P. H. Smith - E2ND
D. Wood - B2SD

TO : J. C. Masson - E1ND

[redacted]

Attached is a memo I sent to Pete with my comments. Mike Pierle of MCI may have additional comments concerning functional fluid systems in MCI plants which contain residual PCB's from replaced fluids. David Wood of MIC Functional Fluids Marketing has similar concerns.

Clay Hathaway of the Corporate Research Labs has concerns about laboratory samples of PCB.

If you want additional comments from me or if I may make comments on your draft to EPA, please let me know.

Charlie
