DATE : June 15, 1976 CC: R. A. Potter - B2SB

SUBJECT : FEDERAL EPA REQUEST FOR PLANT ACTION ON PCB LOSSES

REFERENCE :

TO :

R. E. Bilger - B3NJ
A. E. Leisy
P. S. Park - E2NE
M. A. Pierle - E1SF
R. A. Pohl - B2SB
J. C. Weber - B2SK

To summarize actions we agreed to in our June 8 meeting, my understanding is the following:

1) Pierle and Weber will handle requests from Midwest Research and NIOSH in such a manner that visits to plant for information samples, etc. will be eliminated.

2) Park will set up meeting with Region V, U.S. EPA at General Offices site in latter half of July. Primary contact to be made with Mr. Fenner, Attorney for EPA.

3) Above group will meet prior to July meeting to insure that our corporate, business group, etc. positions are known at time of July meeting.
