151 South Tucson Boulevard
Tucson, Arizona

SUBJECT: FOOD GIANT MEAT PLANT

Dear John:

Enclosed please find a suggested specification for the subject job. The base specification is for T-bar ceiling construction with latex cement ceiling finish. I have proposed Deraspan® room liner alternate which would cost a slight premium using Glasbord finish and would mean a considerable savings if cement asbestos board finish were used.

If material is installed by a Dow A-Proved Installation Contractor in accordance with this specification, The Dow Chemical Company and the installation contractor will jointly and severally guarantee material and workmanship for a period of five years.

If I can be of further assistance, please don't hesitate to contact me.

Thank you.

Yours very truly,

James L. Tucker
