

Japan -

- With respect to Japan - I should enquire on arriving home as to
- ① What the situation, with respect to the manufacturing activities, is there; and what arrangements if any, have been decided upon on a ^{re} Ethyl Corporation.
 - ② What Nick Carter has learned for my benefit in Japan as to how to proceed.
 - ③ What de Pont has done, if anything, toward clearing the way for TML in Japan, and through whom (Akatsuka?) and approach has been made (or contemplated) to the governmental authorities.
 - ④ I am to advise London what the status of this matter is. I sh. op. take such action as may seem to be required.

Venezuela

never was
TML for use in ~~Latin~~ "Venezuela" H. I. + I. on Ethyl and
is no secret so far as I am concerned can consult Sebastian
Baker about this - asking them, what if anything has been done to
clear the matter of TML with the Venezuelan Government.
I should find out about this and inform London -
I should discuss this with Peter Saunders as well.
