Dear Ted:

I will retire at the end of this month. I suggest that I be replaced on the CMA VCM Research Coordinator's Committee by John Barr.

John has the management of regulatory response for our company and, as you well know, he is highly qualified in his knowledge of VCM and its polymers.

It has been my pleasure to have worked with you, Nick Wheeler, Maury Johnson and others over the years.

With best regards.

Sincerely,

Mayo
