Dear Mr. Darby:-

In July and a few days in August this coming summer, I am planning to spend my holidays in Europe. To take advantage of this opportunity I would like to visit the Ghent laboratory and spend a few days there to get acquainted with the operation and have a chance to become familiar with the European techniques to manufacture coated fabrics. As discussed with Lubo Visnovsky on his visit to Oakville in December, we feel that this visit could result in establishing some mutual interests, with possible benefits to both Oakville and the European operation.

I would appreciate receiving your comments and suggestions and in case you do not find any objection to my visit, I would like to arrange my schedule with Lubo directly.

Best personal regards.

Yours very truly,

MONSANTO CANADA LIMITED
