products manufacturers.

Q Mr. Weaver didn't feel that way, did he?

MR. FRIESTEDT: Objection.

A Mr. Weaver expressed his feelings right there.

Q Mr. Weaver had previously in 1973 presented the paper to the Institute at Vail wherein he describes that all forms of asbestos -- this is Exhibit EE -- all major types, commercial types of asbestos --

A Can cause cancer. It's not saying can cause mesothelioma.

Q On page 2 of Exhibit EE --

A Then show me the correct pronoun.

Q -- he says that the most important item here is the incrimination of all, and he underlines all, major types *of asbestos as causal agents for carcinoma*, particularly mesothelioma.

Do you read that to somehow suggest chrysotile doesn't cause mesothelioma?

A Surveys --

MR. FRIESTEDT: Object to the form of the question. Can we go off the video record for a second?

MR. LELIEVRE: 11:26, we are now going off the record.
