of the meeting was to study the [illegible] methods of Peukert's Co. in lead in the light of modern [illegible] handling equipment. He was his opinion that the present methods of [illegible] and [illegible] varying sizes of plates were unsatisfactory and [illegible] and standardize [illegible] the [illegible] of standardization should [illegible] to [illegible] the manufacturer.

[illegible] read [illegible] from [illegible] in regard to [illegible] small consumers.)

[illegible]

Secretary [illegible] battery [illegible] that [illegible] was [illegible] stated that the [illegible] limit of [illegible] per life

In their opinion, redesign of the present pig with a wider base for stability is of considerable importance.

[illegible] showed a blueprint that indicated a [illegible] shapes of pigs that are satisfactory to their plants, and so on.

The representative from [illegible] Co. [illegible] pig [illegible] if [illegible].

[illegible] be glad [illegible] necessary be polled to ascertain prefer [illegible] further stated that they could perhaps offer [illegible] for pig that would be packaged in [illegible] 50 lb. or more. Wire strapping of pigs was not satisfactory.

The representative of Ethyl Corp. concurred and mentioned that wire occasionally enters their pots inadvertently, necessitating shutdowns because of the wire fouling submerged burners and pumps. Also large castings are objectionable because of the hazard of dropping these heavy castings and splashing the melting pots, and slow melting.

The Western Electric Co. representative stated that the method of packaging present day pigs by wire strapping was satisfactory to them except at one plant. However, they would probably [illegible] changes provided the size of pigs was uniform throughout industry. Their experience with the webbed Sedanac pigs was satisfactory except that it made necessary an extra operation of cutting apart the pigs.

The suggestion was then made that perhaps a solid cast in coils, either extruded or continuous cast, could be utilized.

Representatives of the National Lead Co. stated that the cost would be prohibitive. It was their thought that perhaps greater utilization of the available floor space of cars could be made, overhead loading pigs through [illegible] instead of four-tiers. This would then necessitate loading with [illegible] of the load.

[illegible] Representatives of the [illegible] Smelting & Refining Co. stated that they have [illegible] found no satisfactory [illegible] they are now using [illegible] different [illegible] specifications and would [illegible] for any of these. They have also given up [illegible] satisfactory.

It was the opinion of the meeting that [illegible] should be given the opportunity of discussing these possibilities [illegible] operating and traffic personnel and see if such proce[illegible] It is felt that any survey of the entire [illegible] suggestions or recommendations should be held in abeyance [illegible] time as something more concrete can be offered.

The acting chairman stated that the election of a permanent chairman was in order.

A motion to appoint Robert L. Ziegfeld as permanent chairman was duly seconded and unanimously approved.

The chairman then requested a time for the next meeting. There being no objection, the next meeting was scheduled for Thursday, January 17, 19[illegible], at 10:30 A.M. at the Yale Club.

There being no further business, the meeting adjourned at 12:00 noon.

Robert L. Ziegfeld

Secretary
