Washington, D.C., 20005

Dear Dick:

Pursuant to our previous discussions in March and June, I have enclosed seven copies of a proposal entitled, "Polychlorinated Biphenyl's Translocation and Environmental Control". I appreciate very much the opportunity to submit this proposal for your consideration, and am confident that the results of these investigations will be of unique value to the Sport Fishery Research Foundation.

Should any questions arise concerning the proposed investigation, please do not hesitate to contact me immediately at 504-394-2233, or 504-588-5374.

Kindest personal regards.

Cordially,

Robert S. Reimers, Ph.D.
Assistant Professor
