P. S. PARK
J. R. SAVAGE
G. R. SIDO

D. A. OLSON

I discussed with P. Park and R. Sido the modification of Pyranol and Inerteen labels to include the wording regarding PCB in the environment.

Phocian agrees that G.E. and Westinghouse should be consulted, however, we must insist on this additional wording. Bob Sido is ready to redesign the labels as soon as we tell him what we want.

The wording which is now being put on Aroclor labels is as follows:

> "This product contains polychlorinated biphenyls, which some studies have shown may be an environmental contaminant. Extreme care should be taken to prevent any loss into the environment through spills, leakage, use, disposal, vaporization or otherwise."

Will you please contact G.E. and Westinghouse and get quick agreement?
