H. A. Huggett, who left Morgan Hill some 18 months ago has returned with ... to make this their permanent

be thus stated.

FIRST: Incorporation means the expenditure in Morgan Hill of a large percentage of the money hitherto disbursed throughout the county.

SECOND: Incorporation means the spending of this money judiciously and economically in Morgan Hill by men who have been tried, and who are elected by a majority of the people.

THIRD: Incorporation means that business men, who have hitherto remained in the background, will be ready to invest both money and time in building up the town.

FOURTH: Incorporation means more and continually more work for all classes of labor skilled and unskilled.

FIFTH: Incorporation means that Morgan Hill may soon become the centre of business as well as agricultural importance in the southern Santa Clara Valley.

Those who favor these things are in favor of incorporation. Those who are opposed, are in favor of stagnation in business, stagnation in enterprise, stagnation in any advancement for the public good. They have only one argument, that of the imported citizen who had just arrived at Castle Garden; "Is there a Government! Well, bedad. O'im agin it."

LEONARD COATES.

It is now a settled fact that the voting machines, for which the county has expended such a tremendous sum of money will not be used on November 6th. The machines accomodate only seven tickets while an eighth one has now been placed in the field, rendering them worthless for the next election. The democrats are officially charged as being responsible for the necessity of using the Australian ballot. There is no denying the fact that to a great many voters the machines are somewhat puzzling, consequently the old method will be welcomed by many voters. What we want is an equal fair chance for all.
