
MAKE THE TIGHT LINE STAY
"TOP SECRET"
MAKE THE TIGHT LINE STAY
The secret of tight faucet and valve stem bonnets is in their to packing, and mechanics with modern "know-how" prefer this 'SEXAUER' Handy Andy assortment which backs up skilled workmanship with precision-fit, maximum-wear materials.
Here's a working stock of all sizes regularly used. They're cut on a bias and easy to install. Every one is "tops" in quality and accurate design, your assurance against the nuisance and come-backs common to old-fashioned wicking.
Woven from specially selected, long-staple asbestos fibres, 'SEXAUER' Valve Stem Bonnet Packings are thoroughly impregnated with granular graphite for permanent lubrication and will fit all popular valves from 3/8" to 1 1/2".
