J. G. Ortiz - E2ND
M. C. Throdahl - D1D

Mr. Hanley asked me to handle the repsonse to the attached letter from Region VIII of the Environmental Protection Agency. It was agreed that my draft letter should be reviewed by you prior to mailing. I would like to be able to mail this no later than Monday evening, November 5th.

The draft has already been approved by J. G. Ortiz on behalf of Corporate Law.

I discussed the Colorado situation briefly with Mr. Hanley on Wednesday and it was agreed that you should decide whose signature should be on the letter. I suggest that since I have been the principal contact with the Region VIII personnel in Denver that this letter should go out over my signature.

Thank you.

D. Wood

Mr. D. Wood --

I believe you should sign this letter and I would agree that it can go as you have it drafted.

We do have a problem, however, in that MIC has asked for some relief from Environmental Policy Staff and from Public Relations in dealing with the many kinds of questions that are popping up constantly on PCBs. We are trying to come to a Corporate policy on the point, so let's not let anything drop between the bed and the wall until we do come up with the right kind of policy.
